As the premier event, we have developed a program with your interests in mind. We have not only increased the number of opportunities for you to network with colleagues from across the world but also introduced more focused sessions that will feature cutting edge presentations, special panel discussions, and livelier interaction with Doctors, Scientists and experts.

Life is full of give and take. Make it count in your professional life. Attend the Digestive Diseases 2018 Conference to network with your peers, exchange expertise and experiences, and arm yourself with the latest information to take your department to the next level.

We look forward to personally welcoming you to San Francisco, USA

Sincerely,

Digestive Diseases Congress 2018
Organizing Committee
Digestive Diseases Congress 2018 Conference website is attracting 25000+ online visitors ranging from Researchers, Academicians and Business professionals, who are working in this field. This unique opportunity that we extend to our speakers and attendees is not being offered by any other conference organizers. Through this the abstracts and research profiles of our speakers and organizing committee members getting global visibility which is an additional feature that you would be receiving in addition to networking opportunities before, during and after the conference.

About hosting organization
Conference Series is the world’s leading specialist in organizing Academic, Scientific and Business conferences, meetings, symposiums and exhibitions in different verticals and horizontals like Medical, Pharma, Engineering, Science, Technology and Business to promote scientific research. Every year we host more than 5000+ global events inclusive of 3000+ Conferences 1000+ Symposia 1000+ Workshops in USA, Europe, Middle East and Asia All the conference proceedings are published in related International Journals with DOI Provided by CrossRef

How Conference Series Conferences differs from others?
- 3000+ Conferences across the globe in 70+ countries Annually
- Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
- Participation by Stalwarts from various international societies
- Internationally renowned speakers and scientists representation
- Career guidance for early career researchers and students
- Interesting scientific deliberations and discussions
- Perfect platform for Global Networking

WE ARE GLOBAL
125+ Countries Annual Participation
ABOUT CONFERENCE

Purpose

4th International Conference on Digestive & Metabolic Diseases 2018 is an arena for interdisciplinary exchange among professionals in the fields of Digestive & Metabolic Diseases.

Goals

The conference program emphasizes evidence-based practice, educational innovation, practical application, and peer to peer networking and collaboration. The goals of the conference is to provide a transformative professional development experience through

- Bringing together the world’s scientific experts to catalyze and advance scientific knowledge about Digestive & Metabolic Diseases, present the most recent research findings, promote and enhance scientific collaborations around the world.
- Bringing together community leaders, scientists, doctors, principle investigators, industry executives and policy leaders to promote and enhance programmatic collaborations to more effectively address regional, national and local responses to Elderly Population around the world and overcome barriers that limit access to care and services.

Objectives

After participating in this meeting, attendees should be able to

- Discuss emerging issues in various Digestive Diseases
- Discuss and apply recent research findings related to Digestive Diseases
- Discuss the discovery and development of new Treatments and effective Diagnostic techniques for different diseases and disorders

Why attend Digestive Diseases 2018?

- Meet Experts & Influencers Face to Face Educational opportunities
- Inspiration Networking with peers
- Your Profile & Position yourself as an expert
- Encounter new vendors and suppliers
- Opportunity to travel & discover different and new places
- New Tips & Tactics

**About Conference**

**Who Should Attend and Who You’ll Meet**

*Directors/Senior Directors/Executive Directors and Vice Presidents/Senior Vice Presidents/Executive Vice Presidents and Heads/Leaders/Partners of*

- CROs and CMOs
- Clinical Research Sites
- Pharma/Biotech and Medical Device industries
- Hospitals, Associations

Medical Directors, Principal Investigators, Methodologists, and other clinical research professionals along with

*Clinical/Pharmaceutical and biotech industry professionals with responsibilities in:*

- Clinical Research & Development
- Clinical Design/ Protocol Design/ Clinical Strategy
- Global Clinical Operations/ Clinical Outsourcing
- Biostatistics/Data management
- Patient Recruitment/Enrollment
- Clinical Trial Management/Clinical Trial Supplies
- Regulatory Affairs

*Academicians:*

- University Directors, Senior Professors/Assistant Professors/Associate Professors, Research Scholars Young Researchers and Students who are working related to clinical and medical research fields

**Benefits of attending Digestive Diseases Congress 2018**

- Present your researches through Oral/Poster presentations
- Certificate Accreditation by the International Organizing Committee Members (IOCM) of the conference
- Abstracts will be published in conference souvenirs & Related International Journal with DOI number
- Speaker and Abstract pages created in Google on your name and title of your talk/presentation would get worldwide acknowledgment to your profile and research
- Live Streaming of your presentation through our websites and YouTube (up on your interest)
- Based on your research expertise you can conduct a workshop/symposium
- Opportunity to launch your Book/Chapter/Research work at the event
- B2B meetings/Interactive sessions/Scientific Networking with Experts in the field
- Opportunity to Exhibit your products/services and access to wide range of exhibitions from all over the world
- Learn about career development and the latest research tools and technologies in your field
- Interact and share ideas with both peers and mentors
- Young Researchers and Best Poster presentations awards and many more...
**About Conference**

**Major Scientific Sessions/Tracks**
- Basic Science
- Biliary Tract Diseases
- Colorectal Diseases
- Functional GI and Motility Disorders
- Inflammatory Bowel Diseases
- Liver Diseases and Transplantation
- Microbiome in Gastrointestinal and Liver Diseases
- Obesity and Diabetes
- Pancreatic Diseases
- Pediatric GI and Nutrition
- Stomach and Small Bowel Disorders
- Gastrointestinal Oncology
- Technologies and Procedural Innovations

**Supporting Journals**
- Journal of Gastrointestinal & Digestive System
- Journal of General Practice
- International Journal of Digestive Diseases
- Archives of Digestive Disorders

Digestive Diseases Congress 2018

**200+ Participation**

**30+ Plenary Lectures**

**10+ Exhibitions**

**10 Keynote Lectures**

**15+ Interactive Sessions**

**Digestive Diseases Congress 2018**

October 29-30, 2018
San Francisco, USA

World Health Organization (WHO) Report:

In 2001, 20.3 million people had digestive disease which 6.3 million were children under age 18 years. Over recent years, the number of people suffering from these diseases has increased at an alarming rate. Since the 1980’s the incidence of digestive disease has more than doubled and the American Dietetic Association believes it will double again by the year 2020.

Liver diseases have no geographical, gender or socioeconomic boundaries. It is an important cause of global mortality and in five of the six WHO regions it is the leading causes of mortality. Of the estimated 16.6 million deaths attributed to Liver diseases worldwide, 80% is in developing countries. It is estimated that about 180 million people in the world suffer from diabetes today and more than two-thirds of them live in developing countries. The largest number of persons with diabetes lives in India (32 million), China (21 million) and USA (18 million). The vast majority of persons with diabetes have Type 2 diabetes (90-95%). In developed countries about one-third of the persons with diabetes are unaware that they have diabetes, while the proportion of undiagnosed diabetes is even higher in developing countries. This is because classical symptoms of diabetes, like excessive thirst and involuntary weight loss, are often absent in Type 2 diabetes.
