

# Scientific Program

*Joint Event on*

## Chemistry, Drug Design & Pharma Science

October 14-15, 2019 | Seoul, South Korea

**CONFERENCE SERIES LLC LTD**

47 Churchfield Road, London, W3 6AY, UK

☎ | 📧 +44-203-7690-972

Email: [chemistrycongress@asiameets.com](mailto:chemistrycongress@asiameets.com) | [chemistrycongress@globalconferences.net](mailto:chemistrycongress@globalconferences.net)

**Day 1 October 14, 2019**

08:15-09:15 Registrations

D-Ballroom-1

**conference**series.com

09:15-09:25

# Opening Ceremony

09:25-09:30 Introduction

## Keynote

09:30-10.10 **Title: Advantages of fluorinated fragment library in the discovery of novel specific binders and hit to lead optimization**

Karen Tarasenko | Chem Space | Ukraine

10.10-10.50 **Title: Effect of manganese on Co-Mn/CNT bimetallic catalyst performance in Fischer-Tropsch reaction**

Omid Akbarzadeh | University of Malaysia | Malaysia

## Group Photo

Networking and Refreshments Break: 10.50-11.10 @ Foyer

Session: Modern Approach Towards Pharmaceutical Chemistry | Advanced Chemistry | Technical Aspects of Analytical Chemistry | Discovery and Design of Material chemistry | Emerging Trends in Computer-Aided Drug Design | Latest Discoveries in Green Chemistry | Technological advancement in Organic Synthesis

Session Introduction

Session Chair: Karen Tarasenko | Chem Space | Ukraine

Session Co-Chair: Omid Akbarzadeh | University of Malaysia | Malaysia

11.10-11.40 **Title: Preliminary antibacterial activity from the stem extracts of Nauclea orientalis and Artocarpus lakoocha**

Weerasak Songoen | Kasetsart University | Thailand

11.40-12.10 **Title: Synthesis and acetylcholinesterase inhibitory activity of piperate ester**

Atcharee Ratwathananon | Kasetsart University | Thailand

12.10-12.40 **Title: Synthesis and insecticidal activity of phenylpropanoids against Spodoptera litura**

Anchulee Pengsook | Kasetsart University | Thailand

## Video Presentation

12.40-13.10 **Title: Mixed ligand divalent complexes of 2-(4,6-dimethylpyrimidin-2-ylamino) naphthalene-1,4-dione: Synthesis, investigational and hypothetical characterization and biological actions**

Chioma Festus | Ignatius Ajuru University of Education | Nigeria

Lunch Break: 13.10-14.00 @ Pre Function Area

14.00-14.30 **Title: TBA**

Rahul Hajare | Ishwar Deshmukh Institute of Pharmacy Digras | India

14.30-15.00 **Title: Design and synthesis of a new series of 2-amino adipic acid based prostate-specific membrane antigen ligands for use as theranostics**

Ryo Nakajima | Hiroshima University | Japan

## Video Presentation

15.00-15.30 **Title: Improved production of green fuel from metabolic engineering of Enterobacter aerogenes**

Laxmi Prasad Thapa | Tribhuvan University | Nepal

Networking and Refreshments Break: 15.30-15.50 @ Foyer

### Poster Presentation

- 15.50-16.20** **Title: Significance of ytterbium-porphyrin complexes in the early diagnosis of myelocytic neoplasms in clinical practice**  
**Orlova E.V.** | First Moscow State Medical University | Russia
- 16:20-16:50** **Title: Significance of ytterbium-porphyrin complexes in the early diagnosis of myelocytic neoplasms in clinical practice**  
**Gabrielyan Gayane Andranikovna** | First Moscow State Medical University | Russia
- 16:50-17:05** **Title: A Study On The Pharmacist's Role In Health Care And Drug Discovery**  
**Sameh Monir Abdou Desoky** | Gizan Public Hospital | Saudi Arabia

### Panel Discussion

### Award Ceremony

### Thanks Giving & Closing Ceremony
