Dear Attendees,

We are glad to announce the **13<sup>th</sup> World Congress on Aquaculture & Fisheries** to be held in **Tokyo, Japan** on **October 28-29, 2019** organized in collaboration with generous support and cooperation from enthusiastic academicians and editorial Board Members. **Aquaculture fisheries 2019** aims at sharing new ideas and technologies amongst the professionals, industrialists and students from research areas of Neuroscience divisions. As the premier event, we have developed a program with your interests in mind. We have not only increased the number of opportunities for you to network with colleagues from across the world but also introduced more focused sessions that will feature cutting edge presentations, special panel discussions, and livelier interaction with industry leaders and experts.

Life is full of give and take. Make it count in your professional life. **13<sup>th</sup> World Congress on Aquaculture & Fisheries** October 28-29, 2019 at Tokyo, Japan. This consolidates incite keynote presentations, Oral talks, Poster presentations and Exhibitions.

Sincerely,  
**Aquaculture fisheries 2019**

### Our International Open Access Journals

- 700+ Leading-edge Peer Reviewed Open Access Journals
- 21 Day Rapid Review Process
- 50000+ Editorial Board Team, 35000+ Reviewers team
- 30 Million Readers and High Visibility
- 1000+ Scientific Associations Collaborations
- 100000+ Likes 
- Publication immediately after acceptance
- Quality and Quick editorial, review processing

### Salient Features

- Easy to Submit and Review Systems
- High Quality and Fast Publishing Guaranteed
- Unbiased, quality-oriented, and transparent reviews
- Truly impartial recognition of the best papers
- Feedback on the impact of every article
- Enhanced feature: Audio version of published paper
- Digital articles to share and explore
- Sharing option: Social networking enabled
- Authors, reviewers and editors are provided with scientific credits
- User friendly/feasible website articles translations across more than 50 world languages

### Our International Scientific Conferences

- More than 3000 Conferences happening across the globe
- Conferences organized in Medical, Pharma, Engineering, Science, Technology and Business.
- CME/CPD Accredited Conferences fostering professional and Personal development
- Continuum of education through organized scientific program
- Renowned speakers and scientists representing from 40 countries
- Highly Interactive sessions and Panel Discussions
- B2B Meetings offers perfect platform for Global Networking

### Salient Features

- Robust on-line publicity for all the speakers and organizing committee members
- Career Guidance Workshops for students and early career researchers
- Accepted Abstracts will be published in various indexed journals
- Accepted abstracts will be labeled with a Digital Object Identification Number (DOI) provided by Cross Ref
- Creation of speakers and abstracts pages in Google
- Opportunity to publish full Manuscripts in our Open Access Journals

**Special Issues:** All accepted abstracts will be published in respective Conference Series llc LTD Journals

Each abstract will be provided with digital Object Identifier by

**B2B Meetings**

Aquaculture fisheries 2019 Conference website is attracting 25000+ Academicians including Professors, PhD Scholars, Students carrying out laboratory and field studies, Industrial Giants, Physics Societies and the people Associated, Nobel laureates in Professionals, Neuroscience Professionals, Respiratory device companies, Lung Laboratories and Technicians, Research Institutes and members, Supply Chain companies, Manufacturing Companies, Training Institutes, Business Entrepreneurs. This unique opportunity that we extend to our speakers and attendees is not being offered by any other conference organizers. Through this the abstracts and research profiles of our speakers and organizing committee members getting global visibility which is an additional feature that you would be receiving in addition to networking opportunities before, during and after the conference.

## Aquaculture fisheries 2019 salient features

- Meet Academia and Industry visionaries to get inspired
- Expand your knowledge and find solutions to problems
- Knowledge, Benchmarking and Networking offered at one place
- Forge connections and for global networking
- Highly Organized and Structured Scientific programs
- Poster presentations and world class exhibitions
- Meet with new vendors and suppliers

## How Conference Series Conferences differs from others?

- 3000+ Conferences across the globe in 30+ countries all through the year
- Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
- Participation by Stalwarts from various international societies
- Internationally renowned speakers and scientist's representation
- Career guidance for early career researchers and students
- Interesting scientific deliberations and discussions
- Perfect platform for Global Networking

## Goals

- The conference program emphasizes evidence-based practice, educational innovation, practical application, and peer to peer networking and collaboration. The goals of the conference is to provide a transformative professional development experience through.
- Bringing together the world's scientific experts to catalyze and advance scientific knowledge about Biologics and Biosimilars Congress, present the most recent research findings, and promote and enhance scientific collaborations around the world.
- Bringing together community leaders, scientists, and policy leaders to promote and enhance programmatic collaborations to more effectively address regional, national and local responses to Elderly Population around the world and overcome barriers that limit access to care and services.

**B2B Meetings**

## Objectives

After participating in this meeting, attendees should be able to

Discuss emerging issues in Neuroscience divisions

Discuss and apply recent research findings related to Neuroscience divisions

Reflect on the place of critical distance in Neuroscience divisions

## Who should attend?

Academicians including Professors, PhD Scholars, Students carrying out laboratory and field studies, Industrial Giants, Physics Societies and the people Associated, Nobel laureates in Respiratory and pulmonary divisions, pulmonology Professionals, Respiratory Professionals, Lung Laboratories and Technicians , Research Institutes and members, Supply Chain companies, Manufacturing Companies, Training Institutes, Business Entrepreneurs.

## About hosting organization

Conference Series is the world's leading specialist in organizing Academic, Scientific and Business conferences, meetings, symposiums and exhibitions in different verticals and horizontals like Medical, Pharma, Engineering, Science, Technology and Business to promote scientific research. Every year we host more than 3000+ global events inclusive of 1000+ Conferences 1000+ Symposiums 1000+ Workshops in USA, Europe, Middle East and Asia with the generous support and cooperation from our 30000+ Editorial Board Members, 1000+ Scientific Societies. All the conference proceedings are published in the special issues of our 700+ Open Access International Journals with the DOI provided by CROSSREF.

## Conference Highlights

- Aqua culture and fisheries
- Fresh water Aquaculture
- Marine Aquaculture
- Aquaculture methods
- Aquaculture Nutrition
- Aquatic Ecology
- Aquaponics
- Hydroponics: present and future
- Open Ocean Aquaculture
- Sustainability in Aquaculture
- Deep Water & Demersal Fisheries
- Live Stock farming and genetic engineering
- Nanotechnology in Aquaculture
- Integrated multi-trophic Aquaculture
- Aquatic Pollution and toxicology
- Aquatic Diseases & Immunity
- Marine Conservation & Management
- Marketing and pricing of fishes

## Young Researchers can also participate in this elite congress

The Young Researchers Forum offers young researchers the possibility to meet and discuss research topics and methodologies, share and develop ideas, learn from each other and gain knowledge from senior researchers.

### Eligibility

- Young Investigators (e.g. Post-Graduate students, Post-doctoral fellows, Trainees, Junior faculty) are the focus of this event.
- None of the authors should have senior position or faculty position.
- Participants should be below the age of 33 years.
- Opportunity for young researchers to learn about the research areas of their peers to increase their capacity as multidisciplinary researchers.

### Submission

- Each individual participant is allowed to submit only one paper (as first author or co-author).
- All submissions must be in English.
- The chosen topic must fit into sessions of the congress.
- Showcase your research through oral/poster presentations

**B2B Meetings**

Tokyo is Japan's capital and the world's most populous metropolis. Prior to 1868, Tokyo was known as Edo. A small castle town in the 16th century, Edo became Japan's political center in 1603 when Tokugawa Ieyasu established his feudal government there. A few decades later, Edo had grown into one of the world's most populous cities. Japan is part of the Asian temperate monsoon climatic region, and it is bathed by the warm Japan Current on the Pacific side and Tsushima Current on the Sea of Japan side of the country. Thus, Japan experiences relatively high sea temperatures and a warm climate given its high northern latitude. The difference in tides at flood stage on the Pacific coast is approximately 1.5 meters, and approximately 0.2 meters on the Sea of Japan coast. It is more than four meters on the Ariake Sea coast due to its unique topography. The total land area of Japan is approximately 378,000 square kilometers (see Table 1). Coastal areas which are 20 meters or less below sea level account for about 31,000 square kilometers, which is approximately 10% of the total land area of Japan. The 200-mile economic exclusion zone encompasses an area of about 4.47 million square kilometers. The total length of Japan's coastline is roughly 35,000 kilometers. Japan has 91 meters of coastline per square kilometer of total land area. If small island states are excluded, Japan comes in second in the world behind Denmark (150 meters of coastline per square kilometer of total land area) in coastline length per unit total land area. This fact helps demonstrate the importance of the coastal zone to Japan.
