Cardiology Care 2018

August 09-11, 2018 Abu Dhabi, UAE

Dear Colleagues, Ladies, and Gentlemen,

It is my pleasure to welcome you to the Cardiology Care Congress Annual Meeting in Abu Dhabi.

The main objective of Cardiology Meetings is to provide a multidisciplinary, multinational platform that encourages the development and expansion of high quality basic and clinical research activities and to promote education in the field of cardiology.

The Cardiology Care Congress provides the perfect podium where both young researchers and clinicians can present their most recent scientific work and expand their scope. Many participants are expected, physicians working in the field of cardiology, representatives of important medical universities and professional clinicians.

Abu Dhabi is a lively cosmopolitan city. It is the capital and the second most populous city in the United Arab Emirates. It lies on a T-shaped island jutting into the Persian Gulf from the central western coast and has a population of 1.5 million. Abu Dhabi is full of archaeological evidence that points to civilizations, such as the Umm an-Nar Culture, having been located there from the third millennium BCE. Abu Dhabi's skyscrapers such as the notable Etihad Towers, Abu Dhabi Investment Authority Tower, the National Bank of Abu Dhabi headquarters, the Baynunah (Hilton Hotel) Tower, and the Etisalat headquarters are usually found in the financial districts. Other notable modern buildings include the Emirates Palace with its design inspired by Arab heritage. One of the most important architectural landmarks is the Sheikh Zayed Mosque. The town has several parks and gardens and more than 400 kilometers (249 miles) of coastline, of which 10 kilometers (6 miles) are public beaches. Abu Dhabi has a diverse and multicultural society. The diversity of cuisine is a reflection of the cosmopolitan nature of the society. It offers a safe, comfortable setting where taking time out while attending the meeting is possible. Its modern architecture, quality accommodation, and fine cuisine make it one of the most attractive cities in the world.

The local organizing committee of the Cardiology Care Congress 2018 is prepared to satisfy your expectations.

Once again, welcome to Abu Dhabi. I wish you to enjoy the Congress and the exciting atmosphere of the town.
