Opening Ceremony

Introduction

10:00-11:00

Keynote Presentation

Title: Cross facility collaboration: The key to winning the fight against cancer
Feroz Agad, SAH Global & SAH Care, USA

11:00-11:30

Networking and Refreshments Break with Group Photo

Sessions: Breast Cancer Biology | Breast Reconstruction (Oncoplastic Surgery) | Cancer Epigenomics: Beyond Genomics | Immunological Approaches to Cancer Therapy | Cervical Cancer Biology

Session Chair: **Femi Ogunremi**, National Health Service (NHS), United Kingdom
 Session Co-Chair: **Wijdan Alomaim**, Al Mafraq Hospital, UAE

11:30-12:00

Title: Setting up an oncoplastic forum; optimising patient pathway
Hazem Khout, Nottingham Breast Institute, United Kingdom

12:00-12:30

Title: Breast cancer family history assessment and counselling
Mohamad Al-Gailani, Al Hammadi Hospital, Saudi Arabia

12:30-13:00

Title: Arc therapy versus 3D-CRT in accelerated partial breast irradiation.
George Farha, Gustave Roussy Cancer Campus, France

Lunch Break 13:00-14:00 @ Assymetri Restaurant

14:00-14:30

Title: The role of chemotherapy in recurrent cervical cancer
Samed Rahatli, Baskent University, Turkey

14:30-15:00

Title: Galectin -3 contribute for drug resistance and EMT in TNBC
Jeethy Ram, Regional Cancer Centre, India

Networking and Refreshments Break 15:00-15:30 @ Foyer

15:30-16:00

Title: Analysis of the correlation between HLA phenotype and prognosis, and the role of a novel tumor antigen useful for immunotherapy
Yoshika Nagata, Shonan Kamakura General Hospital, Japan

16:00-16:30

Title : Diabetes & breast cancer- The unsettled link
Mahir Jallo, Gulf Medical University, UAE

16:30-17:00

Title: Synchronous breast plasmacytoma
Roaa Abdullah Attieh, King Abdullah Medical City, Saudi Arabia

Andromeda

09:00-10:00

Keynote Presentation

Title: The most updated theory with supporting data for cancer invasion and metastasis

Yan Gao Man, International Union for Difficult-to-treat Diseases, USA

10:00-11:00

Keynote Presentation

Title: Epigenetics and cancer

Mariam Mohd Fatima Matar, UAE Genetic Diseases Association, UAE

Networking and Refreshments Break 11:00 -11:30 @ Foyer

Session: Chemotherapy and Cancer | Molecular Oncology in Breast Cancer | Women's Health | Cancer Vaccination | Breast and Cervical Cancer Screening | Novel Approaches to Cancer Therapeutics | Cancer Epigenomics: Beyond Genomics

Session Chair: **Wijdan Alomaim**, Al Mafraq Hospital, UAE

Session Co-Chair: **Hazem Khout**, Nottingham Breast Institute, United Kingdom

11:30-12:00

Title: New opportunity and potential for breast cancer screening on a large scale especially in poor resource area

Femi Ogunremi, National Health Service (NHS), United Kingdom

12:00-12:30

Title: Maximizing breast conserving options for treating breast cancer

Hazem Khout, Nottingham Breast Institute, United Kingdom

12:30-13:00

Title: Can we avoid ALND in limited nodal disease after SLNB?

Mouza Mohd Al Ameri, Tawam Hospital, UAE

13:00-13:30

Title: Complementary and alternative therapies in cancer: Current trends and implications for oncologists

Shilpi Roy Narad, Department of Health-Abu Dhabi, UAE

Title: Cancer survivorship: Developing a cancer survivorship program at Tawam hospital, Al Ain United Arab Emirates

Maria Aamir, Tawam Hospital, UAE

15:00-15:30

Title: Evidenced based rehabilitation following breast cancer

Shruti M Velaskar, Tata Memorial Hospital, India

Networking and Refreshments Break 15:30-16:00 @ Foyer

Video Presentation

Title: A human cytomegalovirus (HCMV) model to study the functions of HCMV encoded proteins in cancer progression

Dabbu Kumar Jaijyan, Rutgers University, USA

Poster Presentations @ 16:00 - 17:00

BCC 01

Title: Identification of a miR-1245a germline variant and its relation with early-onset breast cancer susceptibility

Lilian Jara, University of Chile, Chile

BCC 02

Title: Association and additive effects of single-nucleotide polymorphisms in pre-miR-182 and TOX3 with breast cancer susceptibility

Sebastian Morales Pison, University of Chile, Chile

BCC 03

Title: Experience of the breast biopsy site marker HydroMARK during the neoadjuvant chemotherapy

Yoshika Nagata, Shonan Kamakura General Hospital, Japan

Panel Discussion

Closing Ceremony
