34TH EUROPEAN OPHTHALMOLOGY CONGRESS

November 23, 2020 | Monday

TIME	
12:00-12:30	Introduction: OPENING CEREMONY SPEECH : Dr Jerry Katzman
12:30-12:55	Title: An affordable 200 degree non-mydriatic retinal micro-camera that (RETINALCAM) is capable of imaging the peripheral retina to detect early signs of Diabetic Retinopathy (DR) for mass screening Jerry Katzman, Emeritus New York Medical, USA
12:55-13:20	Title: Novel Data About Larval Stage of a Trematoda That Cause Visual Threatening Intraocular Granuloma in Rural Children in EgyptKhalid G. Abu Eleinen Egypt
13:20-13:45	Title:Corneal lenticule implantation in keratoconus disease with relex smile surgery
	Faruk Semiz Eye Hospital Prishtina, Kosova
13:45-14:10	Title: Wernicke's encephalopathy with ophtalmological revelation
	Abdi Rhizlane University hospital center mohammed VI oujda, Morocco
14:10-14:35	Title:Ocular Manifestations of Parkinson's Disease
	Mashael Al-Namaeh TelaSight Inc Consultant, USA
14:35-15:00	Title: Photo Bio Modulation (PBM) Therapy for Age Related (Dry) Macular Degeneration (AMD)
	Herbert L Gould MD FACS New York Medical College, USA
Sessions	Macular Degeneration Neuro Ophthalmology Advanced Ophthalmological Care Ocular Diseases Uveitis
	Cornea Disorders and Disorders and Treatments Ophthalmic Disorders Retina & its Disorders Session Infectious Disease
15:00-15:20	Title: Role of oxidative stress-induced peroxidative damage of cellular protein and lipid components in the
	Lakshmi Kanta Mondal Regional Institute of Ophthalmology Medical College, India
15:20-15:40	Title: An audit of efficacy and safety of Adalimumab therapy for non-infectious uveitis.
	Maroa Alsawaaiya The Royal College of Surgeons, Ireland
15:40-16:00	Title: Treatment of Vogt-Koyanagi-Harada Diseas
	Musab K. Alaql Jouf University, SAU
16:00-16:20	Title: Lacrimal fluoroscopy
	Khalid G. Abu Eleinen Egypt
16:20-16:40	Title: Edge Trimming Phacoemulsification for Hard Nuclei
	Khalid G. Abu Eleinen Egypt
16:40-17:00	Title: Contact Lens History and Contact Lens-related Complications: A Review
	Mashael Al-Namaeh TelaSight Inc Consultant, USA
17:00-17:20	Title: Global Frontiers in Eradicating Trachoma and Creating Sustainable Solutions

Mashael Al-Namaeh TelaSight Inc Consultant, USA 17:45-18:00 Title: Clinical findings and management of Disc Edema due to Lyme Meningitis Mashael Al-Namaeh TelaSight Inc Consultant, USA Q&A, Group Photo and Awards Ceremony Chaired and Closing ceremony speech by : Dr. Herbert Gould, USA (TIME 18:00-18:15) South World Cancer Conference 18:15-18:35 Title: In vitro study of the immunostimulating potential of dendritic vaccines and the cytotoxic activity of human CIK cells Mahmoud Saad Mohamed El-Khodary, Suez Canal University, Egypt		Rasan Burhan St Georges University Hospitals NHS Foundation Trust, United Kingdom
17:45-18:00 Title: Clinical findings and management of Disc Edema due to Lyme Meningitis Mashael Al-Namaeh TelaSight Inc Consultant, USA Q&A, Group Photo and Awards Ceremony Chaired and Closing ceremony speech by : Dr. Herbert Gould, USA (TIME 18:00-18:15) 39th World Cancer Conference 18:15-18:35 Title: In vitro study of the immunostimulating potential of dendritic vaccines and the cytotoxic activity of human CIK cells Mahmoud Saad Mohamed El-Khodary, Suez Canal University, Egypt 18:35-18:55 Title: In vitro study of the immunostimulating notential of dendritic vaccines and the cytotoxic activity of human CIK cells Mahmoud Saad Mohamed El-Khodary, Suez Canal University, Egypt 18:35-18:55 Title: A nitital screening strategy based on epidemiological information in the esophageal cancer screening: A prospective evaluation in a community-based cancer screening cohort in rural China He Li, National Cancer Center, China Cancer Prevention & Research, Cancer Immunology & Immunotherapy, Cancer Therapy & Treatments, Cancer Prevention & Research, Cancer Immunology & Immunotherapy, Cancer Therapy & Treatments, Cancer Prevention & Assel Issabekova, National Center For Biotechnology, Kazakhstan 19:15-19:35 Title: In vitro study of the immunostimulating potential of dendritic vaccines and the cytotoxic activity of human CIK cells Assel Issabekova, National Center For Biotechnology, Kazakhstan 19:15-19:35 Title: PICC line thrombus and	17:20-17:45	Title: An Update of Systemic Medications and their Ocular Side Effects
Mashael Al-Namaeh TelaSight Inc Consultant, USA Q&A, Group Photo and Awards Ceremony Chaired and Closing ceremony speech by : Dr. Herbert Gould, USA (TIME 18:00-18:15) 39th World Cancer Conference 18:15-18:35 Title: In vitro study of the immunostimulating potential of dendritic vaccines and the cytotoxic activity of human CIK cells Mahmoud Saad Mohamed El-Khodary, Suez Canal University, Egypt 18:35-18:55 Title: An initial screening strategy based on epidemiological information in the esophageal cancer screening: A prospective evaluation in a community-based cancer screening cohort in rural China He Li, National Cancer Center, China Cancer Prevention & Research, Cancer Immunology & Immunotherapy, Cancer Therapy & Treatments, Cancer Prevention & Research, Cancer Immunology & Immunotherapy, Cancer Therapy & Treatments, Cancer Prevention & Research, Cancer Immunology & Immunotherapy, Cancer Therapy & Treatments, Cancer Prevention & Research, Cancer Chair: 18:55-19:15 Title: In vitro study of the immunostimulating potential of dendritic vaccines and the cytotoxic activity of human CIK cells Assel Issabekova, National Center For Biotechnology, Kazakhstan 19:15-19:35 Title: PICC line thrombus and other thrombotic events in patients on PICC line chemotherapy for colorectal cancer Rosalyne Westley, Guys and St Thomas's Hospital, UK 19:35-19:55 Title: Assessment of durum wheat straw genotypes with improved saccharification efficiency Arta Fejzullahu, Marmara University, Turkey <td>Mashael Al-Namaeh TelaSight Inc Consultant, USA</td>		Mashael Al-Namaeh TelaSight Inc Consultant, USA
Q&A, Group Photo and Awards Ceremony Chaired and Closing ceremony speech by : Dr. Herbert Gould, USA (TIME 18:00-18:15) 39th World Cancer Conference 18:15-18:35 Title: In vitro study of the immunostimulating potential of dendritic vaccines and the cytotoxic activity of human CIK cells Mahmoud Saad Mohamed El-Khodary, Suez Canal University, Egypt Title: An initial screening strategy based on epidemiological information in the esophageal cancer screening: A prospective evaluation in a community-based cancer screening cohort in rural China He Li, National Cancer Center, China Cancer Prevention & Research, Cancer Immunology & Immunotherapy, Cancer Therapy & Treatments, Cancer Prevention & Research, Cancer Iommunology & Immunotherapy, Cancer Therapy & Treatments, Cancer Prevention & Research, Cancer Iommunology & Immunotherapy, Cancer Therapy & Treatments, Cancer Prevention & Research, Cancer Iommunology & Immunotherapy, Cancer Therapy & Treatments, Cancer Prevention & Research, Cancer Iommunology & Immunotherapy, Cancer Therapy & Treatments, Cancer Prevention & Research, Cancer Iommunology & Immunotherapy, Cancer Therapy & Treatments, Cancer Prevention & Research, Cancer Iommunology & Immunotherapy, Cancer Therapy & Treatments, Cancer Prevention & Research, Cancer Iommunology & Immunotherapy, Cancer Therapy & Treatments, Cancer Prevention & Research, Cancer Bio Markers, Organ Defined Cancer Chair: Title: In vitro study of the immunostimulating potential of dendritic vaccines and the cytotoxic activity of human CIK cells Assel Issabekova, National Center For Biotechnology, Kazakhstan Title: PICC line thrombus and other thrombotic events in patients on PICC line chemotherapy for colorectal cancer	17:45-18:00	Title: Clinical findings and management of Disc Edema due to Lyme Meningitis
39th World Cancer Conference 18:15-18:35 Title: In vitro study of the immunostimulating potential of dendritic vaccines and the cytotoxic activity of human CIK cells Mahmoud Saad Mohamed El-Khodary, Suez Canal University, Egypt Title: An initial screening strategy based on epidemiological information in the esophageal cancer screening: A prospective evaluation in a community-based cancer screening cohort in rural China He Li, National Cancer Center, China Cancer Prevention & Research, Cancer Immunology & Immunotherapy, Cancer Therapy & Treatments, Cancer Prevention & Research, Cancer Bio Markers, Organ Defined Cancer Chair: Co-Chair: 18:55-19:15 Title: In vitro study of the immunostimulating potential of dendritic vaccines and the cytotoxic activity of human CIK cells Assel Issabekova, National Center For Biotechnology, Kazakhstan 19:15-19:35 Title: PICC line thrombus and other thrombotic events in patients on PICC line chemotherapy for colorectal cancer Rosalyne Westley, Guys and St Thomas's Hospital, UK 19:35-19:55 Title: Assessment of durum wheat straw genotypes with improved saccharification efficiency Arta Fejzullahu, Marmara University, Turkey Title: Regulation of MMP-1 by miR-202-3p in brain metastatic breast cancer cells		Mashael Al-Namaeh TelaSight Inc Consultant, USA
18:15-18:35 Title: In vitro study of the immunostimulating potential of dendritic vaccines and the cytotoxic activity of human CIK cells Mahmoud Saad Mohamed El-Khodary, Suez Canal University, Egypt Title: An initial screening strategy based on epidemiological information in the esophageal cancer screening: A prospective evaluation in a community-based cancer screening cohort in rural China He Li, National Cancer Center, China Research, Cancer Immunology & Immunotherapy, Cancer Therapy & Treatments, Cancer Prevention & Research, Cancer Immunology & Immunotherapy, Cancer Therapy & Treatments, Cancer Prevention & Research, Cancer Immunology & Immunotherapy, Cancer Therapy & Treatments, Cancer Prevention & Research, Cancer Immunology & Immunotherapy, Cancer Therapy & Treatments, Cancer Prevention & Research, Cancer Immunology & Immunotherapy, Cancer Therapy & Treatments, Cancer Prevention & Research, Cancer Immunology & Immunotherapy, Cancer Therapy & Treatments, Cancer Prevention & Research, Cancer Immunology & Immunotherapy, Cancer Therapy & Treatments, Cancer Prevention & Research, Cancer Immunology & Immunotherapy, Cancer Therapy & Treatments, Cancer Prevention & Research, Cancer Immunology & Immunotherapy, Cancer Therapy & Treatments, Cancer Prevention & Research, Cancer Immunology & Immunotherapy, Cancer Therapy & Treatments, Cancer Prevention & Research, Cancer Immunology & Immunotherapy, Cancer Therapy & Treatments, Cancer Prevention & Research, Cancer Immunology & Immunotherapy, Cancer Therapy & Treatments, Cancer Prevention & Research, Cancer Immunology & Immunotherapy, Cancer Therapy & Treatments, Cancer Prevention & Assel Issabekova, National Center For Biotechnology, Kazakhstan 19:15-19:35 Title: PICC line thrombus and other thrombotic events in patients on PICC line chemotherapy for colorectal cancer <	Q&A, Group Photo	and Awards Ceremony Chaired and Closing ceremony speech by : Dr. Herbert Gould, USA (TIME 18:00-18:15)
activity of human CIK cells Mahmoud Saad Mohamed El-Khodary, Suez Canal University, Egypt 18:35-18:55 Title: An initial screening strategy based on epidemiological information in the esophageal cancer screening: A prospective evaluation in a community-based cancer screening cohort in rural China He Li, National Cancer Center, China Cancer Prevention & Research, Cancer Immunology & Immunotherapy, Cancer Therapy & Treatments, Cancer Prevention & Research, Cancer Immunology & Immunotherapy, Cancer Therapy & Treatments, Cancer Prevention & Research, Cancer Bio Markers, Organ Defined Cancer Chair: Co-Chair: 18:55-19:15 Title: In vitro study of the immunostimulating potential of dendritic vaccines and the cytotoxic activity of human CIK cells Assel Issabekova, National Center For Biotechnology, Kazakhstan 19:15-19:35 Title: PICC line thrombus and other thrombotic events in patients on PICC line chemotherapy for colorectal cancer Rosalyne Westley, Guys and St Thomas's Hospital, UK 19:35-19:55 Title: Assessment of durum wheat straw genotypes with improved saccharification efficiency Arta Fejzullahu, Marmara University, Turkey 19:55-20:15 Title: Regulation of MMP-1 by miR-202-3p in brain metastatic breast cancer cells		39th World Cancer Conference
18:35-18:55 Title: An initial screening strategy based on epidemiological information in the esophageal cancer screening: A prospective evaluation in a community-based cancer screening cohort in rural China He Li, National Cancer Center, China Cancer Prevention & Research, Cancer Immunology & Immunotherapy, Cancer Therapy & Treatments, Cancer Prevention & Research, Cancer Immunology & Immunotherapy, Cancer Therapy & Treatments, Cancer Prevention & Research, Cancer Bio Markers, Organ Defined Cancer Chair: Co-Chair: 18:55-19:15 Title: In vitro study of the immunostimulating potential of dendritic vaccines and the cytotoxic activity of human CIK cells Assel Issabekova, National Center For Biotechnology, Kazakhstan 19:15-19:35 Title: PICC line thrombus and other thrombotic events in patients on PICC line chemotherapy for colorectal cancer Rosalyne Westley, Guys and St Thomas's Hospital, UK 19:35-19:55 Title: Assessment of durum wheat straw genotypes with improved saccharification efficiency Arta Fejzullahu, Marmara University, Turkey 19:55-20:15 Title: Regulation of MMP-1 by miR-202-3p in brain metastatic breast cancer cells	18:15-18:35	
screening: A prospective evaluation in a community-based cancer screening cohort in rural China He Li, National Cancer Center, China Cancer Prevention & Research, Cancer Immunology & Immunotherapy, Cancer Therapy & Treatments, Cancer Prevention & Research, Cancer Bio Markers, Organ Defined Cancer Chair: Co-Chair: 18:55-19:15 Title: In vitro study of the immunostimulating potential of dendritic vaccines and the cytotoxic activity of human CIK cells Assel Issabekova, National Center For Biotechnology, Kazakhstan 19:15-19:35 Title: PICC line thrombus and other thrombotic events in patients on PICC line chemotherapy for colorectal cancer Rosalyne Westley, Guys and St Thomas's Hospital, UK 19:35-19:55 Title: Assessment of durum wheat straw genotypes with improved saccharification efficiency Arta Fejzullahu, Marmara University, Turkey 19:55-20:15 Title: Regulation of MMP-1 by miR-202-3p in brain metastatic breast cancer cells		Mahmoud Saad Mohamed El-Khodary, Suez Canal University, Egypt
Cancer Prevention & Research, Cancer Immunology & Immunotherapy, Cancer Therapy & Treatments, Cancer Prevention & Research, Cancer Bio Markers, Organ Defined Cancer Chair: Co-Chair: 18:55-19:15 Title: In vitro study of the immunostimulating potential of dendritic vaccines and the cytotoxic activity of human CIK cells Assel Issabekova, National Center For Biotechnology, Kazakhstan 19:15-19:35 Title: PICC line thrombus and other thrombotic events in patients on PICC line chemotherapy for colorectal cancer Rosalyne Westley, Guys and St Thomas's Hospital, UK 19:35-19:55 Title: Assessment of durum wheat straw genotypes with improved saccharification efficiency Arta Fejzullahu, Marmara University, Turkey Title: Regulation of MMP-1 by miR-202-3p in brain metastatic breast cancer cells	18:35-18:55	
Research, Cancer Bio Markers, Organ Defined Cancer Chair: Co-Chair: 18:55-19:15 Title: In vitro study of the immunostimulating potential of dendritic vaccines and the cytotoxic activity of human CIK cells Assel Issabekova, National Center For Biotechnology, Kazakhstan Assel Issabekova, National Center For Biotechnology, Kazakhstan 19:15-19:35 Title: PICC line thrombus and other thrombotic events in patients on PICC line chemotherapy for colorectal cancer Rosalyne Westley, Guys and St Thomas's Hospital, UK Title: Assessment of durum wheat straw genotypes with improved saccharification efficiency Arta Fejzullahu, Marmara University, Turkey Title: Regulation of MMP-1 by miR-202-3p in brain metastatic breast cancer cells		He Li, National Cancer Center, China
Co-Chair: 18:55-19:15 Title: In vitro study of the immunostimulating potential of dendritic vaccines and the cytotoxic activity of human CIK cells Assel Issabekova, National Center For Biotechnology, Kazakhstan 19:15-19:35 Title: PICC line thrombus and other thrombotic events in patients on PICC line chemotherapy for colorectal cancer Rosalyne Westley, Guys and St Thomas's Hospital, UK 19:35-19:55 Title: Assessment of durum wheat straw genotypes with improved saccharification efficiency Arta Fejzullahu, Marmara University, Turkey 19:55-20:15 Title: Regulation of MMP-1 by miR-202-3p in brain metastatic breast cancer cells		
18:55-19:15 Title: In vitro study of the immunostimulating potential of dendritic vaccines and the cytotoxic activity of human CIK cells Assel Issabekova, National Center For Biotechnology, Kazakhstan 19:15-19:35 Title: PICC line thrombus and other thrombotic events in patients on PICC line chemotherapy for colorectal cancer Rosalyne Westley, Guys and St Thomas's Hospital, UK 19:35-19:55 Title: Assessment of durum wheat straw genotypes with improved saccharification efficiency Arta Fejzullahu, Marmara University, Turkey 19:55-20:15 Title: Regulation of MMP-1 by miR-202-3p in brain metastatic breast cancer cells	Research, Cancer	
activity of human CIK cells Assel Issabekova, National Center For Biotechnology, Kazakhstan 19:15-19:35 Title: PICC line thrombus and other thrombotic events in patients on PICC line chemotherapy for colorectal cancer Rosalyne Westley, Guys and St Thomas's Hospital, UK 19:35-19:55 Title: Assessment of durum wheat straw genotypes with improved saccharification efficiency Arta Fejzullahu, Marmara University, Turkey 19:55-20:15 Title: Regulation of MMP-1 by miR-202-3p in brain metastatic breast cancer cells	Research, Cancer Chair:	
19:15-19:35 Title: PICC line thrombus and other thrombotic events in patients on PICC line chemotherapy for colorectal cancer Rosalyne Westley, Guys and St Thomas's Hospital, UK 19:35-19:55 Title: Assessment of durum wheat straw genotypes with improved saccharification efficiency Arta Fejzullahu, Marmara University, Turkey 19:55-20:15 Title: Regulation of MMP-1 by miR-202-3p in brain metastatic breast cancer cells	Research, Cancer Chair: Co-Chair:	Bio Markers, Organ Defined Cancer
colorectal cancer Rosalyne Westley, Guys and St Thomas's Hospital, UK 19:35-19:55 Title: Assessment of durum wheat straw genotypes with improved saccharification efficiency Arta Fejzullahu, Marmara University, Turkey 19:55-20:15 Title: Regulation of MMP-1 by miR-202-3p in brain metastatic breast cancer cells	Research, Cancer Chair: Co-Chair:	Bio Markers, Organ Defined Cancer Title: In vitro study of the immunostimulating potential of dendritic vaccines and the cytotoxic
19:35-19:55 Title: Assessment of durum wheat straw genotypes with improved saccharification efficiency Arta Fejzullahu, Marmara University, Turkey 19:55-20:15 Title: Regulation of MMP-1 by miR-202-3p in brain metastatic breast cancer cells	Research, Cancer Chair: Co-Chair:	Bio Markers, Organ Defined Cancer Title: In vitro study of the immunostimulating potential of dendritic vaccines and the cytotoxic activity of human CIK cells
Arta Fejzullahu, Marmara University, Turkey 19:55-20:15 Title: Regulation of MMP-1 by miR-202-3p in brain metastatic breast cancer cells	Research, Cancer Chair: Co-Chair: 18:55-19:15	Bio Markers, Organ Defined Cancer Title: In vitro study of the immunostimulating potential of dendritic vaccines and the cytotoxic activity of human CIK cells Assel Issabekova, National Center For Biotechnology, Kazakhstan Title: PICC line thrombus and other thrombotic events in patients on PICC line chemotherapy for
Arta Fejzullahu, Marmara University, Turkey 19:55-20:15 Title: Regulation of MMP-1 by miR-202-3p in brain metastatic breast cancer cells	Research, Cancer Chair: Co-Chair: 18:55-19:15	Bio Markers, Organ Defined Cancer Title: In vitro study of the immunostimulating potential of dendritic vaccines and the cytotoxic activity of human CIK cells Assel Issabekova, National Center For Biotechnology, Kazakhstan Title: PICC line thrombus and other thrombotic events in patients on PICC line chemotherapy for colorectal cancer
19:55-20:15 Title: Regulation of MMP-1 by miR-202-3p in brain metastatic breast cancer cells	Research, Cancer Chair: Co-Chair: 18:55-19:15	Bio Markers, Organ Defined Cancer Title: In vitro study of the immunostimulating potential of dendritic vaccines and the cytotoxic activity of human CIK cells Assel Issabekova, National Center For Biotechnology, Kazakhstan Title: PICC line thrombus and other thrombotic events in patients on PICC line chemotherapy for colorectal cancer
	Research, Cancer Chair: Co-Chair: 18:55-19:15 19:15-19:35	Bio Markers, Organ Defined Cancer Title: In vitro study of the immunostimulating potential of dendritic vaccines and the cytotoxic activity of human CIK cells Assel Issabekova, National Center For Biotechnology, Kazakhstan Title: PICC line thrombus and other thrombotic events in patients on PICC line chemotherapy for colorectal cancer Rosalyne Westley, Guys and St Thomas's Hospital, UK
Rania Harati, University of Sharjah, UAE	Research, Cancer Chair: Co-Chair: 18:55-19:15 19:15-19:35	Bio Markers, Organ Defined Cancer Title: In vitro study of the immunostimulating potential of dendritic vaccines and the cytotoxic activity of human CIK cells Assel Issabekova, National Center For Biotechnology, Kazakhstan Title: PICC line thrombus and other thrombotic events in patients on PICC line chemotherapy for colorectal cancer Rosalyne Westley, Guys and St Thomas's Hospital, UK Title: Assessment of durum wheat straw genotypes with improved saccharification efficiency
	Research, Cancer Chair: Co-Chair: 18:55-19:15 19:15-19:35	Bio Markers, Organ Defined Cancer Title: In vitro study of the immunostimulating potential of dendritic vaccines and the cytotoxic activity of human CIK cells Assel Issabekova, National Center For Biotechnology, Kazakhstan Title: PICC line thrombus and other thrombotic events in patients on PICC line chemotherapy for colorectal cancer Rosalyne Westley, Guys and St Thomas's Hospital, UK Title: Assessment of durum wheat straw genotypes with improved saccharification efficiency Arta Fejzullahu, Marmara University, Turkey
