2nd International Conference On
ASTRONOMY, ASTROPHYSICS & ASTROBIOLOGY
November 18-19, 2019 | Auckland, New Zealand

Interactive Sessions: 20
Keynote Lectures: 6+
Plenary Lectures: 35+
Workshops: 4+
Exhibitors: 10+

B2B Meetings
Dear Colleagues,

Conference Series LLC LTD., is delighted to welcome you to Auckland, New Zealand for the Prestigious 2\textsuperscript{nd} International Conference On Astronomy, Astrophysics & Astrobiology. Astronomy Congress 2019 will focus on “Bridging the gap between Humans, Space and Earth”. We are confident that you will enjoy the Scientific Program of this upcoming Conference.

We look forward to see you at Auckland, New Zealand.

With Regards,

Astronomy Congress 2019
Operating Committee, Conference Series LLC LTD. Conferences

Editorial Board Members of Supporting Journals:

- **Samuel C. C. Ting**
  Massachusetts Institute of Technology, USA

- **E. Zong**
  Synergistic Applicator LLC, USA

- **John Morrison**
  University of Louisville, USA

- **Robert Zurmuhle**
  University of Pennsylvania, USA

- **Sasha Buchman**
  Stanford University, USA

- **Bing Wang**
  Tsinghua University, China

- **Vasily Yu. Belashov**
  Kazan Federal University, Russia

- **Bernard H. Foing**
  Chair, ESTEC, Europe

- **Sachiko Tsuruta**
  Montana State University, Italy

- **Sergey Orlov**
  Petrozavodsk State University, Russia

Program Announcement

Venue
Auckland, New Zealand

Important Dates
Abstract submission opens: August 15, 2018
Registration opens: August 20, 2018
On spot registration: November 18, 2019

Accommodation
A large number of rooms have been reserved. Discounted room rates for Astronomy Congress 2019 participants are proposed. Only reservations made through the Conference will benefit these rates. The Congress Center can be easily reached by public transportation.

Exhibition and Sponsorship
An Exhibition will be held concurrently with the Conference. The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of new findings in the fields of Astronomy, Astrophysics & Astrobiology.

About Auckland
Auckland is a city in New Zealand's North Island. Auckland is the largest urban area in the country, with an urban population of around 1,534,700. It is located in the Auckland Region—the area governed by Auckland Council—which includes outlying rural areas and the islands of the Hauraki Gulf, resulting in a total population of 1,657,200. A diverse and multicultural city, Auckland is home to the largest Polynesian population in the world. The Māori-language name for Auckland is Tāmaki (pronounced ['taːmaki]) or Tāmaki-makau-rau, meaning “Tāmaki with a hundred lovers”, in reference to the desirability of its fertile land at the hub of waterways in all directions. It has also been called Akarana, a transliteration of the English name. The Auckland urban area (as defined by Statistics New Zealand) ranges to Waiwera in the north, Kumeu in the northwest, and Runciman in the south. Auckland lies between the Hauraki Gulf of the Pacific Ocean to the east, the low Hunua Ranges to the south-east, the Manukau Harbour to the south-west, and the Waitakere Ranges and smaller ranges to the west and north-west. The surrounding hills are covered in rainforest and the landscape is dotted with dozens of dormant volcanic cones. The central part of the urban area occupies a narrow isthmus between the Manukau Harbour on the Tasman Sea and the Waitematā Harbour on the Pacific Ocean. Auckland is one of the few cities in the world to have a harbour on each of two separate major bodies of water.
