About Osaka, Japan

Osaka is located in the humid subtropical climate zone with four distinct seasons. Its winters are generally mild, the flower fields offer a wide variety of flowers in the month of May however, the region is most famous for its lavender which attracts large numbers of visitors every summer, when the plants are in full bloom. Spring in Osaka starts off mild, but ends up being hot and humid. Greater Osaka has an extensive network of railway lines, comparable to that of Greater Tokyo. Osaka is served by two airports outside of the city, Kansai International Airport which handles primarily international passenger flights and Osaka International Airport which handles mostly domestic services and some international cargo flights.
