Invitation

Dear Colleagues,

Conference series welcome to the world largest gathering of the **World Congress on On Crop Science Management and Harvesting** with a theme “**New Emerging Technologies In Crop Sciences**” by bringing the international Cardiology, Diabetes & Metabolic Disorders expertise, researchers, professors, scientific communities, therapists, counsellors, delegates, students, business professionals and executives together in **Tokyo, Japan on November 21-22, 2019**. Conference Series Ltd organizes 1000+ Global events inclusive of 300+ Conferences every Year across the USA, Europe & Asia with support from 1000 more scientific societies and Publishes 500+ Open access journals which contain over 50000 eminent personalities, reputed scientists as editorial board members.

With Regards,

Crop Science 2019

Operating Committee, Conference Series LLC LTD. Conferences

Editorial Board Members of Supporting Journals:

Alexandra Lucas

University of Florida, USA

Xiangyang Shi

Cornell University, Editor-in-Chief, USA

Yanfeng Zhang

Pacific Northwest National Laboratory, USA

Chenggang Wang

University of Florida, United States

Chenggang Wang

University of Florida, USA

Guangming Zhong

University of Texas Health Science Center, USA

Yoshinori Asakawa

Tokushima Bunri University, Japan

Song Gao

University of Houston, USA

Abdel Nasser Badawi Ibrahim Singab

Ain Shams University, Egypt

Program Announcement

Venue

Tokyo, Japan

Important Dates

Abstract submission opens: April 02, 2019

Registration opens: May 23, 2019

Early bird registration: April 27, 2019

On spot registration: November 21, 2019

Accommodation

A large number of rooms have been reserved. Discounted room rates for Crop Science 2019 participants are proposed. Only reservations made through the Conference will benefit these rates. The Congress Center can be easily reached by public transportation.

Exhibition and Sponsorship

An Exhibition will be held concurrently with the Conference. The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of new findings in the fields of World Congress on On Crop Science Management and Harvesting.

About Tokyo, Japan

Tokyo is often referred to as a city, but is officially known and governed as a “metropolitan prefecture”, which differs from and combines elements of a city and a prefecture, a characteristic unique to Tokyo. The best place to visit in Tokyo is the Disney world sea and Tokyo has Metropolitan Government administers the 23 Special Wards of Tokyo (each governed as an individual city), which cover the area that was the city of Tokyo. Tokyo has numerous outlying islands, which extend as far as 1,850 km (1,150 mi) from central Tokyo. Because of the islands’ distance from the administrative headquarters of the Tokyo Metropolitan Government in Shinjuku, local sub prefectural branch offices administer them. Tokyo is the best place to visit especially in the month of September to October.

If you are thinking of spending your holidays, then Tokyo is the place you must visit. In 2019 this beautiful city will be hosting the combo of World Congress on Crop Science Management and Harvesting.
