About Rome

Rome is the capital city and a special comune of Italy (named Comune di Roma Capitale). Rome also serves as the capital of the Lazio region. Caput Mundi during the Roman Empire, capital of Italy since 1570, home of the Catholic Church and the Italian government, is placed on the banks of the Tiber, there where the river, running weakly among the seven hills, creates vast meanders which originate little plains. With its 2,459,776 inhabitants (2001), Rome is today the biggest and most populous city of Italy. Rome has bewildering artistic heritage and contains precious works of art, palaces, museums, parks, churches, gardens, basilicas, temples, villas, piazzas, and different venues. The 5 most visited spots in Rome are The Colosseum, Pantheon, Trevi Fountain, Sistine and The Roman Forum Having been the focal point of one of the world's most prominent developments ever
