Proposals are invited for organizing Symposia/Workshops at OMICS Group Conferences or OMICS Group will sponsor small events at your universities in related areas under the title of your own. These proposals can be sent to respective conference mail ids or to symposia@omicsonline.org.
Day 1 August 21, 2013

Openings Ceremony

Keynote Forum

09:25-09:30 Introduction
Mukesh Verma
National Institutes of Health (NCI/NIH), USA

09:30-09:55 Mukesh Verma
National Institutes of Health (NCI/NIH), USA

09:55-10:20 Kenneth Blum
University of Florida, USA

10:20-10:45 Gill Atzmon
Albert Einstein College of Medicine, USA

Coffee Break 10:45-11:05 @ Atrium

11:05-11:30 Bruce M Rothschild
University of Kansas, USA

11:30-11:55 Diana Anderson
University of Bradford, UK

Symposia:
Funding opportunities at the National Cancer Institute in Cancer Epidemiology

11:55-13:00 Mukesh Verma, National Institutes of Health (NIH), USA

Track 1 Molecular Epidemiology
Track 2 Epi-Genetics and Chromatin
Track 3 Infectious Disease Epidemiology

Session Chair: Kenneth Blum, University of Florida, USA
Session Co-Chair: Jisook Moon, CHA University School of Medicine, South Korea

Session Introduction

13:45-14:05 Role of hospitalists in breast cancer prevention: Perspective of hospitalized women about inpatient screening mammography
Waseem Khaliq, John Hopkin’s School of Medicine, USA

14:05-14:25 Core genome and lineage specific expansion in malaria parasites
Yufeng Wang, University of Texas at San Antonio, USA

14:25-14:45 Epidemiology of Acinetobacter baumannii containing PER-like extended spectrum beta lactamases in Kuwait
Leila Vaili, Kuwait University, Kuwait

14:45-15:05 Characterization of human placenta amnion derived mesenchymal stem cells (hpAMSCs) and stem cell aging in a hypoxic culture condition
Jisook Moon, CHA University School of Medicine, South Korea

Coffee Break 15:05-15:25 @ Atrium

15:25-15:45 Gene expression analysis in Mayak workers with occupational prolonged exposure
Michel Abend, Bundeswehr Institute of Radiobiology, Germany

15:45-16:05 Risk factors for American tegumentary leishmaniasis transmission in equator, South America
Gulnara Patricia Borja Cabrera, Central University of Ecuador, Ecuador

16:05-16:25 Reduced glutathione: Importance of specimen collection
Vishal Saxena, Dr. D.Y. Patil Medical College, India

16:25-16:45 Hormone replacement therapy increases serum levels of nitric oxide and products
Shilpika Saxena, AFMC, India

16:45-17:05 Clinical epidemiological characterization in the cases of dengue of amatepec hospital on minor less than 10 years old from jan-oct 2011
Gustavo Zaldaña Melendez, Independent Resercher, El Salvador

Panel Discussion

17:40-18:40 Cocktails Sponsored by Journal of Epidemiology

Day 2 August 22, 2013

International C
DNA damage/repair signaling and breast cancer risk
Jennifer Hu, University of Miami, USA

Urinary kidney injury molecule-1 and the risk of cardiovascular mortality in elderly men
Axel C Carlsson, Karolinska Institutet, Sweden

Cancer epigenetic and its applications in cancer screening, risk assessment and treatment
Mukesh Verma, National Cancer Institute, National Institutes of Health, USA

Is increased fish intake related with breast cancer risk: A matched case control study among women in Karachi, Pakistan
Uzma Shamsi, Aga Khan University Hospital, Pakistan

Coffee Break 10:30-11:10 @ Atrium

Tea phenols in bulk and nanoparticle form modify DNA damage in human lymphocytes from colon cancer patients and healthy individuals treated in vitro with platinum based-chemotherapeutic drugs
Diana Anderson, University of Bradford, UK

Hypertension in the community at the National University of Santiago del Estero, Argentina
Roberto Antonio Flores, National University of Santiago del Estero, Argentina

Genetic characterization of Brucella melitensis and Brucella abortus geographical clusters in Italy
Fabrizio De Massis, National Reference Centre for Veterinary Epidemiology, Italy

Non-fatal injuries resulting in activity limitations in Estonia: Risk factors and association with the incidence of chronic conditions
Katre Altmets, Tartu University, Estonia

Much ado about nothing: The character of holes in bone
Bruce M Rothschild, University of Kansas, USA

Lunch Break 12:30-13:35 @ Atrium

Heart disease in South Asian immigrants- is HDL cholesterol protective
Sunita Dodani, University of Florida College of Medicine, USA

Association of SHTT gene polymorphism with response to treatment and survival in cancer: Can it be a prognostic indicator
Noha Awad, University of Alexandria, Egypt

Familial aggregation of hypercholesterolemia in Pakistani population
Fauzia Imtiaz, Dow University of Health Sciences, Pakistan

Discovering the pathogens of central nervous system infection in Nepal
Radheshyam KC, Oxford University Clinical Research Unit, Patan Hospital, Nepal

Coffee Break 15:35-15:55 @ Atrium

Towards a broader spectrum primatology: Integrating epidemiological and experimental approaches
Joseph Erwin, George Washington University, USA

SYMPOSIA:
International Symposia on Molecular Genomic Methods for Microbial Identification in the Public Health sector
Scott Jackson, United States Food & Drug Administration (US FDA), USA

Award Ceremony
Lunch Break 12:30-13:30 @ Atrium
