About Zagreb, the capital of Croatia

The city of Zagreb, capital of Croatia, on the historic and political threshold between East and West, illustrates both the continental and Mediterranean spirit of the nation it spearheads.

Zagreb enjoys a rich cultural life. Around 30 theatres are active in the city, some with regular programmes, some occasional. Along with some 30 museums, a large number of galleries and many theatre, music and dance festivals all combine to make Zagreb a city of art.

Zagreb can be described as a city with the biggest lounge. The moment the sun appears in the sky in spring, restaurant, café and coffeehouse terraces open for custom. Streets become promenades, places to get a cup of coffee, relax or have a business meeting. A combination of Mediterranean cordiality and northern business sense make any visitor feel welcome.
