Invitation

Dear Colleagues,

Conference Series llc Ltd. is delighted to welcome you to Singapore for the prestigious 12th World Congress on Advances and Innovations in Dementia. Dementia Congress 2018 will focus on the theme "Exploring the Challenges and Excellence in Dementia Care and Research". We are confident that you will enjoy the Scientific Program of this upcoming Conference.

We look forward to see you at Singapore.

With Regards,

Dementia Congress 2018 Operating Committee

Conference Series llc Ltd. Conferences

Editorial Board Members of Supporting Journals:

Tetsumori
Yamashima, Kanazawa University, Japan

Lotta Granholm
Medical University of South Carolina Charleston, USA

Eef Hogervo
Loughborough University, U K

David L Bachman
Medical University of South Carolina, USA

Khalid Iqbal
Staten Island, USA

George Perry
University of Texas at San Antonio, USA

D P Devanand
Columbia University, USA

Rudolph J Castellani
University of Maryland, USA

Inge Grundke-Iqbal
USA

Dott Federico Bilotta
USA

Gary W Arendash
University of South Florida, USA

Ilya Bezprozvanny
University of Texas Southwestern Medical Center, USA

Elliott J Mufson
RUSH University, USA

Accommodation

A large number of rooms have been reserved. Discounted room rates for Dementia Congress 2018 participants are proposed. Only reservations made through the Conference will benefit these rates. The Congress Center can be easily reached by Public transportation.

Exhibition and Sponsorship

An Exhibition will be held concurrently with the Conference. The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of new findings in the fields of Bacteriology.

About Singapore

Singapore, officially the Republic of Singapore, is a sovereign city-state and island country in Southeast Asia. It lies off the southern tip of the Malay Peninsula and is 137 kilometers (85 mi) north of the equator. The country's territory consists of the lozenge-shaped main island, commonly referred to as Singapore Island in English and Pulao Jong in Malay, and more than 60 significantly smaller islets. Singapore is separated from Peninsular Malaysia by the Straits of Johor to the north and from Indonesia's Riau Islands by the Singapore Strait to the south. The country is highly urbanized, and little of the original vegetation remains. The country's territory has consistently expanded through land reclamation. Singapore's progress over the past three decades have been remarkable, yet the island has not been overwhelmed by development. Visitors will discover a wealth of historical treasures from the past, in the beauty of older buildings, values and traditions that have survived in the face of profound social and geographical change. Singapore is both an island and a country, but perhaps its best description is that of city-state. Like the great city-states of the past, it offers civilization and order in the highest degree. Its combination of Western-style development and Eastern style calm seems to present the best of both hemispheres: It's a modern metropolis where you feel safe walking the streets, and it's an Asian business center that's a model of efficiency. Singapore is also a multicultural city, and close to one quarter of its population are expatriates or foreign workers from all over the world. Known for its desire to become the technology hub of Asia, Singapore is the most wired country in the region.
