Invitation...

Dear Colleagues,

Conference Series LLC welcomes you to attend 9th International Conference on Endocrinology and Diabetes Summit held during September 13-14, 2017 at Singapore with the theme “Endocrinology & Diabetes: Research Evaluation & Developmental Changes”

We cordially invite all the participants who are interested in sharing their knowledge and research in the area of Endocrinology Summit 2017.

Endocrinology Summit 2017 anticipates more than 200 participants around the globe with thought provoking Keynote lectures; Oral Presentations and Poster Presentations. The attending delegates include Editorial Board Members of related International Journals. This is an excellent opportunity for the delegates from Universities and Institutes to interact with the world class Scientists. The intending participants can confirm their participation by registering for the conference along with their colleagues. Avail the delegate early bird offer. The main theme of the conference is “Endocrinology & Diabetes: Research Evaluation & Developmental Changes”.

Endocrinology Summit 2017

Opportunity to attend the presentations delivered by eminent scientists from all over the world

• Selected contributions will be published in following Supporting International Journals
  - Journal of Endocrinology & Diabetes: Open Access
  - Journal of Endocrinology & Metabolic Syndrome : Open Access
  - Journal of Diabetes and Metabolism
Conference Sessions:

All honorable authors, researchers, scientists and students are encouraged to contribute and help shape the conference through submissions of their abstracts. High quality research contributions describing original and unpublished conceptual, constructive, experimental or theoretical work in all areas of Endocrinology & Diabetes are warmly invited for presentations at the conference.

Conference related sessions:

- Endocrinology Research and Development
- Diabetes and its Treatment
- Endocrine Tumours
- Endocrine Cancer
- Pregnancy, Reproduction and Infertility
- Obesity & Metabolism
- Molecular and Cellular endocrinology
- Genomic endocrinology
- Cardiovascular Complications
- Diseases & Disorders
- Endocrine Glands and their Hormones
- Nutrition Research
- Clinical Studies & Case Reports
- Neuropathy
- Surgery and Care
- Transplantation
- Management & Prevention
- In Children's, Teens & Adolescents
- Research & Advanced Technologies
- Challenges and Improvements
- Alternative therapies & Complications
Young Researchers can also participate in this elite congress

Eligibility

Young Researchers can also participate in this elite congress Eligibility

Young researcher is a student or learner who is interested to present their views and technical skills in Endocrinology/Diabetes and other related fields which suits the theme of the congress.

Participants should be below the age of 33 years and not to possess any senior position/ faculty in the field.

Submission

Each individual participant is allowed to submit only one paper. All submissions must be in English

The chosen topic must fit into sessions of the congress. Showcase your research through oral/poster presentations
Title: Childhood maltreatment is an independent risk factor for type 2 diabetes mellitus
Li Li, University of Alabama School of Medicine, USA

Title: Therapeutic effects of water-soluble Sparganium stoloniferum extract on hyperglucagonemia in diabetes
Yoon Hee Cho, Yonsei University, South Korea

Title: Association between the time of length since smoking cessation and insulin resistance in asymptomatic Korean male ex-smokers
Ko-Woon Kim, St. Vincent’s Hospital of the Catholic University, South Korea

Title: Comparison of anxiolytic effects of the homeopathic complex Vita-C 15 with Aconitum Napellus versus diazepam in the acutely stressed C57BL6 Mice
Siaw Min Liewa, Cyberjaya University College of Medical Sciences, Malaysia

Title: Targeting Parents and children at schools in the treatment of childhood obesity: Short-term results
Hamid Yahya Hussein, Dubai Health Authority, UAE

Title: Relation between serum leptin concentration and insulin resistance syndrome in patients with type 2 diabetes mellitus
Tamer H Shebl, Al Azhar University, Egypt

Title: Treatment of HFD induced diabetes mellitus by metformin and natural products in rats
Gamal Mostafa Mahmoud, Alexandria University, Egypt

Title: The knowledge of use of insulin among diabetic patients (type II) of rural and urban backgrounds
Christy Vijay, St John’s Medical College, India

Title: Diabetes reversal by plant-based diet
Biswaop Roy Chowdhury, Dynamic Memory Pvt. Ltd, India

Title: Concept of adult immunization and guidelines for vaccination in diabetes
Abdul Faheem Khan, Sanofi India Ltd, India

Title: Evaluation of free radical scavenging capacity of improved hybrids of thiosemicarbazone-triazole and their influence on glucose metabolism: Relevance to the management of diabetes mellitus.
Ayeleso AO, North West University, South Africa

Title: Rediction model of mortality among patients with diabetic ketoacidosis
Kriz – Ann R Hernandez, Jose R Reyes Memorial Medical Center, Philippines

Title: To study association of high sensitivity C-reactive protein with diabetic retinopathy
Indira Kanjani, India

Title: Assessment of thyroid functions test among hyperprolactinemic sudanese infertile females
Abdalla E Ali, Alzaiem Alazhari University, Sudan
Title: Hepatotoxicity due to Teucrium polium L duration postpartum: A case report
Tayyebeh aliabadi, Islamic Azad University, Iran

Title: Procrastination as a key factor in diabetes screening: A qualitative study in women with recent gestational diabetes
S. Fatemeh Vasegh Rahimparvar, School of Tehran University, Iran

Title: Impact of domestic waste exposure on health and nutritional status of children aged 5-7 years
Rabbia Awan, Kinnaird College for Women, Pakistan

Title: Diabetes Prevention in Pakistan: Reality, Challenges and Outcome
Asma Ahmed, Aga Khan University Hospital, Pakistan

Title: Effect of simulated intermittent altitude on the metabolic index's and hematological parameters' in streptozotocin induced diabetic rats
Mahdi Faramoushi, Tabriz University, Iran

Title: Association of the ABCA1 gene polymorphisms with lipid profiles and type 2 diabetes mellitus in iraqi population
Abbas Sabbar Dakhil, Al-Qadisiyah, Iraq

Poster Presentations

Title: Association of age at menarche with metabolic syndrome and components of metabolic syndrome in premenopausal women, Korea national health and nutrition examination survey VI
Yoon Jeong Cho, Catholic university of Daegu school of medicine, South Korea

Title: Sleeve sastrectomy and PPI: Underestimation of interactions?
Ahmed Abrahim, Medical University of Vienna, Austria

Title: Interactions between calcium metabolism and anti-reflux medication after sleeve gastrectomy
Christoph Sperker, Medical university of Vienna, Austria

Title: Vascular plug embolization therapy for an unusual pelvic arteriovenous malformation in a young adult
Keyur Vora, CARE Institute of Medical Sciences, India

Title: HbA1C, Lipid Profile and Magnesium as a biomarker for early diagnosing Type II Diabetes and its associated complications in the rural region of Vidarbha, Maharashtra, India
Sarmistha Sarkar, Jawaharlal Nehru Medical College, India

Title: 45,X / 46,X,i (X) (q10) Isochromosome Xq in Mosaic Turner Syndrome: A case report
Mark Ramon Victor B. Llanes, Southern Philippines Medical Center, Philippines

Title: Cannabinoids, and the diterpenoid, Marrubiin, reduce inflammation in pre- and differentiated 3T3-L1 cells, under hyperglycaemic conditions.
Carri-Ann Bloom, Nelson Mandela Metropolitan University, South Africa
Only Registration Includes

1. Access to all Sessions
2. Handbook & Conference Kit
3. Certificate Accreditation from the Organizing Committee
4. Abstracts will be published in the conference souvenir and respective international journal
5. Each registrant will get 50% abatement on manuscript publication fees
6. Ask the Expert Forums (One to One Pre-Scheduled meeting on interest and availability)
7. Access to the attendees email list (post conference)
8. 20% abatement on the registration fees for the next annual conference
9. 10% abatement on the Conference Series LLC conferences membership
10. 2 Coffee breaks (Refreshments and snacks) during the conference
11. Lunch during the conference
12. Flash drive with Conference Souvenir and Final Program (e-copies)
13. Wi-Fi

Package A: Above 13 features including the following

14. Breakfast during the conference
15. 2 Nights accommodation of deluxe single/double room at Holiday Inn Singapore Atrium

Package B: Above 15 features including the following...

16. 1 Night extra accommodation (total 3 Nights)
About The City

Singapore, officially the Republic of Singapore, is a sovereign city-state and island country in Southeast Asia. It lies off the southern tip of the Malay Peninsula and is 137 kilometres (85 mi) north of the equator. The country’s territory consists of the lozenge-shaped main island, commonly referred to as Singapore Island in English and Pulau Ujong in Malay, and more than 60 significantly smaller islets. Singapore is separated from Peninsular Malaysia by the Straits of Johor to the north and from Indonesia’s Riau Islands by the Singapore Strait to the south. The country is highly urbanized, and little of the original vegetation remains. The country's territory has consistently expanded through land reclamation.

Singapore’s progress over the past three decades has been remarkable, yet the island has not been overwhelmed by development. Visitors will discover a wealth of historical treasures from the past, in the beauty of older buildings, values and traditions that have survived in the face of profound social and geographical change.

Singapore is both an island and a country, but perhaps its best description is that of city-state. Like the great city-states of the past, it offers civilization and order in the highest degree. Its combination of Western-style development and Eastern-style calm seems to present the best of both hemispheres: It's a modern metropolis where you feel safe walking the streets and it's an Asian business center that's a model of efficiency. Singapore is also a multicultural city, and close to one-quarter of its population are expatriates or foreign workers from all over the world. Known for its desire to become the technology hub of Asia, Singapore is the most wired country in the region.

Though physically small, Singapore is an economic giant. It has been Southeast Asia’s most modern city for over a century. The city blends Malay, Chinese, Arab, Indian and English cultures and religions. Its unique ethnic tapestry affords visitors a wide array of sightseeing and culinary opportunities from which to choose. A full calendar of traditional festivals and holidays celebrated throughout the year adds to its cultural appeal. In addition, Singapore offers luxury hotels, delectable cuisine and great shopping! The island nation of the Republic of Singapore lies one degree north of the Equator in Southern Asia. The country includes the island of Singapore and 58 or so smaller islands. Because of its efficient and determined government, Singapore has become a flourishing country that excels in trade and tourism and is a model to developing nations. The capital city, also called Singapore, covers about a third of the area of the main island.
