Invitation...

Dear Colleagues, Scientists and Friends,

The Organizing Committee is delighted to invite you to attend the 33rd International Conference on Dental and Oral Health, to be held during August 13-14, 2018 in Dubai, UAE. The Dental Management 2018 brings together scientists, researchers, industry and CRO representatives from around the world. Dental Management 2018 is expected to experience an exponential growth over the coming few years. Many new dentists are making their entry in the pharma market and experiencing a notable rise in their usage compared with the conventional medications.

The 33rd International Conference on Dental and Oral Health will present multiple aspects through a decade in Asia and Middle East to the latest developments in the field of Dental and Oral Health. The whole range of portfolio selection, development, regulatory requirements and marketing will be presented. You can join your peers from around the world focused on learning and related advances, which is your single best opportunity to reach the largest assembly of participants from the Dental community, conduct demonstrations, distribute information, meet with professionals, make a splash with new research, and receive name recognition at this 2-day event. The conference will provide enough space for discussion, meetings and workshops to allow a close contact between speakers and visitors. Conference will focus on the following topics during presentations of the Two-day event, which reflect current education research, developments and innovations internationally and as evidenced in both Nurse Education and Evidence Based Practice.

- Oral and Dental Health
- Oral Medicine
- Dental Surgery
- Dental Nursing
- Cosmetic Dentistry
- Oral and Maxillofacial Surgery
- Geriatric Dentistry
- Dental Anesthesia
- Nano Dentistry
- Preventive Dentistry
- Oral Microbiology and Pathology
- Oral Implantology
- Diabetes and Periodontal Disease
- Electromagnetic waves and dentistry
- Endodontics and Restorative Dentistry
- Dental education and Training
- Regulatory and Ethical Issues of Dentistry
- Oral Medicine
- Laser Treatment
- Dental 3D Imaging and Painting
- Veterinary Dentistry
- Nutrition and Dental Pain
- Oral Cancer
Day 1  August 13, 2018

Registrations

Hall

09:00-09:30  Opening Ceremony

Keynote Forum

Title: To be updated Soon
Khalid Mohammed Idrees, King Faisal Specialist Hospital and Research Center - Jeddah
Title: Dental Implantology
Philips Jackson, State of Colorado, University of Colorado, School of Dentistry, USA

Keynote Speaker Slots Available

Networking and Refreshments Break: 11:45-11:55

Session Chair: To be announced
Session Co-Chair: To be announced

Title: Initial ‘well-baby’ checkup for Oral health: A cross-sectional study in Aljouf Province, Saudi Arabia.

Best Workshop!

“AN OUNCE OF PREVENTION IS WORTH A POUND OF CURE”

Dentists are at high risk for musculoskeletal disorders due to the nature of their work. The key to preventing work-related musculoskeletal disorders is ergonomics — the science of fitting the work environment to the worker.

In dentistry, ergonomics involves the design, adjustment, and modification of operatory layouts, counters, delivery systems, stools, instruments and patient chairs to minimize excessive reaching, twisting, leaning, gripping and repetitive motions.

Literature has shown more than 65% of the dentist suffer from musculoskeletal complaints varying in severity but accompanied with pain, discomfort, hindrance in functioning and loss of working time.

Our goal with ErgoDontia is to improve dentist performance and reduce occupational pain by focusing on proper body mechanics and preventive exercise to safeguard against injuries.

Glimpses of past conference
Dubai has grown as a city and global business center of the Middle East. It is also an important transportation center for passengers and goods. In the 1960s, Dubai’s economy was based on trade revenues and, to a lesser extent, on oil exploration concessions, but oil was not discovered until 1966. Oil revenues began to flow in 1969.

There are several tourist attractions in Dubai, resulting from a large scale construction boom. Mohammed bin Rashid Al Maktoum, the current ruler of Dubai and the prime minister of the United Arab Emirates, wants Dubai to become the top tourist destination in the world.

Various other tourist attractions include, the sky-piercing Burj Khalifa, houses the Dubai Museum, Jumeirah Mosque, Atlantis Palm Jumeirah, Dubai Aquarium and Underwater Zoo, Ski Dubai, Dubai Ice Rink.

Venue:
Radisson Blue Water Front
Dubai, UAE
