International conference on Cardiovascular and Hypertension-2019

SEPTEMBER 26-27, 2019 LONDON UK

AGENDA
Title: HECT domain containing E3 ubiquitin ligase (HECTD3) attenuates cardiac hypertrophy via post-translational regulation of SUMO2

Dr. Ashraf Yusuf Rangrez
University Medical Center
Kiel, 24105 Kiel, Germany

Ashraf Rangrez is a basic researcher in the field of molecular cardiology with experience and expertise particularly in molecular cascades and signaling pathways involved in the pathophysiology of the heart. His recent interest lies in two of the major post-translational modifications, SUMOylation and Ubiquitination that are involved in diverse cellular and physiological processes ranging from signaling pathways, protein homeostasis, apoptosis, cell proliferation, etc. Both SUMOylation and Ubiquitination are altered during cardiac stress either due to intrinsic or extrinsic factors including genetic mutations.

Title: Malignant tumors of the heart - the experience of surgical treatment.

Dr. Volodymyr Isaienko

N.M. Amosov National Institute of Cardio-Vascular surgery of the Academy of Medical Sciences of Ukraine, Kyiv.

Title: Role of carotid endarterectomy combined with coronary revascularisation - Our experience composites.

Dr S Krishna Kishor
Head of Cardiac surgery at Superspeciality hospital,Coimbatore, India.

Krishna Kishor has completed his formal training in Cardiothoracic surgery from the National boards, India and is currently the Head of Cardiac surgery at Royalecare Superspeciality hospital, Coimbatore, S. India. He has authored and coauthored in many publications and is an active researcher in the field of adult cardiac surgery.
Title: Cardiac Mechanics in Children post Percutaneous Transcatheter Closure of Perimembranous Ventricular Septal Defect: Right and Left Ventricular Performance assessed by echocardiography

Lijian Xie
Pediatric of Cardiology, Shanghai Children's Hospital.

Title: Heart Illness and Hypertension in Juveniles

Mohyeddin Alarabid
General Directorate of Internal Audit, Ministry of Health, Palestine

Mohyeddin has completed his MPH from Al-Quds University and Current a candidate of PhD in Public Health Studies from Alabama University School of Medicine. He is the director of Quality of Health Performance in General Directorate of Internal Audit, MOH Palestine, a lecturer in Palestine University, School of Nurse. He has published more than 10 papers in reputed journals, Conferences publish an epidemiological book about Renal Diseases, and has been serving as an editorial research thesis of health science.

Title: Comparison of All-Cause mortality, Cardiac Mortality, Stroke and Myocardial Infarction outcomes among patients undergoing Trans-catheter Aortic Valve Replacement (TAVR) and Surgical Aortic Valve Replacement (SAVR) at low to intermediate risk of cardiovascular mortality: An updated Meta-analysis and Systematic review

Dr. Yasir Illahi
Interventional Cardiology
Pakistan
Title: The Valley of death”- Anomalous LMCA in an inter-arterial route.

Dimuthu De Silva
Sri Jayewardenepura General Hospital,
Nugegoda, Sri Lanka

Dr. Dimuthu De Silva has completed his MBBS degree at the age of 28 years from Faculty of Medicine, University of Peradeniya, Sri Lanka and acquired MD(Medicine) from Post graduate Institute of Medicine, University of colombo, Sri Lanka in 2017. He is a senior cardiology fellow at Sri Jayewardenepura General Hospital, Sri Lanka

Title: Feasibility and clinical outcome of 48 mm drug eluting stent treatment of long coronary lesions in the egyptian population

Mohamed Alaa
Egypt

Track name: Interventional Cardiology

Title: Long-term outcome following mitral valve repair in rheumatic heart disease

Au Wing Kuk Timmy
Department of Cardiothoracic Surgery,
Queen Mary Hospital, Hong Kong

Dr. Au Wing Kuk, Timmy is currently Chief of Service and Consultant Cardiothoracic Surgeon at the Department of Cardiothoracic Surgery of the Queen Mary Hospital, Hong Kong. He completed medical school from the University of New South Wales, Sydney, Australia in 1988 and attained a fellowship in cardiothoracic surgery in 2000. Between these years he worked as registrar in cardiothoracic surgery in Australia, Scotland and Hong Kong. unrelenting pursuit in introducing new technologies and skills to provide the best of care for his patients.
Title: Type of anesthesia and hospital outcomes of carotid bifurcation surgery

Andrey Sorokin
Russian Federation
Clinic of Advanced Medical Technologies

Title: Preventing Strokes in Patients with Atrial Fibrillation

Sydney F. Norton
MCPHS University
STROKE PREVENTION

Title: Antiplatelet drug resistance in asian population

Dr. Sadath Praeed
KERALA/INDIA
Track name: Cardiovascular Toxicology and Pharmacology.
Title: Association of Preprocedural High sensitivity C-reactive protein With In-hospital outcome of Patients Undergoing Percutaneous Coronary

Sufia Jannat
Bangladesh

Track name: Interventional Cardiology

Title: Association of Long Noncoding RNAs, ANRIL and MALAT1, and their Polymorphisms with Cerebral Stroke in the Egyptian Population

Noha Hussein Sayed
Cairo University, Cairo, Egypt.

Noha Hussein Sayed, Lecturer of Biochemistry, Faculty of Pharmacy, Cairo University. Egyptian, date of birth 5/3/1976. Ph.D. in Pharmaceutical Sciences, 2018; M.Sc. in Pharmaceutical Sciences, 2014; B.Sc. in Pharmaceutical Sciences, Faculty of Pharmacy, Cairo University, 1998.

Title: A pilot pharmacy-led blood pressure screening intervention in Cyprus. Are Cypriot pharmacists ready to improve public’s health regarding CVD prevention

Romina Alexandrou
University of Nicosia, Cyprus

Corresponding author: Aliki Peletidi was graduated with an MPharm degree from Kingston University London in 2013. Aliki together with Professor Reem Kayyali initiated and delivered with high success rates the first pharmacy-led public health service to reduce the CVD risk in Greece. Currently, she is a Lecturer at the University of Nicosia teaching Clinical Pharmacy.

He has published more than 10 papers in reputed journals, conferences publish an epidemiological book about Renal Diseases, and has been serving as an editorial research thesis of health science.

Title: Omental Adipose Removal Decreases High Blood Pressure in Hypertensive Patients Independent of Body Mass Index

Li Jiang
The First Affiliated Hospital of Nanjing Medical University, Nanjing, China

Dr. Li Jiang has completed her MD at the age of 35 years from Nanjing Medical University. She is a pediatric cardiologist (associate chief physician) in the field of structural congenital heart disease. She has published more than 10 papers in reputed journals.

Title: A protocol paper on health literacy for management and control of hypertension: participatory action intervention in a village of Chandigarh, India

Reetu Passi
Chandigarh, India.

Dr Reetu Passi has been doing her PhD from Post Graduate Institute of Medical Education and Research, Chandigarh, India. Title of her thesis is “health literacy for management and control of hypertension: participatory action intervention in a village of Chandigarh, India”. Baseline data has been collected and intervention planning is going on. She has one publication in IJPH and two are in process in IJERPH. She also has a work experience of 1.5 years as district epidemiologist in a state of India.
Title: Association of Long Noncoding RNAs, ANRIL and MALAT1, and their Polymorphisms with Cerebral Stroke in the Egyptian Population

Mona A. Kortam
University, Cairo, Egypt

Mona Abdelaziz Abdelfattah Kortam, Lecturer of Biochemistry, Faculty of Pharmacy, Cairo University. Egyptian, date of birth 12/10/1984. Ph.D. in Pharmaceutical Sciences, 2017; M.Sc. in Pharmaceutical Sciences, 2013; B.Sc. in Pharmaceutical Sciences, Faculty of Pharmacy, Cairo University, 2006

Title: The Role of Estrone in Endothelial Progenitor Cell Number and Function

Alicia Ivory
Medical College of Wisconsin

Track name: Cardiovascular disease

Title: Valve repairs – a graded wet lab program for registrar training.

Jacob Jamesraj
Cardiac Surgeon
Madras Medical Mission
Chennai, India

Madras Medical Mission Hospital in Chennai, India. His interests are off pump coronary surgery, valve repairs, homograft banking, minimally invasive surgery and teaching. He has designed many training kits which are useful in registrar training in coronary and valve surgeries. Minimal access surgery and Videoscopic techniques can be practiced on the simulator. He conducts a Cardiac Morphology course every year which is popular with students from all over India and the neighboring countries
