Welcome Message

Dear Colleagues,

Conference Series extends its welcome to Dental and Oral Healthcare during March 25-26, 2020 at Singapore City, Singapore with the theme “Innovative Ideas and Approaches in Dental Science and Oral Health Care”. Conference Series through its Open Access Initiative is committed to make genuine and reliable contributions to the Dental Community.

Conference Series Organizes 1000+ Conferences Every Year across USA, Europe & Asia with support from 1000 more scientific societies and Publishes 700+ Open access journals which contains over 100000 eminent personalities, reputed scientists as editorial board members.

Dental Science Congress 2020 Conference will focus on educational research directed toward its impact on dental clinical outcomes, through oral and poster presentations, educational workshop sessions, and influential plenary presentations. Dental Science Congress 2020 is a perfect platform to find out how Dental and Oral health care innovations are helpful in the treatment of various Dental issues. Conference will focus on the following topics during presentations of the two-day event, which reflect current education, research, developments and innovations internationally in the field of Dental Science.

Tourist Attractions
Singapore officially the Republic of Singapore, is a sovereign city-state and island country in Southeast Asia. It lies off the southern tip of the Malay Peninsula and is 137 kilometres (85 mi) north of the equator. Singapore is separated from Peninsular Malaysia by the Straits of Johor to the north and from Indonesia’s Riau Islands by the Singapore Strait to the south. The country is highly urbanized, and little of the original vegetation remains. Singapore’s progress over the past three decades has been remarkable, yet the island has not been overwhelmed by development. Visitors will discover a wealth of historical treasures from the past, in the beauty of older buildings, values and traditions that have survived in the face of profound social and geographical change.

Singapore has a tropical rainforest climate with no distinctive seasons, uniform temperature, pressure, high humidity and abundant rainfall. Sentosa Island, Singapore Flyer, Universal Studios, Night Safari Singapore, Singapore Botanic Gardens, Jurong Bird Park, Singapore Zoo, Sri Mariamman Temple, Pulau Hantu famous for its rich coral reefs and Peranakan Museum are some of the points of interest in Singapore. A splendid location, life expectancy, quality of life, personal safety and housing that is unsurpassed for its livability makes Singapore a city to visit and remember.

You’ll fall in love with SINGAPORE
