Our Programme

Our programme aims to bridge the gap between basic and translational science, with an emphasis on large-scale approaches and innovative technologies in the fields of Epigenetics, genetics, molecular biology, genetic diseases, epigenetics therapy, and behavioural epigenetics. We foster discussion and debate of the innovations by maximizing interactions, collaborations and networking opportunities for researchers and clinicians from academia, industry, and healthcare professionals.

5+ Keynote Sessions

10+ Scientific Sessions

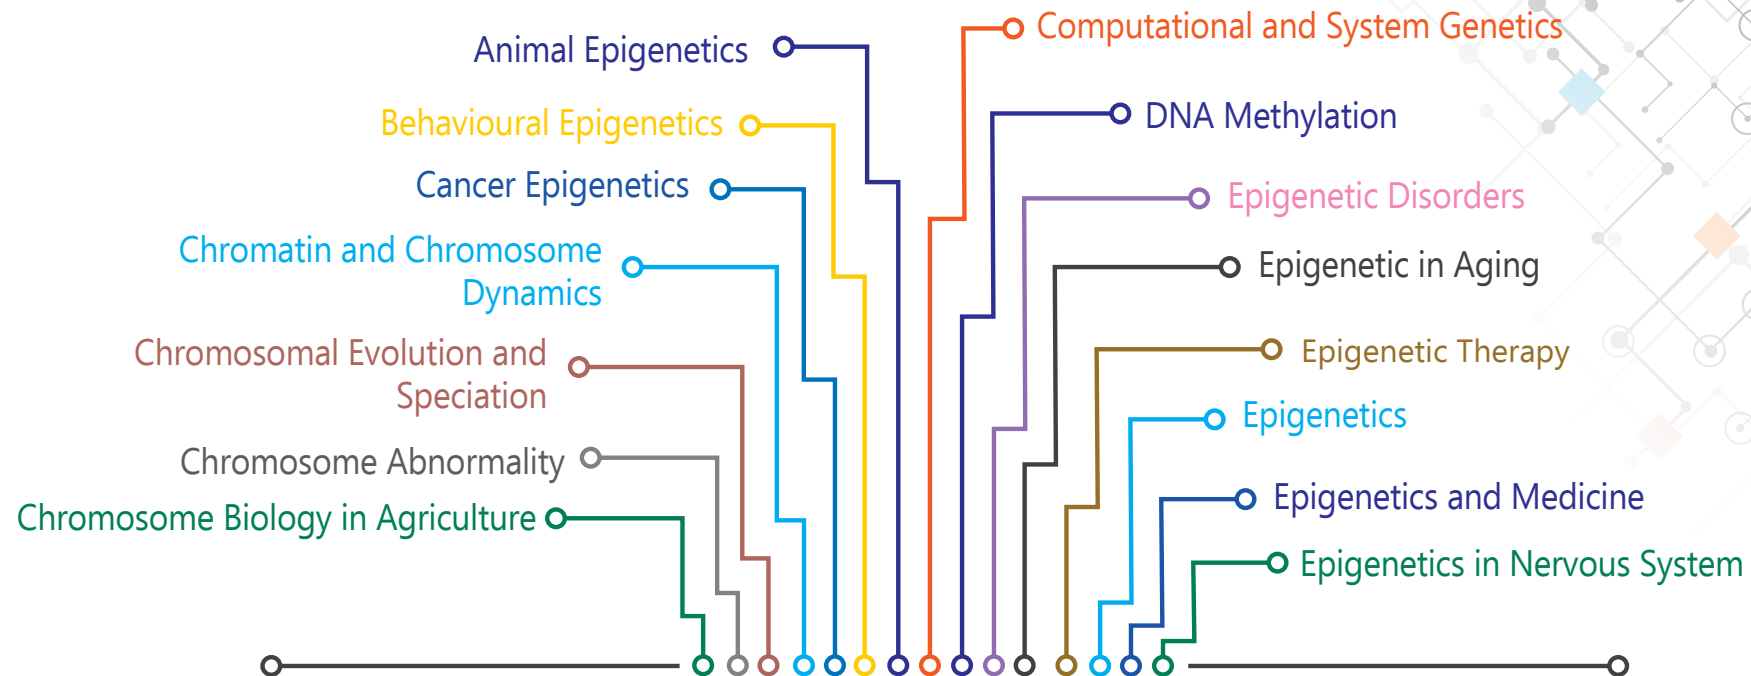

Workshops and
Special Sessions

40+ Oral
Presentations

25+ Poster
Presentations

Young
Researchers
Forum

Conference Sessions

EPIGENETICS CONGRESS 2019

Venue & Hospitality

Cape Town ranks third among the most populous urban areas in South Africa, after Johannesburg, and has roughly the same population as the Durban Metropolitan Area. It is also the provincial capital and primate city of the Western Cape. Cape Town is one of South Africa's most historically important cities. It was here, in the Mother City, where the first European colonists set foot in South Africa—which also marked the beginning of the South African slave trade. It was home to perhaps the world's most famous political prisoner—Nelson Mandela—who was held on the tiny Robben Island in Table Bay.

As the seat of the National Parliament, it is also the legislative capital of the country. It forms part of the City of Cape Town metropolitan municipality. The city is famous for its harbour, for its natural setting in the Cape Floristic Region, as well as for such well-known landmarks as Table Mountain and Cape Point. As of 2014 it is the 10th most populous city in Africa and home to 64% of the Western Cape's population. It is one of the most multicultural cities in the world, reflecting its role as a major destination for immigrants and expatriates to South Africa. The city was named the World Design Capital for 2014 by the International Council of Societies of Industrial Design. In 2014, Cape Town was named the best place in the world to visit by both The New York Times and The Telegraph.

our DELEGATE is your CLIENT

Exhibitors and sponsors have the opportunity for face-to-face networking with leading scientists and clinicians, increase brand awareness, and develop collaborations with an international audience. In 2016-2017, the top ten countries represented by our delegates were: United States, United Kingdom, Germany, Netherlands, Belgium, Sweden, Canada, France, Switzerland, Japan and Spain.
