

International Conference on

# Computational Biology and Bioinformatics

September  
05-06, 2018  
Tokyo, Japan

Theme:  
Computational Biology:  
Going into the future one  
click at a time

Dear Colleagues,

Conference Series llc LTD is delighted to welcome you to Tokyo, Japan for the prestigious International Conference on Computational Biology and Bioinformatics. Computational Biology 2018 will focus on the theme "Computational Biology: Going into the future one click at a time". We are confident that you will enjoy the Scientific Program of this upcoming Conference. We look forward to see you at Tokyo, Japan.

With Regards,

Computational Biology 2018 Operating Committee  
Conference Series llc LTD Conferences

### Editorial Board Members of Supporting Journals:

James Lyons-Weiler

University of Pittsburgh, USA

Jennifer Dommer

National Institutes of Health  
USA

Simon Daefler

Mount Sinai School of Medicine, USA

Yufeng Liu

The University of North Carolina  
USA

Jixiang Wu,

South Dakota State University, USA

Tamanna Sultana

University of Pittsburgh, USA

Alexander E Berezin

Zaporozhye, Ukraine.

Krestyaninova M

Wellcome Trust Genome Campus  
UK

Robert L. Jernigan

Iowa State University, USA

Haipeng Shen

University of North Carolina, USA

# Program Announcement

## Accommodation

A large number of rooms have been reserved. Discounted room rates for Computational Biology 2018 participants are proposed. Only reservations made through the Conference will benefit these rates. The Congress Center can be easily reached by Public transportation.

## Exhibition and Sponsorship

An Exhibition will be held concurrently with the Congress. The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of new findings in the field of Nursing and Nursing Education.

## About Tokyo

Tokyo is the capital city of Japan and it is the world's most populous metropolis with its stunning, stimulating and seductive atmosphere. It is one of Japan's 47 prefectures, consisting of 23 central city wards and multiple cities, towns and villages west of the city centre. Before 1868, Tokyo earlier known as Edo, was a small castle town in the 16th century. It became Japan's political centre in 1603 under Tokugawa Ieyasu then, after Emperor Meiji moved his seat to the city from the old capital of Kyoto in 1868, it became the official capital. The city's history can be appreciated in regions like Asakusa, and in many brilliant museums, historic temples and gardens.

Tokyo has the leading metropolitan economy in the world and is a major international finance centre. It houses the headquarters of several of the world's largest investment banks and insurance companies, and serves as a hub for Japan's transportation, publishing, electronics and broadcasting industries.

### Important Dates

Abstract submission opens: July 15, 2017

Registration opens: July 22, 2017

Early bird registration: October 14, 2017

On spot registration: September 05, 2018

### Venue

Tokyo, Japan

### Abstract Submission

<http://www.computational-biology.conferenceseries.com/abstract-submission.php>

Note: All the relevant abstracts will be accepted and published in respective conference proceedings.

### Registration

<http://www.computational-biology.conferenceseries.com/registration.php>

### Conference Secretariat

47 Churchfield road,

London W3 6AY.

+1-650-889-4686
