# IVENUE

Tokyo is without a doubt one of the world's most impressive cities. Because of the contrast between its illustrious past and its frenetic, contemporary energy, Tokyo, the capital of Japan, is one of the best cities in Asia to visit. It is the location of the Imperial Palace, the Government and Parliament buildings, as well as opulent hotels, Michelin-starred eateries, and world-class shopping. This densely populated city is situated in East-Central Honshu, the largest of Japan's main islands, and makes a fantastic starting point for travelling around the rest of the nation.

Tokyo is the most expensive city in the world to live in, despite having some of the world's most advanced infrastructure and design thanks in large part to the devastation of WWII and the 1923 earthquake. Fortunately, because of its first-rate rail and subway systems, it's also one of the simplest to navigate.
