

6th Annual Congress on

Applied Microbiology and Beneficial Microbes

August 10-11, 2020 | Bangkok, Thailand

*Theme: “Discovering the New
Challenges in Microbiology”*

Invitation...

Dear Colleagues,

6th Annual Congress on Applied Microbiology and Beneficial Microbes (APPLIED MICROBES 2020) extends its welcome to you during **August 10-11, 2020** at **Bangkok, Thailand**. with a theme "**Discovering the New Challenges in Microbiology**". Conference Series LLC Ltd Organises 1000+ Conferences Every Year across USA, Europe & Asia with support from 1000 more scientific societies and Publishes 700+ Open access journals which contains over 50000 eminent personalities, reputed scientists as editorial board members.

The **APPLIED MICROBES 2020** intends to gather all the people across the globe like students, lecturers, Assistant Professors, Professors, Directors, Chairman, Chancellor, Scientists, Doctors, Managing Directors, Chief Executive Officers, Presidents and Noble Laureates and base a platform for them to share their experience, knowledge and research work, recent advancements in the field of Applied Microbiology and Beneficial Microbes.

Why to Attend???

APPLIED MICROBES 2020, will be the best platform for all the Microbiologist, Scientists, Research Scholars, Students, Technologists who are working in this field to exchange their knowledge related to microbial interactions its evolution, diversity and role. This International event is an effort to find information that will indicate the possible interactions between the organisms and conducting such experiments, new techniques that will lead to the formulation of control measures, often using an alteration of the environmental factors for regulation of the microbial ecologies. Opportunity to meet incredibly famous speakers, researchers, specialists, Business giants, and the most up to date refreshes in Microbiology world are important for this conference leads to significance of this gathering. This is the best platform to develop new partnership & collaborations. For speeding up your route this is the best location into every territory in the entire World. In our Conference 89% attendees who are the Key contact in labs purchasing decisions. During this conference Our Exhibitors were visited 4-5 times by 80% of the attendees. By this conference network can be developed with both Academic and Business.

Conference Sessions:

All honorable authors, researchers, scientists and students are encouraged to contribute and help the shape of the conference through submissions of their posters & research abstracts. Also, high quality research contributions describing original and unpublished of conceptual, constructive, experimental or theoretical work in all areas of Applied Microbiology and Beneficial Microbes are warmly invited for presentations at the conference. The conference memorial contributions of abstracts and posters that address themes & future aspects of the conference related sessions.

- • Medical microbiology
- • Pharmaceutical microbiology.
- • Industrial microbiology
- • Microbial biotechnology
- • Food microbiology
- • Agricultural microbiology
- • Veterinary Microbiology and Immunobiology
- • Environmental microbiology
- • Water microbiology
- • Aeromicrobiology
- • Petroleum and Biofuels Microbiology
- • Trends in Cellular Microbiology

APPLIED MICROBES 2020

- Opportunity to attend the presentations delivered by eminent scientists and business professionals from all over the world.
- Selected contributions will be published in following reputed high impact factor Journals.
 - ☞ Medical Microbiology & Diagnosis
 - ☞ Journal of Applied Microbiology and Biochemistry
 - ☞ Journal of Pharmaceutical Microbiology

Program at Glance

August 10, 2020

Time	Session
08:30 - 09:30	Registrations
09:30 -11:30	Keynote Forums
	Group Photo
11:30 -11:45	Network & Refreshment Break
11:45 -13:00	Medical microbiology Pharmaceutical microbiology
13:00 -13:45	Lunch Break
13:45 -16:00	Industrial microbiology Microbial biotechnology Food microbiology
16:00 -16:15	Network & Refreshment Break
16:15 -18:00	Agricultural microbiology Veterinary Microbiology and Immunobiology
	Day Concludes

August 11, 2020

Time	Session
08:30 - 09:30	Registrations
09:30 -10:30	Keynote Forums

13:00 -13:45	Lunch Break
13:45 -16:00	Trends in Cellular Microbiology
16:00 -16: 15	Network & Refreshment Break
16:15 -18:00	Poster Presentations

Day Concludes

Award Ceremony

Conferece Concludes

City Attractions

Venue :

Bangkok, Thailand

Bangkok is the capital and most populous city of Thailand. It is known in Thai as Krung Thep Maha Nakhon or simply Krung Thep. The city occupies 1,568.7 square kilometres (605.7 sq mi) in the Chao Phraya River delta in central Thailand and has a population of over eight million, 12.6 percent of the country's population. Over fourteen million people (22.2 percent) lived within the surrounding Bangkok Metropolitan Region at the 2010 census, making Bangkok the nation's primate city, dwarfing Thailand's other urban centres in both size and importance to the national economy.

Bangkok traces its roots to a small trading post during the Ayutthaya Kingdom in the 15th century, which eventually grew and became the site of two capital cities: Thonburi in 1768 and Rattanakosin in 1782. Bangkok was at the heart of the modernization of Siam, later renamed Thailand, during the late-19th century, as the country faced pressures from the West. The city was at the centre of Thailand's political struggles throughout the 20th century, as the country abolished absolute monarchy, adopted constitutional rule, and underwent numerous coups and several uprisings. The city grew rapidly during the 1960s through the 1980s and now exerts a significant impact on Thailand's politics, economy, education, media and modern society

Although Bangkok's canals historically served as a major mode of transport, they have long since been surpassed in importance by land traffic. Charoen Krung Road, the first to be built by Western techniques, was completed in 1864. Since then, the road network has vastly expanded to accommodate the sprawling city. A complex elevated expressway network helps bring traffic into and out of the city centre, but Bangkok's rapid growth has put a large strain on infrastructure, and traffic jams have plagued the city since the 1990s.
