City Attractions

Venue

Auckland is around 2 large harbours and a major city in the north of New Zealand's North Island. In the center, of the iconic Sky Tower, It has views of Viaduct Harbour, which is full of super yachts and lined with bars and along cafes. Auckland is largest city and main transport hub.

At the Auckland Domain, the city's oldest park is around an extinct volcano and home to the formal Winter gardens. Near to Downtown, Mission Bay Beach has a seaside promenade. Auckland is situated between two harbors and is often referred to as the "City of Sails" due to the abundance of water sports and access to beaches and the sea. Actual meaning of Auckland is "Tāmaki with a hundred lovers", in reference to the desirability of its fertile land at the hub of waterways in all directions.
