Tittle: Fragment- based and Natural Product- derived Antibiotics Against ESKAPE Pathogens  
Rongshi Li, University of Nebraska, USA

Tittle: Use and abuse of antibiotics- rationale  
Major Scientific Sessions

- Origins and Types of Antibiotic and Antimicrobials
- Evolution and Mechanisms of Antibiotics and Antimicrobials resistance
- Antimicrobial resistance and its emergence of animals
- Antibiotic: MOA, bioavailability, metabolism
- Alternative Strategies for antimicrobial resistance worldwide
- Antimicrobial Resistance: Public Health Concerns
- Antibiotic surveillance and safety concerns
- Analytical strategies for Antimicrobials & Antibiotics
- Role of long term antibiotics & antimicrobial in diseases Future trends in Dentistry

Best Poster Award

- You will be given about 5-7 minutes to present your poster including questions and answers. Judges may pose questions during the evaluation of the poster
- Judges will even evaluate the student’s enthusiasm towards their study, interest and knowledge in the area of their research
- The winners will be announced at the closing ceremony of the conference. The decision of the winner will be withdrawn if the winner/winners is/are not present at the time of announcement
- Apart from the judging time you may also be present at the poster to share your research with interested delegates

Young Researchers Forum

- Present your research through oral presentations
- Learn about career development and the latest research tools and technologies in your field
- This forum will give pertinent and timely information to those who conduct research and those who use and benefit from research
- Develop a foundation for collaboration among young researchers
- The forum will provide an opportunity for collegial interaction with other young investigators and established senior investigators across the globe
- Interact and share ideas with both peers and mentors
