Invitation...

Dear Colleagues,

Conference Series extends its welcome to 10th World Congress on Alzheimer’s Disease and Dementia during May 30-31, 2018 at Osaka, Japan with a theme “Novel Research and Diagnostic Approaches of Alzheimer’s Disease and Dementia”. Conference Series through its Open Access Initiative is committed to make genuine and reliable contributions to the scientific community.

Conference Series Organizes 1000+ Conferences Every Year across USA, Europe & Asia with support from 1000 more scientific societies and Publishes 700+ Open access journals which contains over 100000 eminent personalities, reputed scientists as editorial board members. Alzheimer’s Disease and Dementia Conference will focus on educational research directed toward its impact on clinical outcomes, through oral and poster presentations, educational workshop sessions, and influential plenary presentations. Attendees will be provided with the tools to enhance Neurology programs to make education more effective in Alzheimer’s Disease and Dementia. Conference will focus on The following conference have been discussed during presentations of the two day event, which reflect current education research, developments and innovations internationally and as evidenced in Neurology.

- Teaching, Assessment and Learning in University and Clinical Practice
- Technology, Simulation and Education
- Continuing Professional Development
- Continuing Medical Education
- Patient Safety
- Innovation, Academic Leadership and Evaluation Research

Organizing Committee Members

Youngjoo Kwon
Ewha Womans University
South Korea

Benedicte Defontaines
Doctor Medical Director
France

Eminy HY Lee
Institute of Biomedical sciences
Taiwan

Nela Pivac
Boskovic Institute Bijenicka
Croatia

Claude M Wischik
TauRx Therapeutics
UK

### Award Ceremony

### Conference Concludes
Confirmed Speakers

Oral Presentations

Title: The association between BDNF gene polymorphisms and cerebrospinal fluid biomarkers in Alzheimer's disease
Nela Pivac, Rudjer Boskovic Institute, Croatia

Title: Evaluation and care for patients with cognitive disorders with remote consultation: an holistic approach
B Defontaines, Doctor Medical Director France

Title: Research of efficacy and evaluation of Group Home Care at Dementia Group Home
Kouichi Miyakawa, Director of Japan Dementia Group Home Association

Title: Mild cognitive impairment in combination with comorbid diabetes mellitus and hypertension is negatively associated with health-related quality of life among older persons in Taiwan
Yea-Ing L Shyu, School of Nursing, Chang Gung University, Taiwan

Title: Rab21, a Novel PS1 Interactor, Regulates β-Secretase Activity via PS1 Subcellular Distribution
Hong Qing, School of Life Science, Beijing Institute of Technology, China

Title: Dementia Friendly Communities What Can We Do?
Rosanne Burk, Certified dementia educator consultant Canada

Title: Differential diagnosis of Alzheimer disease
Magalhães, Faculdades Unidas do Norte de Minas-Funorte, Brazil

Title: Coping among male caregivers of people with dementia living at home
Midori Nishio, School of Nursing and Medical Care, Fukuoka University Hospital, Japan

Title: What advice preparations should be made to provide suitable care for parents
Taro Nishio, School of Nursing and Medical Care, Fukuoka University Hospital, Japan

Title: Practical Communication Skills for Dementia Care Partners
Rosanne Burke, Certified Dementia Educator Consultant Canada

Title: Serum Levels of high Molecular Weight Adiponectin and Leptin in Elderly Patients with Dementia
Marwa A Saad, Internal Medicine Department, Geriatric Unit Egypt
Title: Only the lonely? The relationship between social isolation and dementia: A behavioural rodent study
Ann Van Der Jeugd, Laboratory for Biological Psycholohy, Belgium

Title: Individual First Dementia Second
Rita Anand, Beyond Golden Era, llc and Dementia Angels, LLC

Title: Genetics and Epidemiological Studies of Dementia of Alzheimer’s Type among Arab Populations
Bowirrat Abdalla, Clinical Neurology from London University, UK

Title: Surfaced-functionalized serum albumin as potent inhibitors of amyloid β-protein aggregation and cytotoxicity
Yan Sun, Tianjin University, China

Title: Family Carers of People with Young-Onset Dementia: Their Experiences with the Supporter Service
Aud Johannessen, Norwegian National Advisory Unit on Ageing and Health, Norway

Title: Candidate Biomarkers and CSF Profiles for Alzheimer's disease and CADASIL
Bowirrat A Clinical Neurology from London University, UK

Title: Perspective on Neurobiological and Clinical Early Indicators of Mild Cognitive Decline and Alzheimer's Disease
Jigar Jogia, School of Arts and Sciences, American University in Dubai

Title: Diagnosing dementia across cultures
Eef Hogervorst, Centre for Ageing Studies University of Indonesia, Loughborough University

Closing Ceremony
Tourist Attractions
Osaka is the second largest metropolitan area in Japan and serves a major economic hub. Historically a merchant city, Osaka has also been known as the “Nation’s Kitchen”. With a population of 2.5 million, Osaka is Japan’s third largest and second most important city. It has been the economic powerhouse of the Kansai region for many centuries. The city’s west side has the main port as well as a tourist destination with attractions such as Kyocera Dome, Universal Studios Japan, Osaka aquarium, Minami, Osaka castle, Umeda sky building and the Tempozan Harbour Village. Osaka is known for its food, both in Japan and abroad. Author Michael Booth and food critic François Simon of Le Figaro have both suggested that Osaka is the food capital of the world. Osaka’s culinary prevalence is the result of a location that has provided access to high quality ingredients, a high population of merchants, and close proximity to the ocean and waterway trade. In recent years, Osaka has started to garner more attention from foreigners with the increased popularity of cooking and dining in popular culture. The National Museum of Art (NMAO) is a subterranean Japanese and international art museum, housing mainly collections from the post-war era and regularly welcoming temporary exhibitions. Osaka Science Museum is in a five storied building next to the National Museum of Art, with a planetarium and an OMNIMAX theatre.

**You’ll fall in love with Japan**
