*Invitation*

Dear Colleagues,

Conference Series llc LTD is delighted to welcome you to Tokyo, Japan for the prestigious event 4th International Conference on Enzymology & Molecular Biology. Enzymology Congress 2019 will focus on “Novel advancements in Enzymology & Molecular Biology”. We are confident that you will enjoy the Scientific Program of this upcoming Conference.

We look forward to see you at Tokyo, Japan.

With Regards,

**Enzymology Congress 2019**

Operating Committee, Conference Series llc LTD. Conferences

### Editorial Board Members of Supporting Journals:

**Narasimham L Parinadi**

Ohio State University College of  
Medicine, USA

**Cheorl-Ho Kim**

Sungkyunkwan University,  
Republic of Korea

**Michael H. Davidson, PhD**

The University of Chicago  
USA

**Sriram Neelamegham,**

State University of New York  
USA

**Andrzej Kloczkowski, PhD**

The Ohio State University, USA

**Igor Polikarpov**

University of Sao Paulo, Brazil

**Xinhua Ji**

The University of Oklahoma,  
USA

**Eugenio Vilanova**

University Miguel Hernandez,  
Spain

**Nikolaos Labrou**

Agricultural University of Athens  
Greece

## Program Announcement

### Venue

Tokyo, Japan

### Important Dates

Abstract submission opens: July 20, 2018

Registration opens: July 20, 2018

Early bird registration: December 20, 2018

On spot registration: May 10, 2019

### Accommodation

A large number of rooms have been reserved. Discounted room rates for Enzymology Congress 2019 participants are proposed. Only reservations made through the Conference will benefit these rates. The Congress Center can be easily reached by public transportation.

### Exhibition and Sponsorship

An Exhibition will be held concurrently with the Conference. The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of new findings in the fields of Dermatology Congress.

### About Tokyo

Tokyo officially Tokyo Metropolis, is the capital city of Japan and one of its 47 prefectures. The Greater Tokyo Area is the most populous metropolitan area in the world. Tokyo is a fast-paced city with an almost manic energy. The city is constantly changing, as the local obsession with newness makes fashions fade fast and the latest technologies quickly obsolete. However, the hyper-urban cosmopolis does have a more traditional side that, although not immediately evident, is still there to charm travelers with its shrines, public baths and leafy parks. The city is also as important historically as it is in the pop-culture world. The imperial family is a source of pride and an institution, and residents mix traditional societal mores with cutting-edge inventions, art, fashion and music. The Japanese capital and its culture are taking the world by storm, but it still stays faithful to its origins..
