Major Sessions

- Chemical Reaction Engineering
- Catalysis Engineering
- Biotechnology and Biochemical Engineering
- Thermodynamics Process
- Transport Phenomenon
- Crystallization
- Chemical Engineering- Separation process
- Fluid Mechanics
- Physical Organic Chemistry
- Process Heat Transfer
- Environmental Engineering and Elementary Biology
- Nano chemistry and Nano Technology
- Chemical Polymer Technology
- Industrial Pollution and Safety Control
- Modelling Simulation and Optimization
- Material Science and Engineering
- Electrochemistry and Electrochemical Engineering
- Mass Spectrometry

Best Poster Award

- You will be given about 5-7 minutes to present your poster including questions and answers. Judges may pose questions during the evaluation of the poster
- Judges will even evaluate the student's enthusiasm towards their study, interest and knowledge in the area of their research
- The winners will be announced at the closing ceremony of the conference. The decision of the winner will be withdrawn if the winner/winners is/are not present at the time of announcement
- Apart from the judging time you may also be present at the poster to share your research with interested delegates

Young Researchers Forum

- Present your research through oral presentations
- Learn about career development and the latest research tools and technologies in your field
- This forum will give pertinent and timely information to those who conduct research and those who use and benefit from research
- Develop a foundation for collaboration among young researchers
- The forum will provide an opportunity for collegial interaction with other young investigators and established senior investigators across the globe
- Interact and share ideas with both peers and mentors
