Our Programme

Our programme aims to bridge the gap between basic and translational science, with an emphasis on large-scale approaches and innovative technologies in the fields of Epigenetics, genetics, molecular biology, genetic diseases, epigenetics therapy, and behavioural epigenetics. We foster discussion and debate of the innovations by maximizing interactions, collaborations and networking opportunities for researchers and clinicians from academia, industry, and healthcare professionals.

Venue & Hospitality

Amsterdam is the capital and most populated municipality in the Netherlands. It has a total population of 861,000. The city is located in the province of North Holland in the west of the country. Its name derives from Amstelredamme, indicative of the city's origin around a dam in the river Amstel. The 17th-century canals of Amsterdam and the 19-20th century Defense Line of Amsterdam are on the UNESCO World Heritage List. It is ranked 1st in the world in welcoming visitors and world-class business meetings. It also leads Europe in the available surface for trade exhibitions. In many Western countries, mental disorders are the leading cause of disability, responsible for 30-40% of chronic sick leave and costing some 3% of GDP. There are numerous hospitals, institutions in Amsterdam which are working in the field of psychiatry and psychology research and mental health care. Amsterdam is served by Amsterdam Airport Schiphol- Holland's main international airport located 9 KM southwest of Amsterdam. We look forward to seeing you in Amsterdam- Venice of the North.

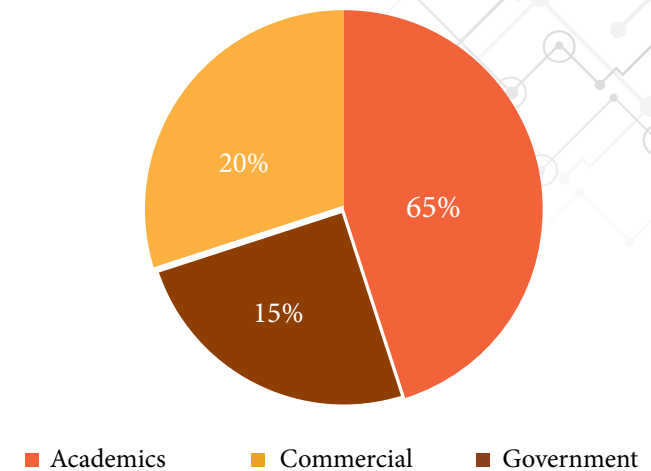

our DELEGATE is your CLIENT

Exhibitors and sponsors have the opportunity for face-to-face networking with leading scientists and clinicians, increase brand awareness, and develop collaborations with an international audience.
