6<sup>th</sup> International Conference and Exhibition on

# **Nanotechnology, Artificial Intelligence and IOT**

October 12-13, 2020 | Sydney, Australia

*Theme: “Exploring New Advancement in  
Nanotechnology and Artificial Intelligence”*

<https://electronicengineering.enggconferences.com/>

# Invitation...

Dear Colleagues,

**6<sup>th</sup> International Conference and Exhibition on Nanotechnology, Artificial Intelligence and IOT (Electronics 2020)** extends its welcome to you during **October 12-13, 2020** at **Sydney, Australia**. with a theme "**Exploring New Advancement in Nanotechnology and Artificial Intelligence**". Conference Series LLC Ltd Organises 1000+ Conferences Every Year across USA, Europe & Asia with support from 1000 more scientific societies and Publishes 700+ Open access journals which contains over 50000 eminent personalities, reputed scientists as editorial board members.

The **Electronics 2020** intends to gather all the people across the globe like students, lecturers, Assistant Professors, Professors, Directors, Chairman, Chancellor, Scientists, Doctors, Managing Directors, Chief Executive Officers, Presidents and Noble Laureates and base a platform for them to share their experience, knowledge and research work, recent advancements in the field of Electronics.

## Why to Attend???

Electronics 2020 goal is to provide participants continuing dental education, propose novel research techniques, improve the skills and expertise in the areas of Dental Health, Oral Care, Public Health Dentistry, Endodontics and Orthodontics with its well-designed scientific program and quality lectures. It also paves way for making a good relationship with the dental associates through the B2B meetings and develop better business opportunities.

# Conference Sessions:

All honorable authors, researchers, scientists and students are encouraged to contribute and help the shape of the conference through submissions of their posters & research abstracts. Also, high quality research contributions describing original and unpublished of conceptual, constructive, experimental or theoretical work in all areas of Cardiology and Healthcare are warmly invited for presentations at the conference. The conference memorial contributions of abstracts and posters that address themes & future aspects of the conference related sessions.

- Nano science and Technology
- Nano Electronics
- Nano Materials Synthesis and Characterisation
- Advanced Nanomaterials
- Artificial Intelligence & Machine Learning
- Artificial Intelligence in Block Chain Technology
- Block chain and Internet of Things
- Artificial Intelligence for Business
- Neural Networks
- Artificial Intelligence in Healthcare

## Electronics 2020

- Opportunity to attend the presentations delivered by eminent scientists and business professionals from all over the world.
- Selected contributions will be published in following reputed high impact factor Journals.
  - ☞ Journal of Nano Research & Applications
  - ☞ Journal of Biosensors & Bioelectronics
  - ☞ Journal of Nanoscience's: Current Research

# Program at Glance

October 12, 2020

Time	Session
------	---------

08:30 - 09:30	Registrations
---------------	---------------

09:30 - 11:30	Keynote Forums
---------------	----------------

Group Photo

11:30 - 11:45	Network & Refreshment Break
---------------	-----------------------------

11:45 - 13:00	Rational drug design approach   Biopharmaceutics   Reformulation studies   Pharmaceutical materials & formulations
---------------	--

13:00 - 13:45	Lunch Break
---------------	-------------

13:45 - 16:00	Ligand-based drug desing   Genetics in drug development   Drug target   Computer aided drug design(CADD)
---------------	--

16:00 - 16:15	Network & Refreshment Break
---------------	-----------------------------

16:15 - 18:00	Novel nanotechnology applications   Biomedical nanotechnology   Nano particles and Nano gels
---------------	--

Day Concludes

October 13, 2020

Time	Session
------	---------

08:30 - 09:30	Registrations
---------------	---------------

09:30 - 10:30	Keynote Forums
---------------	----------------

10:30 - 11:30	Introduction of mordern engineering process   New measurement and control technologies   Pharmaceutical market
---------------	--

11:30 - 11:45	Network & Refreshment Break
---------------	-----------------------------

11:45 - 13:00	Matrix diffusion types   Future aspects of Nano medicine   Nano medicine for CNS   Bioanalytical techniques   Spectroscopic techniques
---------------	--

13:00 - 13:45	Lunch Break
---------------	-------------

13:45 - 16:00	Rapid screening methods   Environmental monitoring   Product management   Good manufacturing practices   Industrial pharmaceutics
---------------	---

16:00 - 16: 15	Network & Refreshment Break
----------------	-----------------------------

16:15 - 18:00	Poster Presentations
---------------	----------------------

Day Concludes

Award Ceremony

Conferece Concludes

# City Attractions

# Venue :

# Sydney, Australia

Vietnam, a country nestled in the southern part of Eastern Asia is known for its peaceful and serene environ. Once haunted by the bloodshed and strife of Vietnam War, the streets of the country in its current avatar buzz with youthful energy. Tall and looming skyscrapers, quaint floating markets, mopeds zooming through the roads, and paddy fields add even more to its overall charms. Oozing overwhelming natural beauty and rich heritage, the country takes you on a journey through its ancient architecture and its vibrant culture.

Spring and autumn is the best time to visit Vietnam since these months bring in the lowest rainfall across the country. The conditions are ideal for trekking in the mountains, swimming at the beach and cycling in the countryside. However, Vietnam is a year-round destination, and its weather can be split into tropical and temperate zones. While South Vietnam doesn't see any drastic changes in the weather, North Vietnam experiences distinct seasonal variations.

The best time to visit North Vietnam would be either from March to May or from September to November to experience the clear blue skies and pleasant temperatures. The central provinces of Vietnam are great to visit in the first half of the year (up till April), when they flaunt sunny, beach weather. December to late April or early May is the best time to explore South Vietnam. This coincides with the dry season, and one won't have to worry about the rainfall and its related complications.
