Invitation

Dear Colleagues,

Conference Series is delighted to welcome you to Tokyo, Japan for the prestigious 22nd International Conference and Exhibition on Advanced Materials and Nanotechnology. Advanced Materials 2018 will focus on the theme “Exploring the Possibilities in the Field of Advanced Materials and Nanotechnology”. We are confident that you will enjoy the Scientific Program of this upcoming Conference.

We look forward to see you at Tokyo, Japan.

With Regards,

Advanced Materials 2018 Operating Committee

Accommodation

A large number of rooms have been reserved. Discounted room rates for Advanced Materials 2018 participants are proposed. Only reservations made through the Conference will benefit these rates. The Congress Center can be easily reached by Public transportation.

Exhibition and Sponsorship

An Exhibition will be held concurrently with the Congress. The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of new findings in the field of Advanced Materials and Nanotechnology.

About Tokyo

Tokyo is Japan’s capital and the world’s most populous metropolis. It is also one of Japan’s 47 prefectures, consisting of 23 central city wards and multiple cities, towns and villages west of the city center. The Izu and Ogasawara Islands are also part of Tokyo. Prior to 1868, Tokyo was known as Edo. A small castle town in the 16th century, Edo became Japan’s political centre in 1603 when Tokugawa Ieyasu established his feudal government there. A few decades later, Edo had grown into one of the world’s most populous cities. With the Meiji Restoration of 1868, the emperor and capital moved from Kyoto to Edo, which was renamed Tokyo ("Eastern Capital"). Large parts of Tokyo were destroyed in the Great Kanto Earthquake of 1923 and in the air raids of 1945.
