## About Hong Kong

Hong Kong is a Special Administrative Region of China situated on the southeast coast of China, occupying an area of 426 square miles (1,104 square kilometres) and boasts of being the world's leading financial, banking and trading centres. It was born when China's Qing dynasty government was defeated in the First Opium War in 1842. Under the principle of 'One Country, Two Systems', Hong Kong became a Special Administrative Region of the People's Republic of China on 1 July 1997. Hong Kong as we know it is made up of four parts: Hong Kong Island, Kowloon Peninsula, the New Territories and the Outlying Islands. The prosperous island is the focal point of economy, legislative issues, amusement and shopping with its southern part noted for ocean shores and coves. The best time to visit Hong Kong is from October to December, when the weather is sunny, cool, and pleasant. The New Territories and Outlying Islands are ideal places to experience a peaceful and natural holiday. Some of the major attractions of Hong Kong include Victoria Peak, Victoria Harbour & Symphony of Lights, Disneyland, Tai O Fishing Village, Ocean Park, Ngong Ping 360 and many more. In 2014, Hong Kong was the eleventh most popular destination for international tourists among countries and territories worldwide. It was viewed as the world's best goal for relaxation guests and gatherings in 2012. Hong Kong was voted the "Best FIT Destination of the Year" in the China Travel and Meeting Industry Awards 2012 sorted out by travel magazine Travel Weekly. It was additionally named the "Best City for MICE Events" in the 2012 Industry Awards composed by CEI Asia Pacific magazine.
