

2nd International Conference on 3D Printing and Additive Manufacturing

**March 25-26, 2022
Berlin, Germany**

2nd International Conference on
3D Printing and Additive Manufacturing Conference 2022

March 26th,2022

Speaker 1

Title : 3D-printed continuous and short carbon fibre reinforced composite metamaterials with tailorable negative Poisson's ratios

Yuan Chen, The University of Sydney, Australia

Speaker 2

Title: "Current challenges and adoption of Additive Manufacturing technology in Industrial sector"

Trivedi Achyut,Ganpat University, India

Speaker 3

Title: 3D food printing for personalized nutrition

Jeyan A. Moses,National Institute of Food Technology,India

Speaker -4

Title : Smart Home Application, design and implementation software-based human detection in residential protection systems

Mohsen Miri,Shahid Rajaee Teacher Training University School of Computer Engineering, Iran

Speaker -5

Title : 3D printing technology application for tissue engineering

Montaser LM, Menoufia University, Egypt

Speaker -6

Title : Using 3D printing for pre-planning of High Tibial Osteotomy

Hamidreza Mosleh,Iran University of Medical Sciences , Iran
