

27th International Conference & Exhibition on

Cardiology and Cardiovascular Medicine

June 23-24, 2020 | Osaka, Japan

*Theme: “Fostering the Future Excellence in
Cardiology and Medicine Cardiology”*

Invitation...

Dear Colleagues,

27th International Conference & Exhibition on Cardiology and Cardiovascular Medicine (Cardio 2020) extends its welcome to you during **June 23-24, 2020** at **Osaka, Japan**. with a theme "**Fostering the Future Excellence in Cardiology and Medicine Cardiology**". Conference Series LLC Ltd Organises 1000+ Conferences Every Year across USA, Europe & Asia with support from 1000 more scientific societies and Publishes 700+ Open access journals which contains over 50000 eminent personalities, reputed scientists as editorial board members.

The **Cardio 2020** intends to gather all the people across the globe like students, lecturers, Assistant Professors, Professors, Directors, Chairman, Chancellor, Scientists, Doctors, Managing Directors, Chief Executive Officers, Presidents and Noble Laureates and base a platform for them to share their experience, knowledge and research work, recent advancements in the field of Cardiology.

Why to Attend???

Cardiology & Medical Conference provides a Global Platform for Global Networking and Exchanging Latest Innovations in Cardiology, Nursing and Healthcare. Offering opportunity to attend the Presentations delivered by eminent experts from all over the world. Participating in Cardiology Conferences gives a way to Meet, Interact With, And Make Contacts with other Experts in Your Specialty Area. Most Conferences will have Authors, Researchers, Clinicians who Are Recognized Experts In The Field.

Our Goals:

- Spread knowledge about the cardiovascular system and its diseases.
- Promote research on the causes and treatment of diseases of the cardiac system
- To improve and expand heart failure care through worldwide Cardiology Conferences, collaboration, education, and research.

Conference Sessions:

All honorable authors, researchers, scientists and students are encouraged to contribute and help the shape of the conference through submissions of their posters & research abstracts. Also, high quality research contributions describing original and unpublished of conceptual, constructive, experimental or theoretical work in all areas of Cardiology are warmly invited for presentations at the conference. The conference memorial contributions of abstracts and posters that address themes & future aspects of the conference related sessions.

- Heart Failure
- Heart & Brain
- Echocardiography
- Cardiac Anesthesiology
- Cardiovascular Nursing
- Cardiovascular Diseases
- Congenital Heart Diseases
- Cardiovascular Engineering
- Cardiac Problems in Pregnancy
- Hypertension & Sports Cardiology
- Pediatric and Neonatal Cardiology
- Cardiovascular Surgery & Healthcare
- Clinical Case Reports on Cardiology
- Invasive and Interventional Cardiology
- Stem Cell Regeneration on Cardiology
- Cardio-metabolic Health- Diabetes & Obesity

Cardio 2020

- Opportunity to attend the presentations delivered by eminent scientists and business professionals from all over the world.
- Selected contributions will be published in following reputed high impact factor Journals.
 - ☞ Journal of Cardiovascular Diseases & Diagnosis
 - ☞ Journal of Vascular & Endovascular Therapy
 - ☞ Cardiovascular Investigations: Open Access

Program at Glance

June 23, 2020

| Time | Session |

Osaka was traditionally considered Japan's economic hub. By the Kofun period (300–538) it had developed into an important regional port, and in the 7th and 8th centuries it served briefly as the imperial capital. Osaka continued to flourish during the Edo period (1603–1867) and became known as a center of Japanese culture. Following the Meiji Restoration, Osaka greatly expanded in size and underwent rapid industrialization. In 1889, Osaka was officially established as a municipality.

Osaka is a major financial center of Japan. It is home to the Osaka Securities Exchange as well as the multinational electronics corporations Panasonic and Sharp. Famous landmarks in Osaka include Osaka Castle - which played a pivotal role in the Siege of Osaka and was featured in the 1980 American television mini-series *Shogun* - and Shitenno-ji - the oldest Buddhist temple in Japan.

Japan is officially divided into 47 prefectures and traditionally into eight regions. Approximately two-thirds of the country's terrain is mountainous and heavily forested, and less than one-eighth of land is suitable for agriculture. Consequently, Japan is among the most densely populated and urbanized countries in the world, with over 90% of its population living in urban areas. The largest of these is the metropolitan area centered on the capital city of Tokyo, which is the most populous in the world and home to more than 38 million people. Japan itself is the world's eleventh most populous country with a population of 126.2 million, of which 97.8% are ethnically Japanese.
