

Scientific Program

17th World Congress on Biomarkers, Cancer Therapy & Clinical Research

September 23, 2022 | Webinar | (GMT+0)

Program at a Glance

9:00-9:15

Opening Ceremony

9:15 - 9:30

Introduction

Sessions:

Biomarkers | Cancer Biomarkers | Biomarkers in Microbial Infections | Functional Transcriptomics and Profiling Techniques| Biomarkers in Clinical Research and Development

9:30 – 10:00

Title: Gynecological malignancies in aden: an overview of 4 years

Dr. Amani Saleh Hadi Saeed, Specialist of clinical oncology, Arab council National oncology center
–Aden, Yemen

10:00 - 10:30

Title: For metastatic renal cell carcinoma: Pazopanib A case report

Dr. Amani Saleh Hadi Saeed, Specialist of clinical oncology, Arab council National oncology center
–Aden, Yemen

10:30 - 11:00

Title: Ovarian cancer in Southeastern of Yemen

Dr. Amani Saleh Hadi Saeed, Specialist of clinical oncology, Arab council National oncology center
–Aden, Yemen

11:00 - 11:30

Title: Increasing the quality of life in NSCLC patients by Opdivo and Taxotere with Hyperthermia
Sopio Badzgaradze, Member of the International Association of European Oncology,

11:30 - 12:00

Title: Strain of Probiotic and Microbiome

Brandon Lucke-Wold, Wright-Wold Scientific, USA

12:00 - 12:30

Title: A role for proteasome 26S subunit, non-ATPase 3 (PSMD3), in disease progression and drug resistance

Ananda Mohan Mondal, Florida International University, USA

12:00 - 12:30

Title: Discovery of Long Non-coding RNA Biomarkers for Breast Cancer Subtypes Using Machine Learning

Ananda Mohan Mondal, Florida International University, USA

Panel Discussion

Closing Ceremony
