Major Sessions
Discovery of antibiotics
Pharmacology of antibiotics
Antibiotics: Uses, Allergies and Reactions, Side effects
Antibiotics and their Interactions
Antimicrobial resistance
Antimicrobial chemotherapy
Antibiotics mechanisms of action
Antibiotics by drug origin
List of Antibiotics Drug Classifications
Antibiotics in Various Industries
Role of longterm Antibiotics and Antimicrobial in diseases
Developing new drugs: Industrial and Academic Innovations
Drug discovery and novel delivery Technologies
Emerging and Re-emerging Diseases of Antibiotics
Current researches in Antibiotics resistance
Antibiotics Clinical trials
Intelligence of Antimicrobials
Infections and diseases of Antimicrobials
Applications of Antibiotics
Market Analysis and Business Opportunities of Antibiotics

Host City
Geneva is the second-most inhabited town in Swiss Confederation (after Zürich) and also the most inhabited town of Romandy, the communicatory a part of Swiss Confederation. Located wherever the river exits lake, it’s the capital of the Republic and Canton of Geneva. Vision & Plan

International Market Approach

The worldwide Antibiotics market is valued at $6,727.29 million in 2014 and is relied upon to develop at a CAGR of 13.03% in the vicinity of 2014 and 2019. Expanding sickness weight of irresistible maladies and expanded subsidizing for social insurance consumption are the vital development drivers for this market amid the conjecture time frame. The pharmaceuticals request piece characterized the major share Of the Antimicrobials advertise in 2014; while the sustenance claim portion is normal develop at the most bewildering CAGR in the neighbourhood of 2014 and 2019 in the universal Antibiotics cabinet. The worldwide scientific antimicrobials marketplace is predictable to spread USD 5.77 Billion by 2021 from USD 3.35 Billion in 2016, rising at a CAGR of 11.5% from 2016 to 2021. Market growth can be attributed to issues such as the technical progressions; rising occurrence of catching diseases and rising eruption of epidemics; increasing healthcare outflow across the world; and accumulative funding, research grants, and public-private savings in the field of life science researches.

Evolving regions such as Asia-Pacific (including Japan, China, and India) are predictable to develop the new revenue-generating compartments in the marketplace in the next five years. The Asia-Pacific market is projected to grow at the highest CAGR during the forecast period owing to the growing number of hospitals and clinical diagnostic laboratories in India and China, escalating research competences for the progress of ground-breaking and reasonable clinical Antibiotics testing procedures across India, China, and Japan; and increasing occurrences of infectious diseases.

Market Research:

Market research is vital to the development of the industrial market, and endures to be in demand. In 2018, we anticipate delivery of new editions of our report on Antimicrobials Testing in the Global emission.
Sponsorship and Exposure

**Diamond**
- Three workshop slots (audio visual included).
- Two complimentary exhibit booths with priority to purchase exhibition space and choose booth location (Booth size-3X3 sqm)
- Four complimentary registrations
- Logo recognition on congress website front page with link, sponsorship page
- One A4 color advertisement in the congress souvenir
- Three inserts provided by the sponsor in the congress delegate bags

**Gold**
- Two complimentary congress registrations
- One corporate sponsored workshop slot
- One complimentary exhibit booth with priority to purchase exhibition space and choose booth location (Booth size-3X3 sqm)
- Logo recognition on congress website sponsorship page
- One A4 color advertisement in the congress program or book of abstracts (excluding cover pages)
- One insert provided by the sponsor in the congress delegate bags
- Priority to purchase additional sponsorship items

**Exhibition**
- One complimentary congress registration
- Set up of one tailor-made exhibit booth (Booth Size 3x3 sqm)
