“Organize your Events at OMICS Group Conferences”

Proposals are invited for organizing Symposia/Workshops at OMICS Group Conferences or OMICS Group will sponsor small events at your universities in related areas under the title of your own. These proposals can be sent to respective conference mail ids or to symposia@omicsonline.org

OMICS Group Conferences
5716 Corsa Ave., Suite 110, Westlake Los Angeles, CA 91362-7354, USA
Phone: +1-650-268-9744, Fax: +1-650-618-1414, Toll free: +1-800-216-6499
Email: clinicalmicrobiology2014@omicsgroup.biz
Day 1  
September 24, 2014

08:00-09:30  Registrations
Committee Room 8-9

Opening Ceremony

09:30-10:00

Keynote Forum

10:00-10:05  Introduction
10:05-10:30  Phyllis Della-Latta  
Columbia University College of Physicians & Surgeons, USA
10:30-10:55  Max Reynolds  
98 Alive, Australia
10:55-11:20  Alan Ebringer  
King's College, UK

Coffee Break 11:20-11:40 @ Auditorium 3 Foyer

Day 2  
September 25, 2014

Committee Room 8-9

Panel Discussions
### Keynote Forum

**09:00-09:25**  
**Duncan Dartrey Adams**  
University of Otago, New Zealand

**Track 6:** Tools and Diagnostics in Clinical Microbiology  
**Track 7:** Clinical Veterinary Microbiology and Current Research  
**Track 8:** Infectious Diseases & Public Health

---

**Session Introduction**

- **Session Chair:** Marco Manfredi, University of Parma, Italy  
- **Session Co-Chair:** W John Martin, Institute of Progressive Medicine, USA

### Session 1 09:25-10:25

**Study of the evolution during 20 years of the tropical and zoonotic diseases in Ecuador**  
Monica Cartelle Gestal, INSPI, Ecuador

**Primary antimicrobial susceptibility changes in children with Helicobacter pylori infection over 13 years in northern Italy**  
Marco Manfredi, University of Parma, Italy

**Toxoplasmosis in immunocompetent and immunocompromised population of Constanta, Romania**  
Irina Magdalena Dumitru, Ovidius University, Romania

**Visceral leishmaniasis in Delphan city, Lorestan province: Introduce a new focus of VL in Iran**  
Vahideh Moin-Vaziri, Shahid Beheshti University of Medical Sciences, Iran

### Session 2  10:25-11:05

**Lemierre’s syndrome: The forgotten disease? A case report**  
Amera Elzubier, University Hospital Birmingham, UK

**Antibiotics sensitivity of microorganism causing nosocomial infections**  
Tea Koiava, Shota Restiveli State University, Georgia

**Viteria and the potential over diagnosis of chronic lyme disease**  
W John Martin, Institute of Progressive Medicine, USA

**Platelet reactivity during different stages of sepsis: Preliminary results**  
Karolina Akinosoglou, University of Patras, Greece

**Incidence of onychomycosis among different occupational workers in Hyderabad, India**  
Humaira Rizwana, King Saud University (KSU), Kingdom of Saudi Arabia

**Characterization of the fecal microbiota of pigs before and after inoculation with *Brachyspirahampsonii***  
Matheus O Costa, University of Saskatchewan, Canada

---

**Coffee Break 11:05-11:25 @ Auditorium 3 Foyer**

---

### Young Researcher Forum

**Session Introduction**

- A fruit rind extract from *Garcinia mangostana* Linn exhibits anti-microbial activity against *Pythiuminsidiosum*, an oomycete microorganism causing human pythiosis  
Nujarin Jongruja, Mahidol University, Thailand

- Contribution of KatG and inhA gene mutation in isoniazid drug resistance: A study on clinical isolates of *Mycobacterium tuberculosis*  
Indu Jaiswal, King George’s Medical University, India

- Retrospective study of the situation of dengue in Ecuador for the last 20 years  
Maria Jose Alulema, ESPOCH, Ecuador

- A look back to the situation of Ecuador. Is *Salmonella* spp. still a big problem?  
Ariel Avalos, ESPOCH, Ecuador

- A study of the potential over diagnosis of chronic lyme disease  
W John Martin, Institute of Progressive Medicine, USA

- Pattern of macro and micro-nutrient intake among Bangladeshi type-2 diabetic and non diabetic subjects  
Farida Jasmine, Bangladesh University of Health Sciences, Bangladesh

### Session 1 14:00-15:00

**Therapeutic modulation and reestablishment of the intestinal microbiota with fecal microbiota transplantation resolves sepsis and diarrhea in a patient**  
Qiurong Li, Nanjing University School of Medicine, China

**Can mice legated ilea loop (MLLI) model replace rabbit ilea loop (RIL) model for bacterial diarrhea?**  
Sumarno Reto Praiwiro, Brawijaya University, Indonesia

**A look back to the situation of *Salmonella* spp. in Bangladesh 2013**  
Khaila Fatnasa, University of Tripoli, Libya

**Pattern of macro and micro-nutrient intake among Bangladeshi type-2 diabetic and non diabetic subjects**  
Farida Jasmine, Bangladesh University of Health Sciences, Bangladesh

### Lunch Break 13:05-14:00 @ Multi Purpose Hall 2

---

**Coffee Break 16:00-16:20 @ Auditorium 3 Foyer**

---

**Keynote Forum**

**09:00-09:25**  
**Hamid Yahay Hussain**  
Dubai Health Authority, Dubai

**Track 9:** Current Research in Medical Microbiology  
**Track 10:** Microbial Genomics and Cellular Microbiology  
**Track 11:** Vaccines against Infectious Disease  
**Track 12:** Microbial and Biochemical Technology

---

**Session Introduction**

- Therapeutic modulation and reestablishment of the intestinal microbiota with fecal microbiota transplantation resolves sepsis and diarrhea in a patient  
Qiurong Li, Nanjing University School of Medicine, China

- Can mice legated ilea loop (MLLI) model replace rabbit ilea loop (RIL) model for bacterial diarrhea?  
Sumarno Reto Praiwiro, Brawijaya University, Indonesia

- Development of genetically modified live attenuated parasites as potential vaccines against visceral leishmaniasis  
Poonam Salatra, National Institute of Pathology (ICMR), India

- Single nucleotide polymorphism in the genome of *Salmonella Enteritidis* and implications for controlling an important foodborne pathogen  
Dele Ogunremi, Canadian Food Inspection Agency, Canada

- Genetic variability of HCMV strains isolated from Polish pregnant women, their fetuses and newborns  
Wioletta Wujcicka, Polish Mother’s Memorial Hospital Research Institute, Poland
