Tentative Program

22nd European Nephrology Conference

October 15-16, 2018 | Warsaw, Poland

Interactive Sessions  |  Keynote Lectures  |  Plenary Lectures  |  Workshops
Exhibitors          |  B2B Meetings     |  Workshops

***For available speaker slots***

euronephrology@nephroconferences.org
Title: History of Blood Purification and Dialysis

Dr. Siami is MD, PhD, FACP, FASN, Prof. of Medicine and Nephrology at Vanderbilt School of Medicine. He was promoted to Prof. Emeritus in 2011. He received 50 Years’ Service Award from AMA. He published more than 100 Abstracts, Original Papers, Book Chapters and Editorials. He was President of Intern. Soc. for Apheresis and KEYNOTE Speaker opening several World Congress of Nephrology in recent years.

Ghodrat Siami,
Vanderbilt School of Medicine, USA

Title: Anti-human leukocyte antigen antibody analysis and structural aspects of class I epitopes reacting with human alloantiserum

Dr. Andrew Lobashevsky has completed his PhD at the age of 27 years from Moscow Medical Academy, Russia and postdoctoral studies from University of Tennessee at Memphis. He is the associate professor and director of histocompatibility and transplant Immunology laboratory at Indiana University and IUHealth Inc. He has published more than 50 papers in reputed journals and has been serving as an editorial board member of 2 repute journals.

Andrew L Lobashevsky,
Indiana University, USA

Title: Efficacy and safety of etelcalcetide in patients receiving hemodialysis with secondary hyperparathyroidism: Real life data

Dr Ioannis Griveas, MD, PhD is Medical Director of Nephrology Department 417 Veterans Army Administration Hospital of Athens (NIMTS), Professor-Consultant Hellenic Open University, Medical Director of Private Dialysis Unit “Nefroiatriki”, Athens, Greece, Consultant Nephrologist and Lt. Colonel of the Greek Army. He is also the owner of Private Renal Clinic «Athens-Nephrology». Dr Ioannis Griveas is the Editor-Author of the books “Principles of Renal Medical Procedures” and “Principles of Cellular Immunity in Peritoneal Dialysis Patients.”
Speaker Slots Available

Title: Early alterations in diabetic nephropathy
Jose L. Reyes, MD, PhD
MD degree from National University of Mexico (1964), Pediatric Nephrologist from Hospital Infantil de Mexico Federico Gomez (1969, Sponsor Dr. Gustavo Gordillo), Research fellow (Children’s Hospital of Los Angeles CA, USA, Sponsor Dr. Jose Strauss), PhD degree Center for Research and Advanced Studies. National Polytechnic Institute, Mexico (1977). Currently full professor at this institution and former Head of the Department of Physiology, Biophysics and Neurosciences. Invited Professor: University of Lausanne, Switzerland, 1983-1984, Université de Paris VI. Invited professor at Albert Einstein College of Medicine, USA, New York Medical College, USA Université de Paris, France, Universite de Nice, France, Cambridge University, England and Université de Lausanne, Switzerland. 135 publications.

Title: The renal replacement therapy in critically ill patients: Practical approaches in specific situations based on case reports
Nadezda Petejova, University of Ostrava, Czech Republic
Nadezda Petejova successfully completed her doctoral studies in the field of Internal medicine at the Faculty of Medicine, Palacky University in Olomouc (CR) in 2012 and received her Ph.D. She has been working as nephrologist at Department of Internal Medicine at University Hospital Ostrava, (CR). Her research interests span various aspects of Internal and Critical care medicine but center mainly in critical care nephrology including renal replacement therapy in critically ill patients. She has published more than 20 papers in reputed journals and has been serving as a part-time lecturer at Faculty of Medicine, University of Ostrava.

Title: Urate-lowering therapy ameliorates kidney function in type2 diabetes patients with hyperuricemia
Naohiko Ueno, Ueno Internal Medicine and Diabetes Clinic, Japan
Dr. Naohiko Ueno is the director of Ueno Internal Medicine and Diabetes Clinic, and a visiting lecturer at Kagoshima University Graduate School of Medical. He specializes in Diabetes and certified by the Japan Diabetes Society, and also specializes in Internal Medicine certified by the Japanese Society of Internal Medicine. He received his Ph.D. in 2000 at Kobe University Graduate School of Medicine. He studied as a postdoctoral fellow at the Department of Neuroscience of the University of Florida, USA. His current field of interest is diabetes treatment and body weight regulation. He has many publications in medical journals including Diabetes Care, Diabetologia, Endocrinology and Gastroenterology.
Title: Managing urethral strictures using cooks S-curve dilator: Is it economical as an outpatient procedure?

Ahmed Omer Yousif, University of Liverpool, UK

Dr. Ahmed Yousif is currently working as a foundation 2 doctor in Nottingham Queens Medical centre, UK. He Graduated from the university of Liverpool in 2016, after which, he worked in Pilgrim hospital, Boston in East lincolnshire for 1 year. There he started his first placement of six in Urology and under the guidance of Dr Shaukat Memon (Consultant Urologist) performed a research audit into urethral strictures. He has since presented a poster in the international conference of psychiatry 2017 and has been involved in various teaching projects.

Title: Standardization of inpatient (IP) acute kidney injury (AKI) referral

Qiaoling Zhou, Dorset County Hospital NHS foundation Trust, UK

Qiaoling Zhou has completed her MBChB at Bristol University, UK. She obtained full MRCP membership and successfully achieved the specialty certificate in Nephrology in 2018.

She is an enthusiastic educator, and has been awarded prizes for her contribution in medical education. She has published 5 papers in reputed journals and has been a speaker in national and international conferences.

Title: Crosstalk between Connexin 32 and mitochondrial apoptosis signaling pathway plays a pivotal role in renal ischemia reperfusion–induced acute kidney injury

Chao-jin Chen, The Third Affiliated Hospital of Sun Yat-Sen University, China

Chao-jin Chen is currently pursuing the Ph. D. degree in Sun Yat-sen University, China. His research interests include cell damages and perioperative organ protection. Especially, he is now working on renal clinical trials/research field. With pure enthusiasm and interest in doing research, He has spent most of his time in the library and the laboratory, and he is eager to exchange the research ideas with other scholars and learn further from the world-famous scientists in the perioperative renal protection field.
Title: Folic acid induced acute kidney injury and recovery: Using HK2 cells as experimental model

Yihe Li, University of Nottingham, UK

Yihe Li is a current PhD student at the University of Nottingham, Nutritional Science.

Title: Role of palliative medicine in renal diseases

Hasan Alkhudairi, King Saud University, Saudi Arabia

Hasan Mohammad alkhudairi is currently working as a Consultant Of Obstetric & Gynecology, and Palliative Medicine at Oncology center at King Saud University. He is the member in The Saudi Board in Obstetric & Gynecology, he obtained The Saudi fellowship in palliative medicine, followed by Palliative care fellowship Queens University Canada. He also working as a consultant of obstetrics and gynecology and run a clinic women's pain dealing with women's sexual Problems at maternity hospital King Saud medical city, for several years.

Title: Impact of inline extracorporeal membrane oxygenator hemofilter system in neonatal acute kidney injury

Mohammed Azar Ali, King Abdul Aziz Medical City, Saudi Arabia

Dr Mohammed, studied Master degree in pediatrics from India, then he pursued his career by completing membership from United Kingdom and fellowship in pediatric nephrology from Singapore. Presently, he is working as associate consultant in King Abdul Aziz medical city, Saudi Arabia.
Title: Correlation between urine protein to creatinine ratio and 24 hour urine total protein excretion in proteinuria

Fatma Saeed Khalifa Nafea has completed her Master degree at the age of 30 years from Alexandria University School of Medicine, Egypt. She is a nephrology specialist at Kidney and Urology Center, Alexandria, Egypt.

Title: Hemodialysis and peritoneal dialysis: Comparative study for the economic assessment of artificial kidney and peritoneal cleansing units in the region and the urban centers of the country, with units from the rest of the European Union and beyond

Marilena G. Koukou, National and Kapodistrian University of Athens, Greece

Marilena G. Koukou has completed her PhD at the age of 34 years from National and Kapodistrian University of Athens in Medicine.
Title: Optimising the management of acute kidney injury at a United Kingdom district general hospital: A quality improvement project

M Sequeira Campos, King's College London, UK

Miguel is a final year medical student at King’s College London, with a First Class Honours BSc in Anatomy, Developmental and Human Biology. He has authored a book on medical history-taking, published research, presented internationally and taught hundreds of individuals including young offenders from disadvantaged backgrounds and other medical students.

Title: Does warm climate increase the risk of nephrolithiasis in children?

Rahime Renda, Antalya Research and Education Hospital, Antalya, Turkey

Rahime Renda won her medical degree has at the age of 24 years from İstanbul University Cerrahpasa Medical Faculty. She finished her residentship in pediatrics and pediatric nephrology fellowship at Dr Sami Ulus Children Hospital in Ankara. She still works as a pediatric nephrologist at Antalya Education and Training Hospital in Antalya. She has published more than 20 papers in medical journals.

Title: Hepatitis c virus testing and treatment among persons receiving buprenorphine in an office -based program for opioid use disorders in Nigeria

Adeyemi A Abati, Lagos University Teaching hospital, Nigeria

Dr. Adeyemi Abati completed is MBBS in 2004 at Obafemi Awolowo University teaching hospital ILE – IFE Nigeria; he was trained at the department of infectious diseases during his residency. And he was able to provide several superior care and consultation that resulted in overall improvement of department patient’s satisfaction quotient.
Arif Demir,  
BEAM ArGe Laser and Optics Technology Ltd,  
Turkey

Title: Development of raman spectroscopy technique for analysis of kidney stones

Prof Dr Arif Demir has completed his PhD in Physics at the age of 29 years from Essex University, UK. He has been working at Kocaeli University in Turkey since 1997. He is the cofounder and director of BEAM ArGe, a research company working on laser and spectroscopy. He has published more than 60 papers in reputed journals and has been serving as an editorial board member of Journal of Optics and Laser Technology for 3 years.

Noha Mohamed Ahmed Elkholy,  
Alexandria University,  
Egypt

Title: Left ventricular hypertrophy and cardiac remodeling in chronic kidney disease and hemodialysis patients, role of altered metabolism of some arginine derivatives

Noha Elkholy, 34 years old works as lecturer of Nephrology Alexandria university, faculty of medicine, Egypt, my MD was about cardiovascular risk factors in CKD and ESRD patients.

Pratik Somnath Shete,  
Dr. D.Y.Patil Medical College, India

Title: Rare cause of chronic kidney disease in young adult: A case report

Dr. Pratik Somnath Shete completed his MBBS from Maharashtra University of health sciences, Nashik. Then he completed MD General Medicine from Pravara institute of medical sciences, Loni (Both from Maharashtra state of India). And he is currently a second year resident of DM Nephrology in D Y Patil Medical College, Pimpadi, Maharashtra.
Conference Highlights

• Nephrology
• Urology/Urinary tract infections
• Renal Nutrition
• Kidney Transplantation
• Hypertensive Associated Kidney Diseases
• Kidney Diseases & Diagnosis of Kidney Diseases
• Dialysis
• Clinical Nephrology
• Pediatric Nephrology
• Glomerular Disorders
• Cardiovascular Impacts of Kidney Disease

• Kidney and Bladder stones
• Acute Kidney Injury
• End Stage Renal diseases & Chronic Kidney Diseases
• Kidney Cancer
• Tubular and Interstitial Diseases
• Renal Pathology-Immunology
• Diabetic Nephropathy
• Metabolic, Fluid & Electrolyte disorders
• Nephrology Nursing
• Nephritis & Onconephrology
• Geriatric Nephrology

### Keynote Forum

**Title:** Thermobalancing therapy opens new opportunities in nephrology to fight effectively with chronic renal diseases  
**Simon Allen,** Fine Treatment, UK

### Networking and Refreshments Break

### Group Photo

**Title:** Zebrafish as a model of nephron development and repair  
**Aleksandr Vasilyev,** New York Institute of Technology, USA  
**Title:** Malnutrition and comorbidity in chronic hemodialysis patients: A retrospective cohort study  
**Leonardo Spatola,** Humanitas University, Italy

### Sessions: Nephrology | Dialysis | Hypertension and Kidney Disease | Clinical Nephrology | Pediatric Nephrology

- **Session Chair:** Jia L Zhuo, University of Mississippi Medical Center, USA  
- **Session Co-chair:** Abelardo Aguilera, Hospital de La Princesa, Spain

#### Session Introduction

**Title:** New insights into the roles of the Na+/H+ exchanger 3 in pressure natriuresis and angiotensin II-induced hypertension  
**Jia L Zhuo,** University of Mississippi Medical Center, USA

#### Lunch Break

**Title:** Animal toxins for human health, case of the mambaquaretin for the treatment of polycystic kidney diseases  
**Nicolas Gilles,** Institute of Biology and Technology of Saclay, France  
**Title:** The role of soluble uric acid and uric acid crystals in chronic kidney disease  
**Stefanie Steiger,** University of Munich, Germany  
**Title:** Tamoxifen ameliorates peritoneal membrane damage by blocking mesothelial to mesenchymal transition in peritoneal dialysis  
**Abelardo Aguilera,** Hospital de La Princesa, Spain

#### Networking and Refreshments Break

**Title:** Inhibition of NHE3 in the proximal tubule of the kidney by an orally absorbable NHE3 inhibitor attenuates angiotensin II-induced hypertension in mice  
**Xiao C Li,** University of Mississippi Medical Center, USA  
**Title:** Polycythemia in patients born preterm with low birth weight  
**Nariaki Asada,** Keio University School of Medicine, Japan

### Panel Discussion
Keynote Forum

Introduction
Title: Duplex ultrasound for the prediction of vascular events associated with arteriovenous fistulas in hemodialysis patients
Takeo Ishii, Yokohama Daichi Hospital, Japan

Networking and Refreshments Break

Title: ACE2 as a potential therapeutic agent for kidney disease
Daniel Batlle, Northwestern University Feinberg University School of Medicine, USA
Title: Assessment of the LA myocardial function and size using tissue doppler imaging echocardiography in end-stage renal disease patients on regular hemodialysis
Hesham Abdelkawy Hassan, DaVita Azizia South Riyadh, Saudi Arabia

Sessions:
- Kidney Transplantation
- Urinary Tract Infections
- Renal Nutrition
- Glomerular Disorders
- Diabetic Nephropathy

Session Chair: Hesham Abdelkawy Hassan, DaVita Azizia South Riyadh, Saudi Arabia
Session Co-Chair: Mamun Mostafi, Combined Military Hospital, Bangladesh

Session Introduction
Title: Serum magnesium and outcome in critically ill patients
Brig Gen Mamun Mostafi, Combined Military Hospital, Bangladesh
Title: Early initiation of eculizumab in dense deposit disease case series and literature review
Saeed Mohammed Alzabli, King Fahad Medical City, Saudi Arabia

Lunch Break

Title: Health literacy in kidney disease
Deepika Jain, Hudson Kidney Group, USA
Title: Saudi children have high prevalence of genetic related atypical hemolytic uremic syndrome and better renal recovery with eculizumab therapy
Abdulaziz Ahmed Salem Bamhraz, King Fahad Medical City, Saudi Arabia
Title: Nephrotic syndrome in small cell lung cancer and induction of C-MIP in podocytes
Shao-yu Zhang, INSERM, France

Networking and Refreshments Break

Poster Presentations
Poster Judge: Hesham Abdelkawy Hassan, DaVita Azizia South Riyadh, Saudi Arabia

ENCP01 Title: Are we slowing the rate of CKD progression in children? A single center study
Isabel Roberti, RWJBarnabas Health, USA

ENCP02 Title: Pulmonary and muscular septic metastases in hemodialysed patient using buttonhole technique: Case presentation
Lavinia-Oltita Bratescu, Nephrology and Dialysis Medical Centre, Romania

ENCP03 Title: Assessment of follow up & outcomes of patients with AKI requiring renal replacement therapy in the ICU
Robert Hafes, Glasgow University, UK

ENCP04 Title: Investigation of protein consumption in hemodialysis patients
Zehra Margot Celik, Marmara University Faculty of Health Sciences, Turkey

ENCP05 Title: Renal involvement in systemic diseases in children: Contribution of cardiovascular comorbidity
Mohsen Hoshayari Khani, Belarus State Medical University, Belarus

ENCP06 Title: Indoleamine 2,3-dioxygenase decreases humoral alloimmunity in primary human peripheral blood mononuclear cells by pathways different than those implicated in its effect on T-cells
Maria Sounidaki, University of Thessaly, Greece

Panel Discussion

Awards & Closing Ceremony
