

Conference Program

14th European Conference on **AgroTechnology & Horticulture**

November 04-05, 2019 | Paris, France

SPEAKER SESSSIONS	
Session I	Simpler crop protection through smart herbicide usage <i>Kumar Gauraw, Tata Consultancy Services Deutschland GmbH, Germany</i>
	Laser induced breakdown spectroscopy technique for age verification in rice <i>Hitomi K Huong, Nanjing Agricultural University, China</i>
	Assessment and modeling of phytoavailability of green beans contaminated by lead and chromium in bioponic culture <i>Loubna Azariz, Mohammed V University, Morocco</i>
	Farmer's decision making toolbox for <i>Plutella xylostella</i> (L.) (Lepidoptera: Plutellidae) management on fresh market cabbage <i>M Stemele, Fort Hare University, South Africa</i>
Break	
Session II	Potential Application of Selected Phosphate Solubilizing Bacteria Isolated from Rhizospheric Soil of Chenopodium quinoa in Plant Growth Promotion <i>Ismail Mahdi, University Mohammed VI Polytechnic, Morocco</i>
	Growth, yield, yield components and quality oil of Sunflower (flame) variety affected by organic, mineral nitrogen and raw spacing <i>Saifaddin S. Ali, Allawa Company for General Trading, Erbil -Iraq</i>
	Nitrogen forms effect on macronutrient partitioning in Gerbera (<i>Gerbera jamesonii</i>) cut flower <i>Mohammad Ali Khalaj, Ornamental Plants Research Center (OPRC), Iran</i>
	An Analysis of Dissemination of Technology and Growth in Agriculture of Jammu and Kashmir <i>Altaf Hussain Padder, Annamalai University, India</i>
	Isolation and identification of phosphate solubilizing bacteria from the rhizospheric soil of jujube (sadra) and characterization of their plant growth-promoting activities <i>Fahsi Nidal, Mohamed VI Polytechnic University, Morocco</i>

Day 2 will be updated soon...
