Tourist Attractions

Japan is often referred as, the famous epithet "land of rising sun". It is an Asian country which is in the Asia Pacific region and a neighbour of P.R. China, North Korea, South Korea and Russia. Geographically, the whole country consists of four major islands, they are, Honshu, Hokkaido, Kyushu and Shikoku. Altogether, the country is having 6,852 islands. The country is having a chain of islands with numerous composite volcanos. After huge suffering from atomic bombing, Japan excelled in all areas of research and development. Japan is having third-largest economy and fourth in the world as per power purchasing parity. Technological advances enabled Japan to lead the world. The country is pioneer in advanced research in electronics, machinery, biomedical devices, computer science, robotics and medical sciences.
