Invitation...

Dear Colleagues,

Conference Series Ltd takes immense pleasure to extend our warm welcome to invite all the participants from all over the world to attend **6th Annual Congress & Medicare Expo on Primary Healthcare**, on **May 14-16, 2018** at **Tokyo, Japan** which will entail lively debates, prompt keynote presentations, Oral talks, Poster presentations, workshops and networking opportunities around a core of plenary and concurrent sessions based on pivotal issues in the Primary Healthcare sector.

Conference Series Ltd Organizes 1000+ Conferences every Year across USA, Europe & Asia with support from 1000 more scientific societies and Publishes 700+ Open access journals which contains over 50000 eminent personalities, reputed scientists as editorial board members.

Primary Healthcare 2018 is a forum to explore issues of mutual concern as well as exchange knowledge, share evidence and ideas, and generate solutions. The focus of Primary Healthcare 2018 is to present research findings, discuss research methodology and policy issues, and build and maintain essential networks between researchers, practitioners, policy makers and representatives of consumer organizations. Primary Healthcare 2018 works with the theme "Evidence and Innovation in Primary Healthcare" aims to discover advances in health practice, management and education in relation to health disparities as well as a breadth of other topics. Patients with access to a regular primary care physician have lower overall health care costs than those without one, and health outcomes improve.

Conference will focus on the following topics during presentations of the three-day event, which reflect current education research, developments and innovations internationally and as evidenced in both primary care and Healthcare.

- Primary Healthcare
- Primary Care Medicine
- Nutrition and Healthcare
- Quality in Primary Care
- Family Medicine and Primary Care
- Primary Healthcare Management
- Primary Care: Fitness and Wellness
- Primary Care Nurse Practitioner

Tourist Attractions

Venue

Tokyo is Japan's capital and the world's most crowded city. It is likewise one of Japan's 47 prefectures, comprising of 23 focal city wards and different urban communities, towns and towns west of the city focus. The Izu and Ogasawara Islands are likewise part of Tokyo. It offers an apparently boundless decision of shopping, excitement, culture and feasting to its guests. The city's history can be valued in areas, for example, Asakusa, and in numerous phenomenal exhibition halls, notable sanctuaries and patio nurseries. As opposed to basic recognition, Tokyo additionally offers various appealing green spaces in the downtown area and inside moderately short prepare rides at its outskirts. Health guidelines in Tokyo are tantamount to those found in other exceptionally industrialized nations. Eateries are frequently perfectly spotless, and the nourishment is protected to eat and the water safe to drink everywhere. Medical protection in Japan is of two kinds. Private protection is typically held through one's boss or worker's organization. General medical coverage is accessible to everybody through the administration's National Health Insurance. Arrangement holders of the last pay 30 percent of expenses, and keeping in mind that most specialists and medicinal and dental foundations buy in to the program, not all do. Certain costly materials (like gold fillings) are not secured, however the arrangement provides for costly methods.

I am certain you will get bunches of satisfaction in Tokyo
