Dear Colleagues,

Conference Series llc LTD., is delighted to welcome you to Auckland, New Zealand for the Prestigious 7th **Asia Pacific Congress on Chemical and Biochemical Engineering**. Asia Chemical Engineering 2019 will focus on “**Firm foundation for future advancement in Chemical Engineering**”. We are confident that you will enjoy the Scientific Program of this upcoming Conference.

We look forward to see you at Auckland, New Zealand.

With Regards,

Asia Chemical Engineering 2019

Operating Committee, Conference Series LLC Conferences

Editorial Board Members of Supporting Journals:

Alexey Goltsov

Abertay University, UK

Liming Dai

Case Western Reserve University, USA

Dr Shing-Yi Suen

National Chung Hsing University, Taiwan

Victor Starov

Loughborough University, UK

Joseph D. Smith

Energy Research and Development Center
Missouri University of Science and Technology, USA

Junwang Tang

Department of Chemical Engineering
University College London, UK

Fawzi Banat

Department of Chemical engineering
The Petroleum Institute, UAE

Eduard Rogatsky

Research Associate Professor of Medicine
Albert Einstein Medical college, USA

Hideharu Shintani

School of Science
Chuo University, Japan

Qin Hu

Department of Chemistry
State University of New York at Buffalo NY, USA

B2B Meetings

Venue

Auckland, New Zealand

Important Dates

Abstract submission opens: October 01, 2018

Registration opens: October 01, 2018

Early bird registration: November 27, 2018

Mid registration: February 27, 2019

On spot registration: August 12, 2019

Accommodation

A large number of rooms have been reserved. Discounted room rates for Asia Chemical Engineering 2019 participants are proposed. Only reservations made through the Conference will benefit these rates. The Congress Center can be easily reached by public transportation.

Exhibition and Sponsorship

An Exhibition will be held concurrently with the Conference. The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of new findings in the fields of chemical and bio chemical engineering.

About Auckland

Auckland is a city in New Zealand's North Island. With a civic populace of 1,495,000, Auckland is the most populous metropolitan area in the country. A diverse and multicultural city, Auckland is home to the largest Polynesian population in the world. The excellence of productive terra at a hub of creeks in all orientations.

Auckland has an oceanic to the humid subtropical climate with warm humid summers and mild damp winters. It is the warmest main center of New Zealand and is also one of the sunniest, with an average of 2,003 Sunshine hours per annum. The average daily maximum temperature is 23.7 °C (74.7 °F) in February and 14.7 °C (58.5 °F) in July. The absolute maximum recorded temperature is 34.4 °C (93.9 °F), while the absolute minimum is -3.9 °C (25.0 °F). High levels of rainfall occur almost year-round with an average of 1,115.5 mm (43.92 in) per year. The nape on which Auckland resides was first resided around 1350 and was appraised for its rich and productive terra. Today, Auckland's Central Business District is the major financial center of New Zealand.

New Zealand cuisine is largely driven by local ingredients and seasonal variations. An island nation with a primarily agricultural economy, New Zealand yields products from land and sea. Comparable to the nouvelle cuisine of Australia, the cuisine of New Zealand is an assorted British-based cuisine, with Mediterranean and Pacific Rim influences as the country becomes more cosmopolitan.
