# City Attractions

## Barcelona, Spain

Spain, a country on Europe's Iberian Peninsula, includes 17 autonomous regions with diverse geography and cultures. Capital city Madrid is home to the Royal Palace and Prado museum, housing works by European masters. The travel industry in Spain is the third significant supporter of national financial life after the modern and the business/banking divisions, contributing around 10-11% of Spain's GDP.[1] Ever since the 1960s and 1970s, the nation has been a well known goal for summer occasions, particularly with enormous quantities of vacationers from Ireland, the United Kingdom, France, Germany, Italy, the Benelux, and the United States, among others. As needs be, Spain's remote traveler industry has developed into the second-greatest in the world. As of February 2019, Spain holds first spot in the World at global the travel industry positioning The TourismRank.

## Best Poster Award

You will be given about 5-7 minutes to present your poster including questions and answers. Judges may pose questions during the evaluation of the poster. Judges will even evaluate the student's enthusiasm towards their study, interest and knowledge in the area of their research. The winners will be announced at the closing ceremony of the conference. The decision of the winner will be withdrawn if the winner/winners is/are not present at the time of announcement. Apart from the judging time, you may also be present at the poster to share your research with interested delegates.

## Young Researchers Forum

Present your research through oral presentations. Learn about career development and the latest research tools and technologies in your field. This forum will give pertinent and timely information to those who conduct research and those who use and benefit from research. Develop a foundation for collaboration among young researchers. The forum will provide an opportunity for collegial interaction with other young investigators and established senior investigators across the globe. Interact and share ideas with both peers and mentors.
