 Scientific Program

Day 1    September 14, 2017

Opening Ceremony

**Introduction**

**Keynote Session**

**Title:** Integration of personalized Biomedical Information Therapy (Bio-IT) into daily practice  
Silvia Binder, The Binder Institute for Personalized Medicine, Germany

**Title:** Ab-proteases as unique biomarkers and biopredictors to monitor Chronic inflammation of autoimmune origin at subclinical and clinical stages  
Sergey Suchkov, I.M. Sechenov First Moscow State Medical University, Russia

**Title:** Personalization in coronary/peripheral interventions is the new frontier  
Malakoudis Eleftherios, ALVEK Medical Implants, Greece

**Networking & Refreshment**

**Session Introduction**

**Title:** Gut-brain signals following stress: updates from integration by Shugan  
Xi Huang, Nanjing University of Chinese Medicine, China

**Title:** Personalised therapy at the surgical ICU - individual effective dosing regimens of time-dependent ß-lactam antibiotics for critically ill ICU patients  
Milan Kaska, Czech Republic

**Title:** Dextromethorphan breath test as a CDx for personalizing psychiatric medications: transition from research to the clinic  
Anil Modak, National Center for Health Statistics, USA

**Title:** A non invasive multimodal Magnetic Resonance Imaging (MRI) application for predictive assessment of Peripheral Artheropathy (Diabetic Foot disease)  
Girolamo Garreffa, Fondazione Potito, Italy

**Title:** Public Health Model is about to be changed: Personalized Medicine (PM) as  
Sergey Suchkov, I.M. Sechenov First Moscow State Medical University, Russia

**Title:** How should the incidental findings emerging from Whole genomic sequencing  
Prince Nwaubani, Keele University, UK

Major Scientific Sessions

- Molecular diagnostics in personalized medicine
- Biomarkers in personalized medicine
- Pharmacogenetics in personalized medicine
- Pharmacogenomics in personalized medicine
- Pharmacoproteomics in personalized medicine
- Metabolomics personalized medicine
- Non-genomics personalized medicine
- Personalized biological therapies
- Personalized management of cancer therapy
- Personalized management of infectious diseases
- Personalized management of neurological disorders

- Personalized management of psychiatric disorders
- Personalized management of cardiovascular disorders
- Personalized management of pulmonary disorders
- Personalised management of genetic disorders
- Personalized management of immune disorders
- Personalized in healthcare
- Personalized non-pharmacological therapies
- Developed of personalized medicine
- Ethics of personalized medicine
- Regulatory of Personalized medicine
- Economics of personalized medicine
- Future of Personalized medicine

Best Poster Award
- You will be given about 5-7 minutes to present your poster including questions and answers. Judges may pose questions during the evaluation of the poster.
- Judges will even evaluate the student’s enthusiasm towards their study, interest and knowledge in the area of their research.
- The winners will be announced at the closing ceremony of the conference. The decision of the winner will be withdrawn if the winner/winners is/are not present at the time of announcement.
- Apart from the judging time you may also be present at the poster to share your research with interested delegates.

Young Researchers Forum
- Present your research through oral presentations.
- Learn about career development and the latest research tools and technologies in your field.
- This forum will give pertinent and timely information to those who conduct research and those who use and benefit from research.
- Develop a foundation for collaboration among young researchers.
- The forum will provide an opportunity for collegial interaction with other young investigators and established senior investigators across the globe.
- Interact and share ideas with both peers and mentors.

About Edinburgh

Edinburgh is the capital city of Scotland and one of its 32 local government council areas. Located in Lothian on the Firth of Forth’s southern shore, it is Scotland’s second most populous city and the seventh most populous in the United Kingdom. The 2014 official population estimates are 464,990 for the city of Edinburgh, 492,680 for the local authority area, and 1,339,380 for the city region as of 2014 (Edinburgh lies at the heart of the proposed Edinburgh and South East Scotland city region). Recognised as the capital of Scotland since at least the 15th century, Edinburgh is home to the Scottish Parliament and the seat of the monarchy in Scotland. The city is also the annual venue of the General Assembly of the Church of Scotland and home to national institutions such as the National Museum of Scotland, the National Library of Scotland and the Scottish National Gallery. It is the largest financial centre in the UK after London.

Historically part of Midlothian, the city has long been a centre of education, particularly in the fields of medicine, Scots law, literature, the sciences and engineering. The University of Edinburgh, founded in 1582 and now one of four in the city, was placed 17th in the QS World University Rankings in 2013 and 2014. The city is also famous for the Edinburgh International Festival and the Fringe, the latter being the world’s largest annual international arts festival. The city’s historical and cultural attractions have made it the United Kingdom’s second most popular tourist destination after London, attracting over one million overseas visitors each year. Historic sites in Edinburgh include Edinburgh Castle, Holyrood Palace, the churches of St. Giles, Greyfriars and the Canongate, and the extensive Georgian New Town, built in the 18th century. Edinburgh’s Old Town and New Town together are listed as a UNESCO World Heritage Site, which has been managed by Edinburgh World Heritage since 1999.
