## Scientific Program

Joint Event

## 19<sup>th</sup> Euro Congress on Cancer Science and Therapy

# 25<sup>th</sup> Cancer Nursing & Nurse Practitioners Conference

July 17-19, 2017 Lisbon, Portugal

8

Conference Series-America One Commerce Center-1201, Orange St. #600, Wilmington, Zip 19899, Delaware, USA Toll Free: 1-888-843-8169, P: 702-508-5200, F: +1-650-618-1417

#### **Conference Series-UK**

Kemp House, 152 City Road, London EC1V 2NX, UK Toll Free: +0-800-014-8923

### Day 1 July 17, 2017

08:00-09:00 Registrations

### Descobrimentos

#### conferenceseries.com 09:00-09:30

# **Opening Ceremony**

Keynote Forum		
09:30-09:35	Introduction	
09:35-10:15	Title: The natural history of breast cancers	
09:35-10:15	Alvaro Macieira-Coelho, French National Institute of Health (INSERM), France	
10:15-10:55	Title: Hormonal pathology of the endometrium and endometrial neoplasia	
	Liane Deligdisch, Icahn School of Medicine at Mount Sinai, USA	
	Networking & Refreshments 10:55-11:10 @ Foyer Title: Development of an oncology clinical research nursing consulting: A matter of safety	
11:10-11:50	Tatiana Massarrah, Gregorio Maranon Hospital, Spain	
	Title: Breast cancer and personalized medicine: Advances, conundrums and novel	
11:50-12:30	therapeutic interventions	
	Sherry A Bradford, AccuTheranostics, Inc., USA	
12:30-13:10	Title: Fertility sparing Surgery in Treatment of Early Stage of Cervical Cancer	
Aleksandar Stefanovic, Clinical Center of Serbia, Serbia Group Photo		
	Lunch Break 13:10-14:10 @ Restaurant	
Sessions: Ora	an Defined Cancers   Cancer Genetics   Cancer Biomarkers   Cancer Therapy & Treaments	
Cancer Nursin		
Session Chair:	Nyla A Heerema, The Ohio State University Wexner Medical Center, USA	
Session Co-cho	ir: Audrey Claing, Montreal University, Canada	
Session Introduction		
14:10-14:35	Title: CpG simulated karyotypic analysis of chronic lymphocytic leukemia (CLL) is a	
	significant prognostic factor and should be performed on all patients Nyla A Heerema, The Ohio State University Wexner Medical Center, USA	
	Title: Evolution of a system for surgical treatment of adenocarcinomas	
14:35-15:00	Charles L Hitchcock, The Ohio State University, USA	
	Title: Creating the best clinical and economic evidence to assist decision-making in	
15:00-15:25	urological cancers	
	Alice Dragomir, McGill University, Canada	
15:25-15:50	Title: Unraveling the full role of P-glycoprotein in multidrug resistant cancers	
15.25-15.50	M Helena Vasconcelos, University of Porto, Portugal	
15:50-16:15	Title: ARF proteins as new molecular targets for the treatment of invasive breast cancer	
	Audrey Claing, Montreal University, Canada Networking & Refreshments 16:15-16:30 @ Foyer	
	Video Presentation	
	Title: Efficacy of aloe-vera-gel topical application on radiation-induced-mucositis in head-	
16:30-16:55	and-neck-malignancy: A double-blind, randomised clinical trial in Mumbai, India	
	Rita Lakhani, Krishna University of Health Sciences, India	
	Title: An investigation in the role of noncoding RNA's in epithelial mesenchymal transition	
16:55-17:20	(EMT) in prostate cancer	
	Hirendra Nath Banerjee, University of North Carolina, USA	
17:20-17:45	Title: Challenges of therapeutical options in treatment of early stages of endometrial cancer	
	Katarina Jeremic, University of Belgrade, Serbia	
17:45-18:10	Title: Do breast cancer units treat patients based on their own neoadjuvant protocols ? Vasco Fonseca, Centro Hospitalar Lisboa Ocidental, Portugal	

	Panel Discussion	
	Day 2 July 18, 2017	
Descobrimentos		
00.20.00.25	Introduction	
09:30-09:35	Title: Role of the proinflammatory cytokine IL-1b in breast cancer progression to	
09:35-10:15	malignancy	
	Isaura Meza, CINVESTAV, Mexico	
10:15-10:55	Title: Why is early psychosocial screening important in pediatric cancer?	
	Maru Barrera, Dept. of Psychology and Division of Hematology/Oncology, Canada	
	Networking & Refreshments 10:55-11:10 @ Foyer	
11:10-11:50	Title: Preventing chemotherapy-induced onycholysis-A double blind, randomised trial of a polyphenol rich nail bed – The UK polybalm study	
	Robert Thomas, Bedford and Addenbrooke's Cambridge University Hospitals, UK	
Sessions: Cancer Therapeutics   Cancer Nursing   Cancer Biology   Cancer Management & Prevention		
<b>Session Chair:</b>	Robert Thomas, Bedford and Addenbrooke's Cambridge University Hospitals, UK	
Session Co-cho	<b>air: Shanmugasundaram Ganapathy Kanniappan</b> , Johns Hopkins University, USA	
	Session Introduction	
11.50 10.15	Title: Tumor glycolysis-The stygian link between two hallmarks of cancer and novel	
11:50-12:15	therapeutic opportunities Shanmugasundaram Ganapathy Kanniappan, Johns Hopkins University, USA	
	Title: Using 'zero-ischemia' and 'sutureless' techniques to implement laparoscopic partial	
12:15-12:40	nephrectomy with holmium laser	
	Qi-Fei Wang, The First Affiliated Hospital of Dalian Medical University, China	
Poster Presentation 12:40-13:10 @ Infante Hall		
	J	
Poster Judge: I	Naru Barrera, Dept. of Psychology and Division of Hematology/Oncology, Canada	
Poster Judge: <i>I</i> CS 01	Maru Barrera, Dept. of Psychology and Division of Hematology/Oncology, Canada Title: Evaluation of early treatment response using dynamic MRI of drug-eluting beads transarterial chemoembolization for hepatocellular carcinoma	
	Maru Barrera, Dept. of Psychology and Division of Hematology/Oncology, Canada Title: Evaluation of early treatment response using dynamic MRI of drug-eluting beads transarterial chemoembolization for hepatocellular carcinoma Kuniaki Arai, Kanazawa University Hospital, Japan	
	Maru Barrera, Dept. of Psychology and Division of Hematology/Oncology, Canada Title: Evaluation of early treatment response using dynamic MRI of drug-eluting beads transarterial chemoembolization for hepatocellular carcinoma Kuniaki Arai, Kanazawa University Hospital, Japan Title: Novel strategy to cure cancer	
CS 01 CS 02	Maru Barrera, Dept. of Psychology and Division of Hematology/Oncology, Canada Title: Evaluation of early treatment response using dynamic MRI of drug-eluting beads transarterial chemoembolization for hepatocellular carcinoma Kuniaki Arai, Kanazawa University Hospital, Japan	
CS 01	Maru Barrera, Dept. of Psychology and Division of Hematology/Oncology, Canada Title: Evaluation of early treatment response using dynamic MRI of drug-eluting beads transarterial chemoembolization for hepatocellular carcinoma Kuniaki Arai, Kanazawa University Hospital, Japan Title: Novel strategy to cure cancer Adnan Yousif Rojeab, London College UCK, UK	
CS 01 CS 02	Maru Barrera, Dept. of Psychology and Division of Hematology/Oncology, Canada Title: Evaluation of early treatment response using dynamic MRI of drug-eluting beads transarterial chemoembolization for hepatocellular carcinoma Kuniaki Arai, Kanazawa University Hospital, Japan Title: Novel strategy to cure cancer Adnan Yousif Rojeab, London College UCK, UK Title: New opportunities for use of novel, small-molecule PERK inhibitors	
CS 01 CS 02 CS 03	Maru Barrera, Dept. of Psychology and Division of Hematology/Oncology, Canada Title: Evaluation of early treatment response using dynamic MRI of drug-eluting beads transarterial chemoembolization for hepatocellular carcinoma Kuniaki Arai, Kanazawa University Hospital, Japan Title: Novel strategy to cure cancer Adnan Yousif Rojeab, London College UCK, UK Title: New opportunities for use of novel, small-molecule PERK inhibitors Wioletta Rozpędek, Medical University of Lodz, Poland Title: Can P-glycoprotein (P-gp) be involved in the release of larger extracellular vesicles	
CS 01 CS 02 CS 03 CS 04	Maru Barrera, Dept. of Psychology and Division of Hematology/Oncology, Canada Title: Evaluation of early treatment response using dynamic MRI of drug-eluting beads transarterial chemoembolization for hepatocellular carcinoma Kuniaki Arai, Kanazawa University Hospital, Japan Title: Novel strategy to cure cancer Adnan Yousif Rojeab, London College UCK, UK Title: New opportunities for use of novel, small-molecule PERK inhibitors Wioletta Rozpędek, Medical University of Lodz, Poland Title: Can P-glycoprotein (P-gp) be involved in the release of larger extracellular vesicles by multidrug resistant cells? M Inês Silva, University of Porto, Portugal Title: Is the dissemination of cancer multidrug resistance phenotype influenced by the	
CS 01 CS 02 CS 03	Maru Barrera, Dept. of Psychology and Division of Hematology/Oncology, Canada Title: Evaluation of early treatment response using dynamic MRI of drug-eluting beads transarterial chemoembolization for hepatocellular carcinoma Kuniaki Arai, Kanazawa University Hospital, Japan Title: Novel strategy to cure cancer Adnan Yousif Rojeab, London College UCK, UK Title: New opportunities for use of novel, small-molecule PERK inhibitors Wioletta Rozpędek, Medical University of Lodz, Poland Title: Can P-glycoprotein (P-gp) be involved in the release of larger extracellular vesicles by multidrug resistant cells? M Inês Silva, University of Porto, Portugal Title: Is the dissemination of cancer multidrug resistance phenotype influenced by the shedding of extracellular vesicles by resistant tumor cells?	
CS 01 CS 02 CS 03 CS 04	Maru Barrera, Dept. of Psychology and Division of Hematology/Oncology, Canada Title: Evaluation of early treatment response using dynamic MRI of drug-eluting beads transarterial chemoembolization for hepatocellular carcinoma Kuniaki Arai, Kanazawa University Hospital, Japan Title: Novel strategy to cure cancer Adnan Yousif Rojeab, London College UCK, UK Title: New opportunities for use of novel, small-molecule PERK inhibitors Wioletta Rozpędek, Medical University of Lodz, Poland Title: Can P-glycoprotein (P-gp) be involved in the release of larger extracellular vesicles by multidrug resistant cells? M Inês Silva, University of Porto, Portugal Title: Is the dissemination of cancer multidrug resistance phenotype influenced by the shedding of extracellular vesicles by resistant tumor cells? Diana Sousa, University of Porto, Portugal	
CS 01 CS 02 CS 03 CS 04	Maru Barrera, Dept. of Psychology and Division of Hematology/Oncology, Canada Title: Evaluation of early treatment response using dynamic MRI of drug-eluting beads transarterial chemoembolization for hepatocellular carcinoma Kuniaki Arai, Kanazawa University Hospital, Japan Title: Novel strategy to cure cancer Adnan Yousif Rojeab, London College UCK, UK Title: New opportunities for use of novel, small-molecule PERK inhibitors Wioletta Rozpędek, Medical University of Lodz, Poland Title: Can P-glycoprotein (P-gp) be involved in the release of larger extracellular vesicles by multidrug resistant cells? M Inês Silva, University of Porto, Portugal Title: Is the dissemination of cancer multidrug resistance phenotype influenced by the shedding of extracellular vesicles by resistant tumor cells? Diana Sousa, University of Porto, Portugal Title: Investigating the cell growth inhibitory effect of an aqueous extract from Achillea millefolium L. in human tumor cell lines	
CS 01 CS 02 CS 03 CS 04 CS 05	Maru Barrera, Dept. of Psychology and Division of Hematology/Oncology, Canada Title: Evaluation of early treatment response using dynamic MRI of drug-eluting beads transarterial chemoembolization for hepatocellular carcinoma Kuniaki Arai, Kanazawa University Hospital, Japan Title: Novel strategy to cure cancer Adnan Yousif Rojeab, London College UCK, UK Title: New opportunities for use of novel, small-molecule PERK inhibitors Wioletta Rozpędek, Medical University of Lodz, Poland Title: Can P-glycoprotein (P-gp) be involved in the release of larger extracellular vesicles by multidrug resistant cells? M Inês Silva, University of Porto, Portugal Title: Is the dissemination of cancer multidrug resistance phenotype influenced by the shedding of extracellular vesicles by resistant tumor cells? Diana Sousa, University of Porto, Portugal Title: Investigating the cell growth inhibitory effect of an aqueous extract from Achillea millefolium L. in human tumor cell lines Joana Pereira, University of Porto, Portugal	
CS 01 CS 02 CS 03 CS 04 CS 05	Maru Barrera, Dept. of Psychology and Division of Hematology/Oncology, Canada Title: Evaluation of early treatment response using dynamic MRI of drug-eluting beads transarterial chemoembolization for hepatocellular carcinoma Kuniaki Arai, Kanazawa University Hospital, Japan Title: Novel strategy to cure cancer Adnan Yousif Rojeab, London College UCK, UK Title: New opportunities for use of novel, small-molecule PERK inhibitors Wioletta Rozpędek, Medical University of Lodz, Poland Title: Can P-glycoprotein (P-gp) be involved in the release of larger extracellular vesicles by multidrug resistant cells? M Inês Silva, University of Porto, Portugal Title: Is the dissemination of cancer multidrug resistance phenotype influenced by the shedding of extracellular vesicles by resistant tumor cells? Diana Sousa, University of Porto, Portugal Title: Investigating the cell growth inhibitory effect of an aqueous extract from Achillea millefolium L. in human tumor cell lines Joana Pereira, University of Porto, Portugal Title: SHP inhibits lung cancer progression by coordinating cellular metabolism	
CS 01 CS 02 CS 03 CS 04 CS 05 CS 06	Maru Barrera, Dept. of Psychology and Division of Hematology/Oncology, Canada Title: Evaluation of early treatment response using dynamic MRI of drug-eluting beads transarterial chemoembolization for hepatocellular carcinoma Kuniaki Arai, Kanazawa University Hospital, Japan Title: Novel strategy to cure cancer Adnan Yousif Rojeab, London College UCK, UK Title: New opportunities for use of novel, small-molecule PERK inhibitors Wioletta Rozpędek, Medical University of Lodz, Poland Title: Can P-glycoprotein (P-gp) be involved in the release of larger extracellular vesicles by multidrug resistant cells? M Inês Silva, University of Porto, Portugal Title: Is the dissemination of cancer multidrug resistance phenotype influenced by the shedding of extracellular vesicles by resistant tumor cells? Diana Sousa, University of Porto, Portugal Title: Investigating the cell growth inhibitory effect of an aqueous extract from Achillea millefolium L. in human tumor cell lines Joana Pereira, University of Porto, Portugal	
CS 01 CS 02 CS 03 CS 04 CS 05 CS 06	Maru Barrera, Dept. of Psychology and Division of Hematology/Oncology, Canada Title: Evaluation of early treatment response using dynamic MRI of drug-eluting beads transarterial chemoembolization for hepatocellular carcinoma Kuniaki Arai, Kanazawa University Hospital, Japan Title: Novel strategy to cure cancer Adnan Yousif Rojeab, London College UCK, UK Title: New opportunities for use of novel, small-molecule PERK inhibitors Wioletta Rozpędek, Medical University of Lodz, Poland Title: Can P-glycoprotein (P-gp) be involved in the release of larger extracellular vesicles by multidrug resistant cells? M Inês Silva, University of Porto, Portugal Title: Is the dissemination of cancer multidrug resistance phenotype influenced by the shedding of extracellular vesicles by resistant tumor cells? Diana Sousa, University of Porto, Portugal Title: Investigating the cell growth inhibitory effect of an aqueous extract from Achillea millefolium L. in human tumor cell lines Joana Pereira, University of Porto, Portugal Title: SHP inhibits lung cancer progression by coordinating cellular metabolism Liyun Shi, Hangzhou Normal University School of Medicine, China Title: Apoptosis induced by Paclitaxel is dependent of BimEL interactome in triple negative breast cancer cells	
CS 01 CS 02 CS 03 CS 04 CS 05 CS 06 CS 07	Maru Barrera, Dept. of Psychology and Division of Hematology/Oncology, Canada Title: Evaluation of early treatment response using dynamic MRI of drug-eluting beads transarterial chemoembolization for hepatocellular carcinoma Kuniaki Arai, Kanazawa University Hospital, Japan Title: Novel strategy to cure cancer Adnan Yousif Rojeab, London College UCK, UK Title: New opportunities for use of novel, small-molecule PERK inhibitors Wioletta Rozpędek, Medical University of Lodz, Poland Title: Can P-glycoprotein (P-gp) be involved in the release of larger extracellular vesicles by multidrug resistant cells? M Inês Silva, University of Porto, Portugal Title: Is the dissemination of cancer multidrug resistance phenotype influenced by the shedding of extracellular vesicles by resistant tumor cells? Diana Sousa, University of Porto, Portugal Title: Investigating the cell growth inhibitory effect of an aqueous extract from Achillea millefolium L. in human tumor cell lines Joana Pereira, University of Porto, Portugal Title: SHP inhibits lung cancer progression by coordinating cellular metabolism Liyun Shi, Hangzhou Normal University School of Medicine, China Title: Apoptosis induced by Paclitaxel is dependent of BimEL interactome in triple negative breast cancer cells Gina Marcela Méndez-Callejas, University of Applied and Environmental Sciences, Colombia	
CS 01 CS 02 CS 03 CS 04 CS 05 CS 06 CS 07	Maru Barrera, Dept. of Psychology and Division of Hematology/Oncology, Canada Title: Evaluation of early treatment response using dynamic MRI of drug-eluting beads transarterial chemoembolization for hepatocellular carcinoma Kuniaki Arai, Kanazawa University Hospital, Japan Title: Novel strategy to cure cancer Adnan Yousif Rojeab, London College UCK, UK Title: New opportunities for use of novel, small-molecule PERK inhibitors Wioletta Rozpędek, Medical University of Lodz, Poland Title: Can P-glycoprotein (P-gp) be involved in the release of larger extracellular vesicles by multidrug resistant cells? M Inês Silva, University of Porto, Portugal Title: Is the dissemination of cancer multidrug resistance phenotype influenced by the shedding of extracellular vesicles by resistant tumor cells? Diana Sousa, University of Porto, Portugal Title: Investigating the cell growth inhibitory effect of an aqueous extract from Achillea millefolium L. in human tumor cell lines Jaana Pereira, University of Porto, Portugal Title: SHP inhibits lung cancer progression by coordinating cellular metabolism Liyun Shi, Hangzhou Normal University School of Medicine, China Title: Apoptosis induced by Paclitaxel is dependent of BimEL interactome in triple negative breast cancer cells Gina Marcela Méndez-Callejas, University of Applied and Environmental Sciences, Colombia Title: Handling of solid health wastes and its risks: Oncology ambulatory	
CS 01 CS 02 CS 03 CS 04 CS 05 CS 06 CS 07 CS 08	Maru Barrera, Dept. of Psychology and Division of Hematology/Oncology, Canada Title: Evaluation of early treatment response using dynamic MRI of drug-eluting beads transarterial chemoembolization for hepatocellular carcinoma Kuniaki Arai, Kanazawa University Hospital, Japan Title: Novel strategy to cure cancer Adnan Yousif Rojeab, London College UCK, UK Title: New opportunities for use of novel, small-molecule PERK inhibitors Wioletta Rozpędek, Medical University of Lodz, Poland Title: Can P-glycoprotein (P-gp) be involved in the release of larger extracellular vesicles by multidrug resistant cells? Diana Sousa, University of Porto, Portugal Title: Investigating the cell growth inhibitory effect of an aqueous extract from Achillea millefolium L. in human tumor cell lines Joana Pereira, University of Porto, Portugal Title: SHP inhibits lung cancer progression by coordinating cellular metabolism Liyun Shi, Hangzhou Normal University School of Medicine, China Title: Apoptosis induced by Paclitaxel is dependent of BimEL interactome in triple negative breast cancer cells Gina Marcela Méndez-Callejas, University of Applied and Environmental Sciences, Colombia	

#### Title: Novel strategy to cure cancer

14:10-14:35 Adnan Yousif Rojeab, London College UCK, UK

14:35-15:00	Title: Lifestyle after cancer to reduced toxicity and improved outcomes – What evidence based strategies should we be advising patients?	
	Robert Thomas, Bedford and Addenbrooke's Cambridge University Hospitals, UK	
15:00-15:25	Title: Communication network mediated by exosomes as a new therapeutic target for pancreatic cancer	
	Sonia A Melo, University of Porto, Portugal	
	Young Researchers Forum	
Title: Protein expression profiling of sorafenib-resistant human renal cancer stem-like		
15:25-15:45	cells in three-dimensional in vitro model	
	Zofia Felicja Bielecka, Warsaw Medical University, Poland	
	Networking & Refreshments 15:45-16:00 @ Foyer	
1/ 00 1/ 00	Title: Identification and functional evaluation of LRIG1-interacting proteins	
16:00-16:20	Mahmood Faraz, Umea University, Sweden	
	Title: ExoNet-Intratumor communication network mediated by exosomes in pancreatic cancer	
16:20-16:40	Carolina F Ruivo, Institute for Research and Innovation in Health, Portugal	
16:40-17:00	Title: Intercellular communication mediated by exosomes as a new therapeutic target for	
	pancreatic cancer	
	Nuno Bastos, University of Porto, Portugal	
Poster Presentation 17:00-17:30 @ Infante Hall		
Poster Judge: I	Maru Barrera, Dept. of Psychology and Division of Hematology/Oncology, Canada	
CS 10	Title: ITM2A, a frequently down-regulation in epithelial ovarian cancer, enhance anti- tumor effects and chemosensitivity of ovarian cancer	
	So Young Kim, Chungbuk National University, South Korea	
<b>CS</b> 11	Title: Therapeutic effect of double administration of anti-cancer drugs with carboxylesterase-engineered neural stem cells in liver cancer	
	Sung S Choi, Chung-Ang University College of Medicine, South Korea	
CS 12	Title: Influence of a multidisciplinary post-breast cancer rehabilitation program on lifestyle and behavior faced with physical activities	
	Leclerc Anne-France, University Hospital Centre of Liege, Belgium	
<b>CS</b> 13	Title: LRIG1-interacting proteins required for in vitro PDGFRA downregulation function	
	Mahmood Faraz, Umea University, Sweden	
CS 14	Title: Targeting tumor cells based on phosphodiesterase 3A (PDE3A) expression	
CS 14	Madiha Nazir, Uppsala University, Sweden	
CS 15	Title: Evaluation of cationic channel TRPV2 as a novel biomarker and therapeutic target in leukemia-implications concerning the resolution of pulmonary dysfunction	
	Fouad Azizi, Hamad Medical Corporation, Qatar	
CS 16	Title: The network biology of microtubule-targeting agents	
C5 10	Andrés Julián Gutiérrez-Escobar, University of Applied and Environmental Sciences, Colombia	
CS 17	Title: Blocking WNT5A-interleukin-6-loop as an effective strategy to impair the invasive migration of BRAF-inhibitor (BRAFi) resistant melanoma cells	
	Purusottam Mohapatra, Lund University, Sweden	
CS 18	Title: Breast cancer of the young woman: Trends foreseeable with the level of the area of Sidi Bel Abbés, Algeria	
	Messafeur Abdelkrim, University Sidi Bel Abbes, Algeria	
	Panel Discussion	
	Day 3 July 19, 2017	
	Extended Networking & Lunch 12:30-13:30 @ Restaurant	
	Closing Ceremony
