

Scientific Program

Joint Event

31st Euro Global Summit and Expo on

Vaccines & Vaccination &

4th World Congress and Exhibition on

Antibiotics and Antibiotic Resistance

June 14-16, 2018 | Barcelona, Spain

UK: Conference Series IIc LTD

47 Churchfield Road, London, W3 6AY Toll Free: +0-800-014-8923

Hall - Linate

conferenceseries.com 08:30-08:55

Opening Ceremony

	Keynote Forum
08:55-09:00	Introduction
00.00.00.40	Title: Targeted delivery in rational vaccine design
09:00-09:40	Gabriel Kristian Pedersen, Statens Serum Institut, Denmark
09:40-10:20	Title: Listeria based nanovaccines as therapeutic vaccines
09:40-10:20	Carmen Alvarez-Dominguez, Instituto de Investigación Marqués de Valdecilla, Spain
	Group Photo
	Networking & Refreshment Break: 10:20-10:40 @ Lobby
10.40-11:20	Title: Overcoming antibiotic resistance: Inhibition of Id-transpeptidation in multi-drug resistant pathogens
10.70-11.20	Mario A Bianchet, Johns Hopkins School of Medicine, USA
	Title: Kinugasa reaction as an attractive method of the synthesis of β -lactam drugs
11:20-12:00	Marek Chmielewski, Polish Academy of Sciences, Poland
	Session -1
	nes - Infectious & Non Infectious Diseases Vaccine Research & Development
	ccines Vaccination for pregnant women
A STATE OF THE PARTY OF THE PAR	Frederic December University Hespital of Points France
Session Chair	Frederic J Deschamps, University Hospital of Reims, France
	Session Introduction
12:00-12:25	Session Introduction Title: Polio: An international threat
	Title: Polio: An international threat Randa S Hamadeh, Ministry of Public Health, Lebanon
	Session Introduction Title: Polio: An international threat
12:00-12:25	Session Introduction Title: Polio: An international threat Randa S Hamadeh, Ministry of Public Health, Lebanon Title: Perspectives of vaccinators on the factors affecting uptake of MenACWY vaccine amongst
12:00-12:25	Session Introduction Title: Polio: An international threat Randa S Hamadeh, Ministry of Public Health, Lebanon Title: Perspectives of vaccinators on the factors affecting uptake of MenACWY vaccine amongst school leavers in London
12:00-12:25 12:25-12:50	Title: Polio: An international threat Randa S Hamadeh, Ministry of Public Health, Lebanon Title: Perspectives of vaccinators on the factors affecting uptake of MenACWY vaccine amongst school leavers in London Catherine Heffernan, Public Health England, UK
12:00-12:25	Session Introduction Title: Polio: An international threat Randa S Hamadeh, Ministry of Public Health, Lebanon Title: Perspectives of vaccinators on the factors affecting uptake of MenACWY vaccine amongst school leavers in London Catherine Heffernan, Public Health England, UK Lunch Break: 12:50-13:40 @ MEDITERRÁNEO Restaurant
12:00-12:25 12:25-12:50 13:40-14:05	Title: Polio: An international threat Randa S Hamadeh, Ministry of Public Health, Lebanon Title: Perspectives of vaccinators on the factors affecting uptake of MenACWY vaccine amongst school leavers in London Catherine Heffernan, Public Health England, UK Lunch Break: 12:50-13:40 @ MEDITERRÁNEO Restaurant Title: Nanovaccines to prevent neonatal listeriosis Carmen Alvarez-Dominguez, Instituto de Investigación Marqués de Valdecilla, Spain Title: Implications of IPV introduction in national immunization schedule and strategies
12:00-12:25 12:25-12:50 13:40-14:05	Title: Polio: An international threat Randa S Hamadeh, Ministry of Public Health, Lebanon Title: Perspectives of vaccinators on the factors affecting uptake of MenACWY vaccine amongst school leavers in London Catherine Heffernan, Public Health England, UK Lunch Break: 12:50-13:40 @ MEDITERRÁNEO Restaurant Title: Nanovaccines to prevent neonatal listeriosis Carmen Alvarez-Dominguez, Instituto de Investigación Marqués de Valdecilla, Spain Title: Implications of IPV introduction in national immunization schedule and strategies to combat shortages
12:00-12:25 12:25-12:50 13:40-14:05	Title: Polio: An international threat Randa S Hamadeh, Ministry of Public Health, Lebanon Title: Perspectives of vaccinators on the factors affecting uptake of MenACWY vaccine amongst school leavers in London Catherine Heffernan, Public Health England, UK Lunch Break: 12:50-13:40 @ MEDITERRÁNEO Restaurant Title: Nanovaccines to prevent neonatal listeriosis Carmen Alvarez-Dominguez, Instituto de Investigación Marqués de Valdecilla, Spain Title: Implications of IPV introduction in national immunization schedule and strategies to combat shortages Pragya Sharma, Maulana Azad Medical College, India
12:00-12:25 12:25-12:50 13:40-14:05 14:05-14:30	Title: Polio: An international threat Randa S Hamadeh, Ministry of Public Health, Lebanon Title: Perspectives of vaccinators on the factors affecting uptake of MenACWY vaccine amongst school leavers in London Catherine Heffernan, Public Health England, UK Lunch Break: 12:50-13:40 @ MEDITERRÁNEO Restaurant Title: Nanovaccines to prevent neonatal listeriosis Carmen Alvarez-Dominguez, Instituto de Investigación Marqués de Valdecilla, Spain Title: Implications of IPV introduction in national immunization schedule and strategies to combat shortages Pragya Sharma, Maulana Azad Medical College, India Title: Investigations into the reduced effectiveness of the H1N1pdm09 component of the
12:00-12:25 12:25-12:50 13:40-14:05	Title: Polio: An international threat Randa S Hamadeh, Ministry of Public Health, Lebanon Title: Perspectives of vaccinators on the factors affecting uptake of MenACWY vaccine amongst school leavers in London Catherine Heffernan, Public Health England, UK Lunch Break: 12:50-13:40 @ MEDITERRÁNEO Restaurant Title: Nanovaccines to prevent neonatal listeriosis Carmen Alvarez-Dominguez, Instituto de Investigación Marqués de Valdecilla, Spain Title: Implications of IPV introduction in national immunization schedule and strategies to combat shortages Pragya Sharma, Maulana Azad Medical College, India Title: Investigations into the reduced effectiveness of the H1N1pdm09 component of the live attenuated influenza vaccine
12:00-12:25 12:25-12:50 13:40-14:05 14:05-14:30	Title: Polio: An international threat Randa S Hamadeh, Ministry of Public Health, Lebanon Title: Perspectives of vaccinators on the factors affecting uptake of MenACWY vaccine amongst school leavers in London Catherine Heffernan, Public Health England, UK Lunch Break: 12:50-13:40 @ MEDITERRÁNEO Restaurant Title: Nanovaccines to prevent neonatal listeriosis Carmen Alvarez-Dominguez, Instituto de Investigación Marqués de Valdecilla, Spain Title: Implications of IPV introduction in national immunization schedule and strategies to combat shortages Pragya Sharma, Maulana Azad Medical College, India Title: Investigations into the reduced effectiveness of the H1N1pdm09 component of the

12:00-12:25 12:25-12:50 13:40-14:05 14:05-14:30 14:30-14:55 Antibiotics A	Title: Polio: An international threat Randa S Hamadeh, Ministry of Public Health, Lebanon Title: Perspectives of vaccinators on the factors affecting uptake of MenACWY vaccine amongst school leavers in London Catherine Heffernan, Public Health England, UK Lunch Break: 12:50-13:40 @ MEDITERRÁNEO Restaurant Title: Nanovaccines to prevent neonatal listeriosis Carmen Alvarez-Dominguez, Instituto de Investigación Marqués de Valdecilla, Spain Title: Implications of IPV introduction in national immunization schedule and strategies to combat shortages Pragya Sharma, Maulana Azad Medical College, India Title: Investigations into the reduced effectiveness of the H1N1pdm09 component of the live attenuated influenza vaccine Helen Bright, Medimmune, UK Session -2

Action

Session Chair: Marek Chmielewski, Polish Academy of Sciences, Poland

Session Introduction

Title: Antibacterial and anti-biofilm activity of novel compounds of arctic marine origin 14:55-15:20 Klara Stensvag, University of Tromsø - The Arctic University of Norway, Norway

	Networking & Refreshment Break: 15:45-16:05 @ Lobby
16:05-16:30	Title: Cytotoxic and antiradical activity of roseofungin
	Iskakova Zhanar Baktybaevna, Kazakh University of Technology and Business, Kazakhstan
16:30-16:55	Title: Binding modes of teixobactin to Lipid II: Molecular dynamics study
	Yuguang Mu, Nanyang Technological University, Singapore
	Title: Imipenem and meropenem Drug Utilization Evaluation (DUE) in the Social Security
16:55-17:20	Hospital in Khorramabad
	Amin Noori, Social Security Hospital, Iran
	Panel Discussion
	Day 2 June 15, 2018
	Hall - Linate
	Keynote Forum
09:00-09:40	Title: HIV universal vaccine
	Marek Malecki, Phoenix Biomolecular Engineering Foundation, USA
09:40-10:20	Title: Vaccinations in working populations
	Frederic J Deschamps, University Hospital of Reims, France
	Networking & Refreshment Break: 10:20-10:40 @ Lobby
10:40-11:20	Title: Metal nanoparticles as a novel tool to fight microbial biofilm development and
	antibiotic-resistance emergency
	Roberto Grau, Universidad Nacional de Rosario, Argentina
11:20-12:00	Title: Aminoglycoside antibiotics and hearing loss
	María Rosa Chaig, Bioquímica y Biología Molecular, Argentina
Sessions: HIV	Vaccines Vaccine Research & Development Human Vaccines - Infectious & Non
	Vaccines Vaccine Research & Development Human Vaccines - Infectious & Non eases Veterinary Vaccines Vaccines against Viral & Bacterial Diseases

Infectious Disc Session Chair	eases Veterinary Vaccines Vaccines against Viral & Bacterial Diseases Chit Laa Poh, Sunway University, Malaysia Session Introduction Title: Targeting conserved broadly neutralizing epitopes within HIV-1 envelope gp41 MPER as
Infectious Disc Session Chair	Session Introduction Title: Targeting conserved broadly neutralizing epitopes within HIV-1 envelope gp41 MPER as vaccine immunogens for seronegative partners of HIV-1 discordant couples
Infectious Disc Session Chair	Session Introduction Title: Targeting conserved broadly neutralizing epitopes within HIV-1 envelope gp41 MPER as vaccine immunogens for seronegative partners of HIV-1 discordant couples Godwin W Nchinda, CIRCB, Cameroon
Infectious Disc Session Chair 12:00-12:25	Session Introduction Title: Targeting conserved broadly neutralizing epitopes within HIV-1 envelope gp41 MPER as vaccine immunogens for seronegative partners of HIV-1 discordant couples Godwin W Nchinda, CIRCB, Cameroon Title: Repeated influenza vaccination is a potential cause for reduced B cell response in
Infectious Disc Session Chair 12:00-12:25	Session Introduction Title: Targeting conserved broadly neutralizing epitopes within HIV-1 envelope gp41 MPER as vaccine immunogens for seronegative partners of HIV-1 discordant couples Godwin W Nchinda, CIRCB, Cameroon Title: Repeated influenza vaccination is a potential cause for reduced B cell response in the elderly
Infectious Disc Session Chair 12:00-12:25 12:25-12:50	Session Introduction Title: Targeting conserved broadly neutralizing epitopes within HIV-1 envelope gp41 MPER as vaccine immunogens for seronegative partners of HIV-1 discordant couples Godwin W Nchinda, CIRCB, Cameroon Title: Repeated influenza vaccination is a potential cause for reduced B cell response in the elderly Xiao-Song He, VA Palo Alto Health Care System, USA Lunch Break: 12:50-13:40 @ MEDITERRÁNEO Restaurant
Infectious Disc Session Chair 12:00-12:25	Session Introduction Title: Targeting conserved broadly neutralizing epitopes within HIV-1 envelope gp41 MPER as vaccine immunogens for seronegative partners of HIV-1 discordant couples Godwin W Nchinda, CIRCB, Cameroon Title: Repeated influenza vaccination is a potential cause for reduced B cell response in the elderly Xiao-Song He, VA Palo Alto Health Care System, USA Lunch Break: 12:50-13:40 @ MEDITERRÁNEO Restaurant Title: Chicken IFITM gene knockout technology for enhanced vaccine production
Infectious Disc Session Chair 12:00-12:25 12:25-12:50	Session Introduction Title: Targeting conserved broadly neutralizing epitopes within HIV-1 envelope gp41 MPER as vaccine immunogens for seronegative partners of HIV-1 discordant couples Godwin W Nchinda, CIRCB, Cameroon Title: Repeated influenza vaccination is a potential cause for reduced B cell response in the elderly Xiao-Song He, VA Palo Alto Health Care System, USA Lunch Break: 12:50-13:40 @ MEDITERRÁNEO Restaurant Title: Chicken IFITM gene knockout technology for enhanced vaccine production Mark Fife, The Pirbright Institute, UK
Infectious Disc Session Chair 12:00-12:25 12:25-12:50	Session Introduction Title: Targeting conserved broadly neutralizing epitopes within HIV-1 envelope gp41 MPER as vaccine immunogens for seronegative partners of HIV-1 discordant couples Godwin W Nchinda, CIRCB, Cameroon Title: Repeated influenza vaccination is a potential cause for reduced B cell response in the elderly Xiao-Song He, VA Palo Alto Health Care System, USA Lunch Break: 12:50-13:40 @ MEDITERRÁNEO Restaurant Title: Chicken IFITM gene knockout technology for enhanced vaccine production Mark Fife, The Pirbright Institute, UK Title: MicroRNA reduction of enterovirus 71 viral replication attenuates and confers
Infectious Disc Session Chair 12:00-12:25 12:25-12:50	Session Introduction Title: Targeting conserved broadly neutralizing epitopes within HIV-1 envelope gp41 MPER as vaccine immunogens for seronegative partners of HIV-1 discordant couples Godwin W Nchinda, CIRCB, Cameroon Title: Repeated influenza vaccination is a potential cause for reduced B cell response in the elderly Xiao-Song He, VA Palo Alto Health Care System, USA Lunch Break: 12:50-13:40 @ MEDITERRÁNEO Restaurant Title: Chicken IFITM gene knockout technology for enhanced vaccine production Mark Fife, The Pirbright Institute, UK Title: MicroRNA reduction of enterovirus 71 viral replication attenuates and confers protective immune response in mice
Infectious Disc Session Chair 12:00-12:25 12:25-12:50	Session Introduction Title: Targeting conserved broadly neutralizing epitopes within HIV-1 envelope gp41 MPER as vaccine immunogens for seronegative partners of HIV-1 discordant couples Godwin W Nchinda, CIRCB, Cameroon Title: Repeated influenza vaccination is a potential cause for reduced B cell response in the elderly Xiao-Song He, VA Palo Alto Health Care System, USA Lunch Break: 12:50-13:40 @ MEDITERRÁNEO Restaurant Title: Chicken IFITM gene knockout technology for enhanced vaccine production Mark Fife, The Pirbright Institute, UK Title: MicroRNA reduction of enterovirus 71 viral replication attenuates and confers protective immune response in mice Chit Laa Poh, Sunway University, Malaysia
Infectious Disc Session Chair 12:00-12:25 12:25-12:50	Session Introduction Title: Targeting conserved broadly neutralizing epitopes within HIV-1 envelope gp41 MPER as vaccine immunogens for seronegative partners of HIV-1 discordant couples Godwin W Nchinda, CIRCB, Cameroon Title: Repeated influenza vaccination is a potential cause for reduced B cell response in the elderly Xiao-Song He, VA Palo Alto Health Care System, USA Lunch Break: 12:50-13:40 @ MEDITERRÁNEO Restaurant Title: Chicken IFITM gene knockout technology for enhanced vaccine production Mark Fife, The Pirbright Institute, UK Title: MicroRNA reduction of enterovirus 71 viral replication attenuates and confers protective immune response in mice
Infectious Disc Session Chair 12:00-12:25 12:25-12:50	Session Introduction Title: Targeting conserved broadly neutralizing epitopes within HIV-1 envelope gp41 MPER as vaccine immunogens for seronegative partners of HIV-1 discordant couples Godwin W Nchinda, CIRCB, Cameroon Title: Repeated influenza vaccination is a potential cause for reduced B cell response in the elderly Xiao-Song He, VA Palo Alto Health Care System, USA Lunch Break: 12:50-13:40 @ MEDITERRÁNEO Restaurant Title: Chicken IFITM gene knockout technology for enhanced vaccine production Mark Fife, The Pirbright Institute, UK Title: MicroRNA reduction of enterovirus 71 viral replication attenuates and confers protective immune response in mice Chit Laa Poh, Sunway University, Malaysia Poster Presentation 14:30-15:15 @ Foyer
Infectious Disc Session Chair 12:00-12:25 12:25-12:50	Chit Laa Poh, Sunway University, Malaysia Session Introduction Title: Targeting conserved broadly neutralizing epitopes within HIV-1 envelope gp41 MPER as vaccine immunogens for seronegative partners of HIV-1 discordant couples Godwin W Nchinda, CIRCB, Cameroon Title: Repeated influenza vaccination is a potential cause for reduced B cell response in the elderly Xiao-Song He, VA Palo Alto Health Care System, USA Lunch Break: 12:50-13:40 @ MEDITERRÁNEO Restaurant Title: Chicken IFITM gene knockout technology for enhanced vaccine production Mark Fife, The Pirbright Institute, UK Title: MicroRNA reduction of enterovirus 71 viral replication attenuates and confers protective immune response in mice Chit Laa Poh, Sunway University, Malaysia Poster Presentation 14:30-15:15 @ Foyer Antibiotics and Antibiotic Resistance Title: Pharmacokinetics/pharmacodynamics modeling of cyadox against Clostridium perfringens in pigs
Infectious Disc Session Chair 12:00-12:25 12:25-12:50 13:40-14:05	Session Introduction Title: Targeting conserved broadly neutralizing epitopes within HIV-1 envelope gp41 MPER as vaccine immunogens for seronegative partners of HIV-1 discordant couples Godwin W Nchinda, CIRCB, Cameroon Title: Repeated influenza vaccination is a potential cause for reduced B cell response in the elderly Xiao-Song He, VA Palo Alto Health Care System, USA Lunch Break: 12:50-13:40 @ MEDITERRÁNEO Restaurant Title: Chicken IFITM gene knockout technology for enhanced vaccine production Mark Fife, The Pirbright Institute, UK Title: MicroRNA reduction of enterovirus 71 viral replication attenuates and confers protective immune response in mice Chit Laa Poh, Sunway University, Malaysia Poster Presentation 14:30-15:15 @ Foyer Antibiotics and Antibiotic Resistance Title: Pharmacokinetics/pharmacodynamics modeling of cyadox against Clostridium perfringens in pigs Lingli Huang, Huazhong Agricultural University, China
Infectious Disc Session Chair 12:00-12:25 12:25-12:50 13:40-14:05 14:05-14:30	Chit Laa Poh, Sunway University, Malaysia Session Introduction Title: Targeting conserved broadly neutralizing epitopes within HIV-1 envelope gp41 MPER as vaccine immunogens for seronegative partners of HIV-1 discordant couples Godwin W Nchinda, CIRCB, Cameroon Title: Repeated influenza vaccination is a potential cause for reduced B cell response in the elderly Xiao-Song He, VA Palo Alto Health Care System, USA Lunch Break: 12:50-13:40 @ MEDITERRÁNEO Restaurant Title: Chicken IFITM gene knockout technology for enhanced vaccine production Mark Fife, The Pirbright Institute, UK Title: MicroRNA reduction of enterovirus 71 viral replication attenuates and confers protective immune response in mice Chit Laa Poh, Sunway University, Malaysia Poster Presentation 14:30-15:15 @ Foyer Antibiotics and Antibiotic Resistance Title: Pharmacokinetics/pharmacodynamics modeling of cyadox against Clostridium perfringens in pigs Lingli Huang, Huazhong Agricultural University, China Title: New potent anti-Gram negative compounds from the myxobacteria Corallococcus
Infectious Disc Session Chair 12:00-12:25 12:25-12:50 13:40-14:05	Session Introduction Title: Targeting conserved broadly neutralizing epitopes within HIV-1 envelope gp41 MPER as vaccine immunogens for seronegative partners of HIV-1 discordant couples Godwin W Nchinda, CIRCB, Cameroon Title: Repeated influenza vaccination is a potential cause for reduced B cell response in the elderly Xiao-Song He, VA Palo Alto Health Care System, USA Lunch Break: 12:50-13:40 @ MEDITERRÁNEO Restaurant Title: Chicken IFITM gene knockout technology for enhanced vaccine production Mark Fife, The Pirbright Institute, UK Title: MicroRNA reduction of enterovirus 71 viral replication attenuates and confers protective immune response in mice Chit Laa Poh, Sunway University, Malaysia Poster Presentation 14:30-15:15 @ Foyer Antibiotics and Antibiotic Resistance Title: Pharmacokinetics/pharmacodynamics modeling of cyadox against Clostridium perfringens in pigs Lingli Huang, Huazhong Agricultural University, China

Title: Functional genomics and transcriptomics of virulent and multidrug resistant

Haihong Hao, Huazhong Agricultural University, China

15:20-15:45 Escherichia coli of poultry origin

ANTB003	Title: Enterocin AP-CECT7121: Activity against human methicillin-resistant Staphylococcus aureus producers of biofilm
AITIBOOS	Mónica Sparo, Universidad Nacional del Centro de la Provincia de Buenos Aires, Argentina
	Title: Detection of extended spectrum beta-lactamase producing <i>E. coli</i> isolated from different
ANTB004	clinical specimens, Zahedan, Iran
	Shahnaz Armin, Shahid Beheshti University of Medical Sciences, Iran
	Title: Molecular detection antibiotic resistance in multidrug Acinetobacter baumannii isolated from
ANTB005	west province of Iran
	Leila Azimi, Shahid Beheshti University of Medical Sciences, Iran
	Title: The peculiarities of tetraphenylphosphonium and ethidium interaction with <i>Listeria</i>
ANTB006	monocytogenes and efficiencies of efflux
	Sandra Sakalauskaite, Vytautas Magnus University, Lithuania
	Title: The inhibitory effect of new phenothiazine derivatives of ABC transporters in Candida
ANTB007	albicans
	Neringa Kuliešiene, Vytautas Magnus University, Lithuania
	Networking & Refreshment Break: 15:15-15:30 @ Lobby
	Poster Presentation 15:30-16:30 @ Foyer
	Vaccines & Vaccination
	Title: Factors affecting uptake of MenACWY vaccination programme in schools: Insights from a
EVACC 01	London wide study
	Lucy Rumbellow, Public Health England, UK
EVACC 02	Title: Implementing the evidence: Are call/recall systems for immunizations feasible?
	Catherine Heffernan, Public Health England, UK
	Title: No association between HPV vaccine and reported post-vaccination symptoms in
EVACC 03	Japanese young women: Results of the Nagoya study
	Sadao Suzuki, Nagoya City University, Japan
EVACC 04	Title: C-di-GMP as an effective microneedle vaccine adjuvant candidate on mouse
	Andrew Cho, Konkuk University, South Korea
EVACC 05	Title: Lactic acid bacteria (Lab) as a potent adjuvant increase immunogenicity of reverse
EVACC 05	genetics derived H5N9 vaccines in domestic ducks Jun-beom Kim, Konkuk University, South Korea
	Title: Efficacy and safety of inactivated Newcastle disease virus vaccines emulsified with two
EVACC 06	different oil adjuvants
EVACC 00	Jei Hyun Jeong, Konkuk University, South Korea
	Title: Minimum infectious dose determination of the Korean isolated strain of infectious
EVACC 07	laryngotracheitis virus vaccine candidate strain by eye drop administration
LVACC 07	Dam-Hee Park, Konkuk University, South Korea
	Title: Evaluation of the efficacy and oviduct lesion of novel recombinant live attenuated avian
EVACC 08	infectious bronchitis virus
	Jun-Young Kim, Konkuk University, South Korea
	Title: Development of a novel thermostable Newcastle disease virus vaccine vector from wild
EVACC 09	bird origin
	Jin-yong Noh, Konkuk University, South Korea
	Title: Study on vaccines of botulinum neurotoxin serotype A
EVACC 10	Wei-Cai Zhang, Beijing Institute of Biotechnology, China
	Title: Design and production of conjugate vaccines against S. Paratyphi A using an o-linked
EVACC 11	glycosylation system in vivo
	Hengliang Wang, Beijing Institute of Biotechnology, China
EVACC 10	Title: Cross-neutralization between vaccine and circulating wild-type mumps viruses in Korea
EVACC 12	Hyeran Won, National Institute of Health, South Korea
	Panel Discussion

Awards for Poster Presentations
