**NOTE:** Program Schedule is subject to change with final allotment of the speaker slots.
### Major Scientific Sessions

- Medical Microbiology
- Microbial Vaccines
- Microbial Drugs
- Microbial Chemistry
- Immunology of Diseases
- Diagnostic Microbiology
- Types of Infectious Diseases
- Infectious Diseases in Plants
- Infectious Diseases in Animals
- Infectious diseases & Food microbiology
- Diagnostic Techniques
- Immunodiagnosis of Infectious Diseases
- Advanced Therapies In Diagnostic Microbiology

### Best Poster Award

- You will be given about 5-7 minutes to present your poster including questions and answers.
- Judges may pose questions during the evaluation of the poster.
- Judges will even evaluate the student’s enthusiasm towards their study, interest and knowledge in the area of their research.
- The winners will be announced at the closing ceremony of the conference. The decision of the winner will be withdrawn if the winner/winners is/are not present at the time of announcement.
- Apart from the judging time you may also be present at the poster to share your research with interested delegates.

### Young Researchers Forum

- Present your research through oral presentations.
- Learn about career development and the latest research tools and technologies in your field.
- This forum will give pertinent and timely information to those who conduct research and those who use and benefit from research.
- Develop a foundation for collaboration among young researchers.
- The forum will provide an opportunity for collegial interaction with other young investigators and established senior investigators across the globe.
- Interact and share ideas with both peers and mentors.

### Conference Venue

**Dallas, USA**
Past Conference Glimpses
Dallas is located on the rolling prairies of northeast Texas, where the three branches of the Trinity River merge. It is the second-largest city in Texas and the eighth-largest city in the United States. The city’s prominence arose from its historical importance as a center for the oil and cotton industries, and its position along numerous railroad lines. Dallas developed as a strong industrial and financial center, and a major inland port, due to the convergence of major railroad lines, interstate highways, and the construction of Dallas/Fort Worth International Airport, one of the largest and busiest airports in the world. The city was rated as a “beta plus” world city by the Globalization and World Cities Study Group & Network, and was 14th in world rankings of GDP by the Organization for Economic Co-operation and Development. Dallas, like many other cities, was founded along a river. The city was founded at the location of a “white rock crossing” of the Trinity River. Dallas has a large community college enrolment. Dallas and its nearby communities are home to 45 colleges and universities, which attract more than 250,000 students to the area each year.

Dallas, a modern metropolis in north Texas, is a commercial and cultural hub of the region. The Sixth Floor Museum, the John F. Kennedy Memorial, and the Conspiracy Museum all explore the life of President John F. Kennedy and his eventual assassination in Dallas. The Sixth Floor Museum is in the former Texas School Book Depository, the site from where Lee Harvey Oswald shot President Kennedy. The city is probably best known for its cotton products. Dallas is becoming a high-tech centre, and the Infomart complex has offices and showrooms for many high-tech information companies.
Plan your Trip to Dallas

Dallas Museum of Arts
Dallas World Aquarium
Dallas Zoo
Frontiers of Flight Museum
Nasher Sculpture Center
