# Program Announcement

## Venue

Singapore

## Important Dates

Abstract submission opens: October 01, 2018

Registration opens: October 01, 2018

Early bird registration: February 27, 2019

On spot registration: May 17, 2019

## Accommodation

A large number of rooms have been reserved. Discounted room rates for Diabetes Meet 2019 participants are proposed. Only reservations made through the Conference will benefit these rates. The Congress Center can be easily reached by public transportation.

## Exhibition and Sponsorship

An Exhibition will be held concurrently with the Conference. The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of new findings in the fields of Diabetes, Hypertension & Metabolic Syndrome.

## About Singapore

Singapore, an island city-state off southern Malaysia, is a global financial center with a tropical climate and multicultural population. Its colonial core centers on the Padang, a cricket field since the 1830s and now flanked by grand buildings such as City Hall, with its 18 Corinthian columns. In Singapore's circa-1820 Chinatown stands the red-and-gold Buddha Tooth Relic Temple, said to house one of Buddha's teeth.

Singapore officially the Republic of Singapore is a sovereign city-state and island country in Southeast Asia. It lies one degree (137 kilometres or 85 miles) north of the equator, at the southern tip of the Malay Peninsula, with Indonesia's Riau Islands to the south and Peninsular Malaysia to the north. Singapore's territory consists of one main island along with 62 other islets. Since independence, extensive land reclamation has increased its total size by 23% (130 square kilometres or 50 square miles). The country is known for its transition from third world to first world in a single generation, under the leadership of its founding father Lee Kuan Yew. It is a global hub for finance, trade, transport education, healthcare, human capital, innovation, logistics, manufacturing, technology, and tourism. The city ranks highly in numerous international rankings and has been recognized as the most "technology-ready" nation (WEF), top International-meetings city (UIA), city with "best investment potential" (BERI), world's smartest city, world's safest country, third-most competitive country, third-largest foreign exchange market, third-largest financial centre, third-largest oil refining and trading centre, fourth-healthiest country, fifth-most innovative country, and the second-busiest container port.
