Important Dates

Abstract submission opens: October 11, 2018

Registration opens: October 11, 2018

Early bird registration: November 30, 2019

On spot registration: March 15, 2019

Accommodation

A large number of rooms have been reserved. Discounted room rates for Family Medicine 2019 participants are proposed. Only reservations made through the Conference will benefit these rates. The Congress Center can be easily reached by public transportation.

Exhibition and Sponsorship

An Exhibition will be held concurrently with the Conference. The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of new findings in the fields of Cardiology and Medicine.

About Brisbane

Brisbane is the capital and most populous city in the Australian state of Queensland, and the third most populous city in Australia. It is a multi-cultural hub of creativity and invention that provides students with forward-thinking educational providers and world-class research facilities, all in a sub-tropical climate ideal for an outdoor lifestyle. The Port of Brisbane is one of Australia's fastest-growing container ports and Queensland's largest general cargo port. Brisbane is built on a strong foundation of infrastructure with a comprehensive road and rail network and a fully-integrated public transport and ticketing system. Brisbane has a humid subtropical climate with hot, humid summers and dry moderately warm winters. Due to its proximity to the Coral Sea and a warm ocean current, Brisbane's overall temperature variability is somewhat less than most other Australian capitals, particularly in winter. Brisbane has seen consistent economic growth in recent years as a result of the resources boom. White-collar industries include information technology, financial services, higher education and public sector administration generally concentrated in and around the central business district and recently established office areas in the inner suburbs.
