8th Edition of

Biopolymers - Bioplastics & Polymer Science Conferences

October 15-16, 2018 Las Vegas, Nevada, USA

Theme: Applications and Characterization of Polymers Vs Biopolymers: A Global Debate

Conference Secretariat | 47 Churchfield Road | London, UK, W3 6AY | +1-800-014-8923

gloria.anderson2016@gmail.com | arizonagrey1234@gmail.com

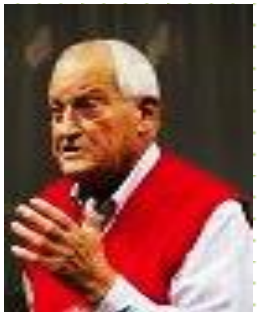
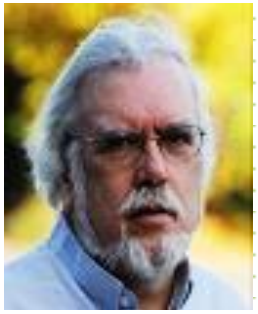
Biopolymers & Bioplastics 2018 | Polymer Science 2018

Organizing Committee



Emo Chiellini
Univ. of Pisa
Italy

Bharat Bhusan
Nanoprobe Lab
USA



G Mitchell
I P of Leiria
Portugal

M A Masuelli
CONICET
Argentina

Media Partners & Exhibitor

Keynote Speech

Special Session

8th Edition of
conferenceseries LLC Ltd
Biopolymers and Bioplastics
&
Polymer Science and Engineering
October 15-16, 2018 | Las Vegas, USA

Confirmed Speakers

Title: Poly (ethylene terephthalate)- Poly (ethylene glycol) copolymer as a dye transfer inhibitor of indigo dye

Nahla Kreidly, University of Illinois, USA

Title: Political landscape for bioplastics and biobased materials

Rina Singh, Biotechnology Innovation Organization(BIO), USA

Title: Speed up medical devices' release to market

Nazli Gulsine Ozdemir, Sartorius Stedim Biotech, UK

Title: The effect of graphene oxide (GO) filler on the mechanical properties of polyethylene

Ebru Gunister, Khalifa University of Science and Technology, UAE

Title: Synthesis, characterization and thermoresponsive behaviour of hydrophobically modified poly(2-ethyl-2-oxazoline)s

Balázs Pásztói, Research Centre for Natural Sciences, Hungary

Title: Rheology of starch and gum chañar brea mixtures

Martin Masuelli, Instituto de Fisica Aplicada, Argentina

Yet to be confirmed

Title: Electrochemical deposition of mineralized collagen coatings on metallic substrate

Kui Cheng, Zhejiang University School of Materials Science & Engineering, China

Title: A soluble polymer with intrinsic porosity for flue gas purification and natural gas upgrading

Xinbo Wang, King Abdullah University of Science and Technology, Saudi Arabia

Title: Dinuclear Fe-based catalysts for polymerization of ethylene; Effect of spacer

Mostafa Khoshsefat, University of Alberta, Canada

Title: Recent advances in pineapple leaf fiber reinforced polymer composites

Jyoti Jain, Indian Institute of Technology Roorkee, India

Title: Development and characterization of polysaccharides/carrageenan based biofilms

J. P. Nirmala, Anna University, India

Title: Biodegradation of plastic waste by using microalgae and their toxins

Prakash M. Bhuyar, Universiti Malaysia Pahang, Malaysia

Title: Utilization of biomass as fillers in elastomer industry

Sunday Honesty Okobia Egboh, Delta State University Abraka, Nigeria

Venue Attractions
