Program Announcement

Venue

Hong Kong

Important Dates

Abstract submission open: September 30, 2019

Registration open: October 2, 2019

Early bird date : November 29, 2018

On spot Registration: April 15, 2019

Accommodation

A large number of rooms have been reserved. Discounted room rates for Drug Formulation Congress 2019 participants are proposed. Only reservations made through the Conference will benefit these rates. The Congress Center can be easily reached by public transportation.

Exhibition and Sponsorship

An Exhibition will be held concurrently with the Conference. The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of new findings in the fields of Drug Formulation.

About Hong Kong

As a Special Administrative Region of China, Hong Kong is situated on the southeast coast of China. The city is one of the world's leading financial, banking and trading centres. It is made up of four parts: Hong Kong Island, Kowloon Peninsula, the New Territories and the Outlying Islands. The prosperous island is the centre of economy, politics, entertainment and shopping with its southern part noted for sea shores and bays. Kowloon is another flourishing part where Tsim Sha Tsui, Yau Ma Tei and Mong Kok are the most popular destinations. The New Territories and Outlying Islands are ideal places to experience a peaceful and natural holiday.

Hong Kong serves as an important transport hub between international cities and regions with major cities in Mainland China. The well-developed urban transport system can be used to most places in the city, making traveling convenient and cheap. Different cultures bring food all over the world to this city, so it is a paradise for foodies. After a busy day of traveling, it is highly recommended to appreciate the colourful nightlife. An open city with a wonderful natural harbour, it is a place where various cultures blend harmoniously. British culture can be found everywhere as a result of former colonial rule, while it also preserves traditional customs and the core values of Confucianism that have faded in Mainland China. It is the backdrop for modern movies and pop music that enjoy worldwide recognition.

Macau is an autonomous region on the western side of the Pearl River estuary in East Asia. Macau is bordered by the city of Zhuhai in Mainland China to the north and the Pearl River Delta to the east and south. Hong Kong lies about 64 kilo meters (40 mi) to its east across the Delta With a population of 650,900 living in an area of 30.5 km² (11.8 square mi), it is the most densely populated region in the world. A former Portuguese colony, it was returned to Chinese sovereignty on 20 December 1999.
