Venue

Yokohama, Japan

Important Dates

Abstract submission opens: 01 October 2018

Registration opens: 01 October 2018

Early bird Registration 09 November 2019

On spot registration: 13 July, 2019

Accommodation

A large number of rooms have been reserved. Discounted room rates for Cardiac Pharmacology 2019 participants are proposed. Only reservations made through the Conference will benefit these rates. The Congress Center can be easily reached by public transportation.

Exhibition and Sponsorship

An Exhibition will be held concurrently with the Conference. The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of new findings in the fields of Cardiology and Medicine.

About Yokohama

Yokohama, a Japanese city south of Tokyo, was one of the first Japanese ports opened to foreign trade, in 1859. It contains a large Chinatown with hundreds of Chinese restaurants and shops. It's also known for Sankei-en Garden, a botanical park containing preserved Japanese residences from different eras, and the seaside Minato Mirai district, site of the 296m Landmark Tower. Yokohama's population of 3.7 million makes it Japan's largest city after the special wards of Tokyo. Yokohama developed rapidly as Japan's prominent port city following the end of Japan's relative isolation in the mid-19th century and is today one of its major ports along with Kobe, Osaka, Nagoya, Hakata, Tokyo, and Chiba. Yokohama was a small fishing village up to the end of the feudal Edo period, when Japan held a policy of national seclusion, having little contact with foreigners. A major turning point in Japanese history happened in 1853-54, when Commodore Matthew Perry arrived just south of Yokohama with a fleet of American warships, demanding that Japan open several ports for commerce, and the Tokugawa shogunate agreed by signing the Treaty of Peace and Amity.
